LINDSAY, FRIDAY, AUGUST 11th

### TWO GREAT EVENTS

Thursday, Sept. 21st will mark two great events in Canadian history—the date of the Dominion elections and the opening of Lindsay's great Fair.

### A LAR PROBLEM

What has Col. Sam. Hughes done for the riding of Victoria and Haliburton? The first to solve this puzzle will get a free ride in R.L. Borden's aeroplane, "Blasted-Hopes," on its farewell trip Sept. 21st.

### RECIPROCITY THE ISSUE

Just as the doctrine of protections dominated as the sole issue at the elections of 1878, as the B. P. R. was the issue in 1882, as the G. T. P. was the issue in 1908, so the Reciprocity agreement is the issue in the present election.

### PLAYED INTO HIS HANDS

The more the tactics of the Opposition during the past few months are considered the more apparent it is that Mr. Borden played right into Sir Wilfrid's hands. The Prime Minister has got the election he wanted on the issue he desired under conditions which subject the Opposition to serious, and probably fatal, disadvantages.

## SCOTT'S EMULSION

is now a summer as well as a winter remedy. It has the same invigorating and strength-producing effect in summer as in winter. Try it in a little cold milk or water. ALL DRUGGISTS

### IT'S COMING TO THEM

Sir Wilfrid states the issue clearly to the jury. It is only a matter of waiting for the verdict. The present Parliament's work has been improperly interrupted two years before the natural time. The Conservatives need a lesson. They will get it on September 21.

### A CAMPAIGN SLOGAN

The Montreal Herald suggests a campaign slogan: "Let the farmer have his turn!" It is a good one for it goes to the heart of the issue. The Herald was the author of the cry—"Let Laurier finish his work!" which is still a popular one. If it is laid aside, it is only because the people have shown that they are indeed determined that he shall have a chance to finish it. It is time the farmer had his turn. The "interests" are going to finance a campaign against the farmer. They will be wiser later on. That way lies danger.

### ELECTION POINTERS

- Boost Reciprocity.
- Laurier and more markets.
- Trust the Liberals.
- The issue is clear.
- The battle is on.
- Swat the anti-Reciprocity fellow.
- Spud the High-tariff Tories.
- Laurier and larger markets.
- Reciprocity is the farmer's friend.
- Reciprocity spells opportunity.
- If you want reciprocity, vote Liberal.

### A FOUR PROPHET

The hopeful pre-election prophecies of the opposition leaders in 1908, are now being cruelly recalled. The Toronto News, immediately prior to the going in October, 1908, encouraged its readers by demonstrating the hopelessness of the Government's position. Ontario alone was going to give a Conservative majority of 35. As for the Maritime Provinces, it published a telegram from Mr. Borden

himself which said:—"Prospects in the Maritime Provinces point to a substantial majority on Monday. Our meetings in every constituency 'have been wonderful in point of attendance, interest, and enthusiasm. From all sides comes the same report—namely, this is 1878 over again." When the votes were counted there was a Liberal majority of 17 in the Maritime Provinces.

### CONSERVATIVE CONVENTION

On Saturday, August 1st, the Conservatives of the riding of Victoria and Haliburton, will convene in the Academy of Music for the purpose of selecting a candidate to contest the constituency in the approaching Dominion election.

The same old story or farce will be repeated. The present member, Col. Hughes, will receive the unanimous nomination and the orators of the day will extol that gentleman as a paragon of political perfection, and the many Conservatives in the riding who time and again have expressed their dislike for the doughty (?) Colonel will say amen to the empty perorations which will feature the convention. It was ever thus.

If the better class of Conservatives in the riding are satisfied with their representative and his record, they are mighty easily pleased. A constituency is generally judged through its representatives in the Legislative halls. For years, the riding of Victoria and Haliburton has been held up to ridicule before the people of Canada, simply because we have sent out as our representative to the Dominion Parliament, a man who is looked upon as a source of weakness to any party, and whose ridiculous antics on the floor of the House has made him a laughing stock.

The pillars of the Conservative party in this riding have, time and again expressed themselves as being disgusted with their representative and anxious for a change. Will they oppose Mr. Hughes' nomination at the Convention? Time will tell.

Mr. Hughes should be asked to give an account of his stewardship, and point out how much the riding has benefited by his presence at Ottawa. It wouldn't take very long. The two old cannon which the Colonel secured as ornaments, certainly serve as monuments to his inaction as a representative. No doubt he will forget to tell how, since the last convention, he was de-

nounced by R. L. Borden, leader of the Opposition, for his insulting remarks concerning members of a certain religious denomination. This was followed a little later on by a bitter attack on other ministers of the Gospel, and the Colonel was again "called" by members of his own party. His last outburst was his attack on the Erie & Putnam of influential farmers, Liberals and Conservatives from the great West who interviewed Sir Wilfrid Laurier and asked for concessions which are embodied in the reciprocity pact on which the people will shortly pass their verdict. You can put it down as a certainty that Colonel Hughes will assume a Sphinx-like silence on these matters.

### RIDING TO FALL

Obstruction is one of the most effective weapons of Parliamentarians, says the "Farmers-Sun," and there is, of course, nothing in the law to prevent or even limit the use of it. An Opposition party in Canada may carry obstruction as far as it pleases, even to the length of making parliamentary Government a farce. Fortunately, it is usually restrained by fear of the electorate. Except, where practiced by a local party like the Irish in the British Parliament, it may lead to a political disaster, if great interests are prejudiced. It may be assumed that Mr. Borden does not court political disaster, but rather political victory, however remote. The Sun is not in the counsel of any party, and like its readers, can only guess at the motives of the Conservative party. By the changes of population which have taken place, political power has largely shifted from the farm to the town, though in this contest, it is not easy to see how the less prosperous towns and villages, at all events, which depend on the farmer, can fail to vote with him. Despite the shifting of political power, reciprocity, if defeated, will be defeated by the farmer. That he will, for partisan

### Makes The Hair Beautiful

At last a remedy has been discovered that will positively destroy this pest. That Dandruff is caused by germs is accepted by every responsible person. Dandruff is the root of all hair evils. SALVIA will kill the Dandruff germs and improve Dandruff in ten days or money back. 50c a bottle. Sold and guaranteed by A. Higginbotham, druggist, Lindsay.

ship or religious or racial passion or for any other reason, vote down so beneficent a measure as reciprocity. The Sun, which has known him intimately for many years, cannot believe. It would be necessary to conclude that all the professions of both parties in its favor for more than sixty years were moonshine, and that the statesmen and politicians who made them were unable to gauge public opinion or the public needs. It is more reasonable to believe that Mr. Borden is riding for a fall, in the belief that, if he suffers a defeat now, there will be in a short time after the passage of a redistribution bill, another appeal to the people in which, on other issues, he may have better fortune; better fortune at all events, than, if he permitted both reciprocity and redistribution now, and so gave to the Liberals a long lease of power.

### R. L. BORDEN'S BLUNDER

In the course of his manifesto, Mr. R. L. Borden states:—"The Government have dissolved Parliament without prorogation."

The extra of the Canada Gazette issued Monday shows that the Leader of the Opposition was not acquainted with the facts of the case.

There are four proclamations. The first prorogues Parliament, in these words:

"Whereas we have thought fit, by and with the advice and consent of our Privy Council for Canada, to prorogue the present Parliament of Canada, and whereas the adjournment of the Senate at the present time renders impossible the announcement to both Houses, now known by that we do for that end publish this our royal proclamation, and do hereby prorogue the said Parliament of Canada accordingly, to the seventh day of September next."

The second proclamation dissolves Parliament and discharges the Senators and the members of the House of Commons from their meeting and attendance on the said seventh day of September, next.

The third proclamation calls the new Parliament under writs to bear date August 3 and to be returnable on October 7.

The fourth proclamation convokes the House of Commons to meet in Ottawa on Wednesday the 11th of October, "then and there to have treaty and conference with the great men of our Dominion."

Mr. Borden also complains because the census was not taken at an earlier date, in order to hasten redistribution. Now, the Census Act, chapter 68 of the Revised Statutes, passed in 1906, of passage of which Mr. Borden was a consenting party, distinctly states that "A Census of Canada shall be taken by the office, under the direction of the Minister, on a date in the month of June, in the year one thousand, nine hundred and eleven, to be fixed by the Governor-in-Council and every tenth year thereafter."

Mr. Borden knew when he made his proposition in March last that the status provided for the census to be taken in June, and he knew that the date had then been fixed according to the statute, and could not be changed.

Liberals are asking what value can be placed upon the words of a party leader who can make two such breaks in the course of one short manifesto.

### Finger-Almost Severed

Gazette.—On Saturday Master Leonard Millburn, a nephew of Mr. Wm. Dobson, of Verulam, had the first finger of his right hand almost severed by a mower knife falling on it while Mr. Dobson was sharpening the knife. Dr. Graham dressed the finger, which is healing up nicely.

### BOBCAYGEON

(Special to The Post)  
The proclamation for Bobcaygeon's Olv Holiday is out for the 16 inst. and the Bobcaygeon Band is to run an excursion to Kirkfield Lift Lock by the Str. Stoney Lake.

Large number of tourists are here and along the lakes, especially Pigeon Lake. The fishing has been very good for the past week, since the high winds ceased, and many of the parties have made good catches of bass and lunge.

Mr. McNeil judged the oats in the Verulam Field Crop competition last week, and Messrs. Chas. H. Thurston, Phos. Cosh, and Ross Kinble are the three who scored the highest and are eligible to send a sheaf and two bushels of their grain to the Toronto National, which of course, they pursued doing. Mr. W. Hickson returned from his judging tour in Leeds and Lanark last Wednesday evening and reports fine crops in these counties.

The Rockland has been rushed along by Mr. Peter Grant, the contractor. The new rooms are ready for the summer tourists, and Mr. Thompson is getting a good grist of them.

The Bobcaygeon brass band goes to Fenelon Falls on August 9th to

## BROKEN-DOWN NERVES

### HOPELESS CONDITION CURED BY "FRUIT-A-TIVES"

MILFORD HAVEN, ONT., Aug. 20th, 1910

"I was a complete invalid, three years ago, with Stomach Troubles, Constipation and Broken-down Nerves. I could not sleep at night and my Doctor did me very little good. I was almost helpless until I began to take 'Fruit-a-tives' in small doses. I have taken about three dozen boxes in all and, thank God, to-day I am well and strong—able to do my own work—and have a baby fifteen months old, and six children in all."

"I would not be without 'Fruit-a-tives' in the house, and I can highly recommend them to anyone suffering as I did."  
MRS. D. GUINNEY.  
Nervousness is not a disease in itself, but is the result of some of the vital organs becoming diseased. In Mrs. Guinney's case, her nervous condition was caused by a very weak stomach and torpid liver. "Fruit-a-tives" strengthened her stomach—helped digestion—made the liver active—and cured Constipation. Then her nerves became well.

If your nerves are "all unstrung," take "Fruit-a-tives". 50c a box, 6 for \$2.50, or trial size 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

play at the Cataract Village's Civic Holiday. The boys no doubt will intersperse the events with choice selections of band music.

The harvesting is well under way in this locality, and the crops are very fair.

### SUMMER MONTHS FATAL TO SMALL CHILDREN

The summer months are the hardest of the year on small children. Cholera infantum, diarrhoea, dysentery and stomach troubles are all common at this time and many a precious life is snuffed out after only a few hours illness. As a safeguard mothers should keep Baby's Own Tablets in the house. An occasional dose of the Tablets will prevent stomach troubles, or if the troubles come on suddenly, will bring the little one through safely. Mrs. Larry De Graze, Mizonnette, N. B. writes: "Last summer my baby suffered greatly from her stomach and bowels and nothing helped her until I began giving her Baby Own's Tablets. They regulated her bowels, sweetened her stomach, and now she is a big, healthy, happy child. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co. Brockville, Ont."
