the popular candidate for the Ontarapplicuse when he rose to speak. The speaker said we did not know the day or the hour the bys-election would be brought on. "I don't want the noise and dust of the great battle that is on, to so cloud your vision th t you will not see the little affair that Dr. Vrceman and I are pulling off in West Victoria." The present Government at Toronto are getting to feel that they rule the people, and not the people

You have a grand issue in racipric'ty and there is no doubt that Sir Wilfrid Laurier will go back to Ottawa with bigger following than ever. Any man shauld have your loyal support who leaves his business in the interests of the country.

But don't forget West Victoria. Do not forget Victoria. Don't be so confident as to get careless. From start to finish do what you can to make my calling and election sure. lumbermar at Hallburtoni said it ha been his impression for some years, that everything is going the farmers' way. When the sub'ject of Reciprociby with the United States in natural peoducts was mentioned, he thought the best thing he could do was to get a farm which he did do, and now has some natural products of his own The duty will be taken off raw lamber. The Americans have been an-

xious to keep the manufacture of raw lumber in their own country. We have discovered, during the last few years that it pays to plane our own lumber. The lumbermen will be able to get their products to the market on the other side much cheaper if reciprocity passes. I hope to live to see Victoria and Haliburtan represen ted by a loyal supporter of Sir Wilirid and hope to see it continue.

assembled, nominated an excellent candidate in the person of Mr. James B. Begg, ex-mayor of Lindsay. Mr. Begg has resided in the County of Vic toria since he was three months old, and has filled several positions of importance which naturally brought him in contact with the people of the district. He has had a splendid career as a municipal officer, having been say for a year being first reeve elected after the abolitionof the County Commissioners. It was, however, during his three years' incumbency of the Mayor's chair (which is in itself a tribute to his worth) that Mr. Begg made a record for himself as a shrewd and careful official. In fact he is credited with being one of the best chief magistrates the town has ever possessed. As a member of the County Council he also displayed that rare business acumen which characterized his record as an official of the town. Mr. Begg is a self-made man.
