WESTERN OPINION OF THE COLONEL

The following breezy criticism of the Minister of Militia is reproduced from the Saturday Sunset, of Vancouver, B. C.

This has been a great year for Vancouver. We have had a circus, a wild west show, and a visit from Colonel The Honorable Samuel Hughes.

Apparently the clergy have been telling the Honorable Sam that soldiers are wicked men. In an impassioned medley of words the other night he made the following bright statement.

Now we have the source of all trouble. Over-ambitious legislators, misguided governments and soldiers with unprincipled commanders, allowed to run riot over the weak, are not figured in the calculations of the Minister of Militia.

Toronto Saturday Night: On the south shore of Sturgeon Lake stands "Treaty Rock," a huge boulder dated 1615, where a treaty was made between Champlain and the Indians. It is a favorite spot with the Sturgeon Point cottagers for picnics, and here on Wednesday Miss Florence Needer entertained several Toronto friends. Afterwards they were shown the circle of stones under a large oak that marks the grave of the lovely Indian maiden, Manita. Further on a hollow oak was pointed out, wherein had been found a quaint signet ring, assuredly belonging to Champlain; but the finder, a friend of Miss Needer's childhood days soon lost it—too large

it had slipped off his finger into the lake! During the tramp the sterner sex had been gathering wood, and on their return to the camp a blazing fire was started. Seated round it, tales of times past of this locality were told—the most interesting one, a deer hunt undertaken by Champlain accompanied by five hundred Hurons. In the light of the Crescent moon the picnickers rowed back to Thursday for their home in Toronto, after spending two weeks with the latter's mother, Mrs. Bennett, and their daughter, Miss Valerie Saunders.

SEYMOUR COMPANY IMPROVING SYSTEM

The Seymour Power Co. has a staff of men employed in installing poles, for their new distribution system, in the rear of the business blocks. This work is being undertaken in accordance with the Company's franchise, and when completed, it is expected that Lindsay will have a lighting system of a modern character, one that will prove eminently satisfactory in every respect.

The Seymour Power Co., by the way is the first company to act on the request of the council to remove the poles off the main thoroughfare.
