Long years of residence at the asylum and repeated declarations by Thaw that he would never attempt to obtain his freedom except by legal means had established the madman's status as a 'trusty." There was little out of the ordinary in his appearance, even at so early an hour, in the courtyard, and if Barnum saw him-as to this no one save the hospital authorities could say tonight and they refused to talk-he raised no question.

A six-cylinder black Packard touring car of sixty horse-power, followed by a limpusine, also black, loafed lazily along the road as the milkman drew near the gate. Thaw standing a few feet away, apparently unconcerned. cars drew up on the further side of the road opposite the gate, and the touring car stood still, its engine throbbing. As Barnum stepped aside for the milkman to drive into the grounds he heard the gravei crunch beneath Thaw's feet, and looking up saw the madman flash past him with the speed of the wind straight for the waiting car. With a shoul Barnum started in pursuit, but a rlying leap landed Thaw safe within the car. The great wheels were slowly turning before the keeper had fairly reached the roadway. They were throwing up a cloud of dust before he had gone twenty-five feet.
