GOVERNMENT HAS TAKEN CHARGE OF CABLE AND WIRELESS STATIONS

(Special to The Post.)

LONDON, Aug. 3.—Now the die is cast and Europe is to be plunged into a general war which has been the apprehension of European statesmen for generations past. The only redeeming feature of the darkest prospect with which Europe has been faced for half a century is that Italy has declared her neutrality. But how long that neutrality can be maintained is an exceedingly debatable question.

Censors took charge of all the cable offices in the kingdom last night. All code messages were prohibited even to Australia. Telephonic communication with the continent was entirely stopped. The Brussels telephone, which was the last line working, was silent last night.

The King issued a proclamation declaring a moratorium for a month, and the suspension of the Banking Act to-day appears assured. Parliament will probably pass a bill for a loan for defensive purposes to the amount of \$250,000,000. A rise in the price of foodstuffs is expected to-day, although the Board of Trade has issued a reassuring statement that there is a wheat supply of four months in the country.

The peace movement continues, but finds little popular response. The Archbishop of Canterbury and the Bishop of London both spoke for peace yesterday. A number of Cambridge professors have issued a manifesto deploring the possibility of war with Germany, while another manifesto emanated from influential quarters quoting Premier Asquith's recent statement that Great Britain had no understanding with France and Russia which would compel her to join with them in war.

The Socialists and a section of the labor union men are strong for peace. Peace meetings were held yesterday in Trafalgar Square and Hyde Park. The Times, in a special war edition yesterday, said that it is plain and acknowledged that the duty and interest of Britain, which consist in the support of France against Germany and the preservation of the neutrality of Belgium, Holland and Luxembourg against German invasion, must be fulfilled.

"There is no room for difference of opinion," The Times continues. "The prospect before the Government is that of having to fight not only for its honor, but for self-preservation against attack on the whole foundation on which the peace and civilization of Europe are based." The Government has assumed control of all wireless transmission. A special gazette announces this fact and says that the Government in the present emergency has taken over control of wireless telegraphy, and that the use of wireless by foreign vessels while in British territory waters will be subject to such rules as may be made by the Admiralty.

The London morning papers are giving plentiful counsel to the public to display a self-sacrificing spirit, to refrain from excitement and to avoid selfish actions, such as laying in large stores of provisions which would tend to raise prices and lead to hardships for the poorer classes. Field Marshal Lord Kitchener, who was to return to his Egyptian post, is detained in London. According to telegrams from European capitals Great Britain's decision on this point was awaited with the deepest anxiety, especially in Paris and St. Petersburg.

King George held a Privy Council yesterday afternoon. According to The Press Association he signed a proclamation authorizing the suspension of specie payments.

Crowd Cheered King and Queen. LONDON, Aug. 3.—There was a scene of great enthusiasm outside Buckingham Palace last night. A crowd of five or six thousand persons gathered before that place and sang the National Anthem and called for King George, who, with Queen Mary, appeared on a balcony and bowed in response to cheers given for His Majesty.

A number of processions were formed late last night and paraded the streets, singing and cheering. A few days with Mrs. T. J. Webster, Taylor's Corners.

BIRTHS

FITZPATRICK—On Wednesday, Aug. 30, to Mr. and Mrs. D. C. Fitzpatrick, Downeyville, a son.

SUMMER COMPLAINTS KILL LITTLE ONES

At first sign of illness during the hot weather give the little ones Baby's Own Tablets, or in a few hours he may be beyond aid. The Tablets will prevent summer complaint if given occasionally to the well child and will promptly cure these troubles if they come on suddenly. Baby's Own Tablets should be kept in every home where there are young children. There is no other medicine so good and the mother has the guarantee of a government analyst that they are absolutely safe. Mrs. Edward Corvell, Lombardy, Ont. says: "A mother who has once used Baby's Own Tablets for her children will never fail to show her gratitude for them. They made a wonderful change in the health of my little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

PURE BRED LIVE STOCK CENSUS

The Ontario Department of Agriculture is engaged at present in preparing a Pure Bred Live Stock Census of the Province. This will include the Name and Address of the breeder; the number of pure bred animals of horses, cattle, sheep and swine owned; the number of male and female; their ages, i.e., under 1 year, 1 year and under 2 years and under 3, 3 years and over; and the number for sale this fall.

The information thus gained will be published in bulletin form and distributed throughout the province. This will not only benefit the buyers, who will know just where to go to secure what they require, but the breeders themselves will get a good deal of free advertising, and this should result in more sales and better sales.

Those breeders in Victoria County who wish to take advantage of this opportunity should supply us with the information mentioned above. We would like to have the list complete by September 15, 1914. Dept. of Agriculture, Lindsay.

Remounts From Canada.

MONTREAL, Aug. 5.—Arrangements are being made to collect 30,000 horses in Canada should England have need of them in the war. This is the statement made by an official of the National Live Stock Exchange, Limited, the head office of which is in Montreal. "The cavalry horses which have been produced by the National Bureau of Breeding during the past eight years are now in great demand," he said.

These remounts have been produced by farmers and small breeders all over Canada. Italy Stands Firm. ROME, Aug. 5.—Germany has made an appeal to Italy to stand with her, according to The Giornale du Italia. The newspaper says the attention of the Italian Government has been called to what Germany describes as hostile acts on the part of France, which the German Government asserts constitute a case coming within the terms of the treaty of alliance, even though, on account of these acts, the declaration of war came from Germany. The Giornale du Italia says it understands the Italian Government will not change its attitude of neutrality.
