Victims Unable to Appear---Knife Artists Now in Jail

The stabbing affray continues to be the sole topic of conversation Fenelon Falls and surrounding com try and considerable excitement still

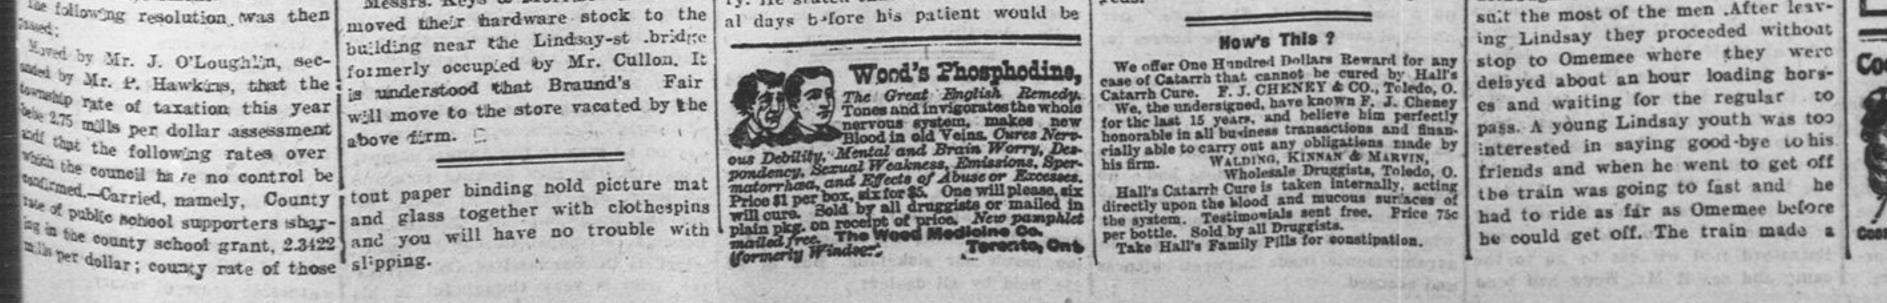

Tuesday Denton and Nettleton the two Detroit young men who accused of doing the stabbing were arrayed in the police court at Falls before F. D. Moore, K.C., Connty Magistrate, and after hearing from Dr. Graham and Dr. Wilson that the victims of the affray were not yet able to be present the case was ad journed till next Tuesday.

Court was held in Twomeys' ha! and the villagers turned out in igiga numbers. The only evidence taken was that of the two doctors who cressed the wounds of Barry and Nicholls.l Their evidence was merely to show that it was impossible for reeve said he would interview Mr. the two boys to give evidence at that time. Magistrate Moore then adjourn ed the case until 1.30 next Tuesday. Mr. F. A. McDiarmid, of Lindsay, deon motion of Messrs Coulter and Wil- Jended the accused and applied for bail. This was allowed for \$500 each to be taken in two securitiess, \$250. The amount could not be raised and Hawki is the council adjourned probably because the boys were en-W. F. Their extreme youth would impress itself upon a casual observer

and they were of slight physique. The charges were read against them of inflicting grevious bodily harm on John Barry and Samuel Nichells with a knife and their legal adviser asked if there was to be an adjournment.

The evidence of Dr. Graham was first taken, on the condition of Barry. He stated that it would be several days before his patient would be

Dr. Wilson said it would be dangerous to move Nicholls. for the next dew days but that he would be all right within a week's time.

It was on Friday last that Degron and Nettleton arrived in Fencion Falls from Detroit to enjoy a duck shoot and the fishing in the beauti ful lakes in the vicinity of the Fa'ls. Nettleton had lived at the Cataract viliage in former years but since has been residing across the boarder. His companion, Denton, is the larger of the two, and was born in the southern state of Alabama, although h has been working in Detroit for some time past

The boys boarded at a local restaurant and had been preparing for the opening of the duck shooting sea son, A new gun and decoys had occur bought and their canoe fitted up with provisions. Everything was ready on Monday for a start bright and early on the following morning. But it was not to be.

On Monday evening the visiting duck shooters met two young ladics of the village with whom they are acquainted. There were two women in this case, if you please, seeing the sex gets the blame for most of the illdoings and goings on of mankind Gracie Fountain and Tilley Wood are the names of the little maids over whose pretty heads the row probably occurred. The boys were on the point of going home when a suggeswas made to visit the G.T.R. depo: and the plan was carried out.

It was when the four were returning to the village proper that Barry and Nicholls first came on the scene. Here the drift of the story separates One side, that of the complainant, being that the latter two boys for they are still in their teens, ask ed for half of the sidewalk, and were replied to with Jeers, after which the fight occurred. The accused claim that the village boys walked passed them, up and down, several times addressing, all the time, insulting remarks to them. Then the villagers made a rush, and the scrap ensued. The heavier built local boys had the advantage over the city-bred youths and the latter were clearly getting the worst of it. Suddenly the younger lad slipped his hand into his pooket and pulled out a keen bladed juck knife and lunged fiercely at his an tagonist. Again and again he struck out with the knife and each time the razor-like blade out through the gar ments of his opponent and inflicted se vere wounds. When his man was finished the now thoroughly infuriated young fellow turned to the assistance of his companion and drove the kuife at the youth who was struggling with him.

Finally the local youths, Barry and Nicholls, took flight, Then the Day troit boys hurried off, but the news spread like wildfire and they were followed by a large crowd of excitwas Adjourned battle "afar off." The entire village were aware of the affair before many hours and much feeling was aroused. Several men took after the boys who . did the stabbing and serious results might have followed had they been caught. Things were quieted down however, though the fracas the main subject of conversation on

The two injured lads worked in a local saw mill and were well kno; wn "I never knew those lads to be in any scrape of that kind before," mentioned a citizen incidentally.

Referring to the cut in the face of Nicholls, Dr .Wilson, said that the wound had been a little deeper and a trifle higher up the victim would assuredly have bled to death. As it was he lost a large quantity of blood and is very weak.

During the day the prisoners in the cells were kept from being loncly by a throng of young fellows who watched them through the bars of the "coop" and talked with the prisoners. They bade them a sad farewell as the constable took Denton off to the train.

The trial on Tuesday next, it probable, will be attended by hund-

A Gruesome Story Comes from Manvers

A Dead Body Said to have been Found in a Barn

The Peterboro Examiner says; "The rumor of a gruesome story was received this morning from a farm mear Manvers. Some time ago a stranger presented himself at a farm house asking for a night's lodging. There was no room to offer him and it was thought that he had gone on his way. On Saturday morning, after a strange odor had been noticed about the barn, the cattle refusing almost to enter it, a search was made and the body of the man was found under the hay.

"This report was brought from Manvers this morning by a man who was there, but he did not know the party's mame. Owing to the locality being out off from communication it was impossible to get any further information to substantiate the re

ST. VITUS DANCE

A Severe Case Cured by Dr. William's Pink Pills

St. Vitus dance is a disease of the nerves brought on by a m-orbid condition of the blood. It is a common disease with children and attack females oftener than males. The only cure lies in plenty of gure blood, because good blood is the life food of the nerves. Dr. Williams' Pink Pills cure even the most severe forms of this trouble because they enrich the blood supply, thus carrying the necessary food to the nerves. In proof of this we have the statement of Mrs. Alex. Cameron, Summerside, P. E. who says; "Some years ago daughter Lenn, then a child of te years, became afflioted with St. Vitu dance. At that time she was attending school and the first indication had that something was wrong was that the appeared easily discouraged in her studies. She was naturally spirited child, not given to tears, but she would cry over what I thought should be easy work for her. The disease progressed so rapidly that in the course of a few weeks she became unable to hold anything in her hands, and we were obliged to tak per out of school.
