

The Churches

Services Held in the Various Town Churches Sunday.

ST. ANDREW'S.

Rev. J. W. Wallace occupied the pulpit in St. Andrew's church on Sunday morning and took for his text Colossians, I, 27. "To whom would make known what is the mystery of the glory, which is Christ, in whom the hope of glory."

Paul in this chapter is speaking of the mystery of the gospel. The people of that time considered it a mystery that God should love the whole world. It was because Paul had grasped the idea that the gospel was for all men that he was such a good soldier of Christ.

Paul's great desire was that everybody should hear the gospel. In the gospel both the rich and the poor meet together. Some men do not seem to see that in the gospel all men are equal. The rich man may think that the poor needs the gospel more than he, but that is not so. "All men are alike. If God has mastered us, we are through Him master the world. Every man should be for Christ. He needs us, for the work is great. The fields are white with the harvest and the reapers are needed. Who will give himself up and go to labor for the Lord."

In the conclusion of the morning service the sacrament of the Lord's Supper was observed. The body of the church being well crowded with members of the church.

Rev. Mr. Hanna, official representative of the Lord's Day Alliance, occupied the pulpit in the evening for his text Ezekiel, xx, 20, "And hallow my Sabbath and they shall be a sign between you and Me that ye may know that I am the Lord your God."

God has proclaimed to all people to all classes of people His ownership of the Sabbath day. One of the principal commandments says we are to keep holy the Sabbath day.

In the fourth commandment says the obligation upon us, then the general law has little obligation. God established the children of Israel, in a large nation, but they had to observe that they would observe the general law. They, however, broke the law and went back to their old heathen customs. They were then exiled into captivity. In punishment for their sin. Any one who undertakes to neglect the right of God must settle the account at some time. Those who break the Sabbath will also have to settle with God.

Man needs rest and needs more rest. He needs high ideals to strengthen him. God has always a watchful eye over man. Little do we know what enrichment to our lives the continuous recurrence of the Sabbath is.

One of the greatest supporters of the Lord's Day Alliance is the Lord's Day Alliance. This organization has done great work and is still doing a work. The Alliance has been supported by the great deal by the people but in some places it comes in for its share of hard work. The Lord's Day Alliance, does not, as it is said, do its work to correct a man of breaking the Sabbath, but where it is possible to settle the matter quietly without going to court at all. Ninety-eight per cent of the violations of the law have been settled out of court.

Of course if a man deliberately and breaks the Sabbath and will not cease he is brought up before the court. By the work of the Lord's Day Alliance some half of the seven day workmen have been given Sunday holidays. Fourth fifths of the American newspaper have been stopped and a great many violations of the law have ceased. The Alliance depends to go on and finish the work that hopes by the aid of every man and woman to soon accomplish the task of making this Canadian nation a moral for other nations in the way of Sunday liberty.

MR. HANNA AT THE BAPTIST CHURCH.

Rev. Mr. Hanna in the Baptist church Rev. Hanna spoke to a very large audience regarding his statements which were in the report of his other address. At the conclusion of the service he appealed to the audience for help to help carry on the work which is being done so much for our country. Resolutions were passed around the stand in next Sunday.

ST. MARY'S.

The two masses in St. Mary's church Sunday Rev. Father Collins occupied a beautiful and impressive service in the report of his other address. At the conclusion of the service he appealed to the audience for help to help carry on the work which is being done so much for our country. Resolutions were passed around the stand in next Sunday.

BRINGING THE WATER IN SCOGOG.

Monday of this week says the government engineer accompanied by Mr. R. A. Davey, assistant government engineer, on a trip over the Scogog river to Port Perry with the purpose of reporting officially to the government. They were seven hours on the trip, and took extensive notes on the situation, their object being to bring the water to a normal level and maintain it at that level throughout the year if possible. Mr. Grant is thoroughly skilled in his profession, having had over twenty years experience, much of that time he has had to do with waterways. He has the happy faculty of giving information to the unsophisticated so that there is no misunderstanding, and from what we could ascertain the level of the water is to be raised a height as to materially improve navigation, and at the same time not to infringe on the rights of land owners adjacent to the lake, such being the case the sooner their mission is accomplished, the better for all concerned. The party arrived at 5 o'clock and besides the engineers was composed of Mr. Geo. H. Wilson, editor and proprietor of the Lindsay Post, his son, Roy P. Wilson and Mr. Nicholas Brady, of Ops, who is a large land holder bordering on the lake and river. The craft in which they came is the fast sailing launch Roy II, winner of many a hard fought contest on the Kawartha waters, and is the property of Mr. Wilson of the Post, who, with his son, made the Observer a very pleasant while in town. Mr. Wm. Ross and Councillor Doubt entertained the party while in town. Their stay, however, was of short duration.

Won't Pay Rent for Court Room

Trouble Over the Disinclination of Township to Pay Their Rent

For some time past county court proceedings at Victoria Road have been held in a commodious and up-to-date private hall, the proprietor of which has not been recompensed for its use. The townships of Bexley, Carden and Eldon adjoin each other at this point, and of course, supply the bulk of offenders who are tried at Victoria Road. It is understood that the council of Carden has refused to pay for the use of the hall for court purposes, and the Bexley authorities see no reason why they should contribute, as they claim they have a hall of their own at Cobocok. On Monday the owner of the private hall at Victoria Road stated emphatically, it is said, that he would not in future allow his building to be used until he was satisfied that he would receive the rental he was entitled to. Mr. F. D. Moore, county magistrate, notified the people of Victoria Road that unless accommodation was secured at that point for county court purposes, the cases would be tried in future at Lindsay. Kirkfield citizens, it is understood, are anxious for the sittings to be held there, as they will not only furnish a hall, but pay for its rental as well.

Dr. Cowan's Horse Threw His Rider

Sensation at the Races at Peterboro Fair

A sensation was sprung on the racing thousands at the Peterboro Friday when the first heat of the 2.30 class was started. Harry K., owned and driven by Dr. Cowan, of Lindsay, broke on the second turn of the first half, and in some way the driver was thrown from his seat. The horse was going fast and was in the spirit of the race. He made no attempt to run away but kept his pace in the bunch, continuing to run until the three quarter post was reached when he settled down to a nice steady pace and came up from fourth place to second and nearly won out. The way that horse turned out and passed the other horses with out any trace of an accident was marvellous and when he came up the home stretch the vast crowd stood up and cheered. After the race was over he stopped with the rest of the horses and caused no trouble. No damage whatever was done to the horse, harness or bike. Dr. Cowan, however, was injured. In falling he lit on his feet and sprained both ankles. He crawled to the side of the track, however, out of harm's way. The doctor was as game as his horse, and when the next race was called he was on the bike and drove his horse to victory, winning the next three heats amid applause from the stand.

Y.M.C.A. Improvements

Already the Y. M. C. A. have started on the improvements which the board of directors decided were necessary. This morning Mr. Bingham and Mr. Geach started at the job of painting the front of the building. Part of it will be red and the other half green. When finished the building will look very attractive. The large swimming tank is about finished and Mr. Bingham expects to have it ready for the use of the boys in a day or two. A number of boys had a good game of basketball in the gym on Saturday. As soon as possible basketball classes will be started and a schedule arranged. This always provides lots of amusement for the boys and it is looked forward to with great pleasure by them. Mr. Bingham expects to start in the near future a membership campaign and no doubt a large number of new members will be added.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Price 75c per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

How to Cook Sweetbreads

For a light summer salad sweetbreads are unsurpassed. Chop two of them into small pieces, season with white pepper and a little salt, if necessary; add one cupful each of chopped English Walnut kernels and celery. Serve on lettuce with a creamy mayonnaise dressing; garnish with pitted olives. Sweetbread croquettes are much to be preferred to those of mackerel and rabe: meat. Chop them very fine, add two well beaten eggs and a tablespoonful of butter, form into balls, dip into egg, roll in cracker crumbs and fry a golden brown. Serve in cream with tomato sauce. The German method of preparing sweetbreads is quite worthy of trial. Cut them into pieces the size of dice

Dr. Shoop's Restorative

"ALL DRUGGISTS"

Alsike Growers' Notice

Commencing Friday, September 25, Mr. J. A. Steele or representative will be at little Britain every Friday until further notice.

Beyond Our Expectations

We have to tender our sincerest thanks to the people of Lindsay and surrounding country for their hearty response to the announcement of our

Great Sweeping Sale of Boots and Shoes.

The business transacted on Saturday reached far beyond our expectations and hundreds reaped

GREAT BARGAINS

and there were many more who could not be waited upon owing to insufficient help to handle the vast crowds. This however will be remedied and there will be no room for further complaint on this score.

We have to announce that we shall continue this great sale until the Forbert Stock is disposed of. In the meantime, as we intend to continue in business permanently in Lindsay, we shall purchase an entirely new stock, but in no case will there be any mixing. The new goods will be kept entirely separate and sold on their merits. We are here to do a legitimate business, and as we bought the

Forbert Stock at a Rate on the Dollar

we are enabled to sell these goods at a great reduction from regular prices.

Come Quick and Make Your Selections for They will not Last Long.

J. McCULLOUGH

Opposite the Post Office. Frank Forbert's Old Stand.

Plant Your Waste Land With Trees

It May Mean a College Education for Your Son

Planting your waste land with trees may mean a college education for your son, a wedding tresser for your little daughter, and something for your old age. There is hardly a farm in the country that has not some waste land. By waste land is meant land practically useless to the farmer — land that is looked upon as worth little or nothing. In almost all cases it could be and should be made a source of revenue. To-day that land is useless, practically valueless. Seeded to pine, forty years from now, when some son, yet to be born, may be twenty years of age, it may be covered with timber and worth approximately from two hundred to two hundred and fifty dollars an acre. This estimate of value is based on the returns from pines forty years old and harvested now; while, if the recent tremendous increase in timber prices continues through four more decades the returns from seeds planted at this time will be something enormously greater. There are scientific ways of starting a pine wood and there are easy ways. Both begin along the same course, the gathering of the seed. It takes two years for white pine seeds to grow. They must be gathered from the trees just before the cones open in their second year. In Canada this is from the end of August to the middle of September. The small cones, about a half-inch in length, that are now on the trees will be the ripe cones of the ensuing year. Cones which are three or four inches in length now will be ripe this fall. Much more can be told about this subject that the amateur planter planter knows. The Department of Agriculture at Ottawa is only too glad to give you all kinds of information. If you buy, ten dollars will buy three or four pounds of seed. Three pounds will plant twenty acres. Twenty acres, forty years from now, may well be worth four thousand dollars. Think of it! Isn't it worth while to do it for your old age or for those who may come after you? And isn't it better yet to get your small boy to do it? Forty years seems a long time to wait to get the return from any effort—forty days seem too long for some people—but nothing worth accomplishing is ever accomplished in a moment, and he who builds for tomorrow, a far-off to-morrow, is the who really builds.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, but they are only a certain species of Nerve headache—nothing else. It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Being direct and having to do with the stomach, it goes straight to the stomach nerves, also, and does not touch the original cause of the trouble. Without this original cause, however, no such lasting relief as this can ever be had. For stomach distress, indigestion, biliousness, bad breath, or a slow circulation, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

Dr. Shoop's Restorative

"ALL DRUGGISTS"

Alsike Growers' Notice

Commencing Friday, September 25, Mr. J. A. Steele or representative will be at little Britain every Friday until further notice.

WAKELY'S

New Fall Mantles

Our mantle dept is teeming with stylish mantles at popular prices.

To meet this demand has been the constant effort of this store. How well we have succeeded is proven by the constant increase in our business. The number who intrust us with their prescriptions and general drug wants continues to grow larger. It is evident that the public appreciate our efforts to give better goods and better service than can be had at most drug stores. Get it at
