NERVOUS, LIFELESS DEBILITATED MEN

YOUNG MEN AND MIDDLE-AGED MEN, the victims of early indiscretions and later excesses, who are failures in life—you are the ones we can restore to manhood and revive the spark of energy and vitality. Don't give up in despair because you have treated with other doctors, used electric belts and tried various drug store nostrums.

Our New Method Treatment has snatched hundreds from the brink of despair, has restored happiness to hundreds of homes and has made successful men of those who were "down and out." We prescribe specific remedies for each individual case according to the symptoms and complications—we have no patent medicines. This is one of the secrets of our wonderful success as our treatment cannot fail, for we prescribe remedies adapted to each individual case. Only curable cases accepted. We have done business throughout Canada for over 20 years.

CURABLE CASES GUARANTEED OR NO PAY

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. Consultation Free. No matter how long you have been treated, write for an honest opinion Free of Charge. Books Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.

MET EIGHTEEN LAUNCHES SUNDAY AND ONLY ONE CARRIED LIGHT

There are a number of launch owners on the local waters who are disregarding the law requiring them to carry lights, with impunity, and the persistency with which they evade the regulations is nothing short of criminal. A tragedy will assuredly be recorded if the authorities do not step in and put a stop to such practices.

Sunday evening last, Mr. J. D. Flavelle, who was bringing Dr. Caven of Toronto from his summer cottage to the bedside of Mr. Joseph Cooper, met eighteen launches and only one of that large number carried a light. A number of them were trailing canoes and they cruised along recklessly and with apparent indifference regarding the danger of accidents.

A short time ago a narrow escape from a drowning fatality occurred on

Sturgeon Lake, when a reckless launch owner, with no lights burning, came within a few inches of running down two young ladies in a canoe.

This is a serious condition of affairs and calls for prompt action on the part of the authorities. Ignorance of the law would serve as no excuse if a launch owner was summoned to appear in court, because notices regarding the carrying of lights have been posted in conspicuous places and the newspapers have from time to time published the sections of the law dealing with the matter in question.

Mr. Flavelle informed the Post that he would personally prosecute each and every launch owner violating the law, against whom he could secure evidence.

MR. AND MRS. J. KEITH CELEBRATED GOLDEN WEDDING

Yesterday Mr. and Mrs. Jas. Keith 16 Francis-st., celebrated their golden wedding anniversary, and the Post joins with their many friends in town and district in extending to them the heartiest congratulations. Both are honored and respected residents of the town, and the observance of such an event in their history called forth sincere and fervent good wishes on all sides that they might long be spared to still further enjoy each other's company in their journey through life.

A HAPPY UNION.

Fifty years ago in the town of Whitby, Rev. Kenneth McLennan, cousin of Sheriff McLennan, of Lindsay, united Miss Joan Patterson and Mr. Jas. Keith in the holy bonds of matrimony.

In the year 1873 Mr. and Mrs. Jas. Keith took up their residence in Lindsay, and the venerable couple have enjoyed what may be termed a union of unalloyed happiness.

FAMILY RE-UNION.

The family re-union held yesterday was a delightful affair and must have brought a large measure of joy and happiness to the venerable couple.

Dinner was served at the family residence at four o'clock, and Mr. and Mrs. Keith were surrounded by the following members of their family:—Miss J. J. C. Keith, of Lindsay.

Mr. Alexander Keith and Mrs. Keith, of 192 Delaware-ave, Toronto. Dr. Jack Keith, Mrs. Keith, and son, Master Jack, of the Canadian Soo.

Miss Keith, superintendent of Shoal Lake Hospital, Manitoba.

Miss Margaret Keith, teacher at Renfrew, Ont.

Miss Joan Keith, head bookkeeper, of the Perry-Davis Coal Co., Sault Ste. Marie, Mich.

The anniversary dinner provided was a dainty one, and the tables were suitably decorated for the occasion.

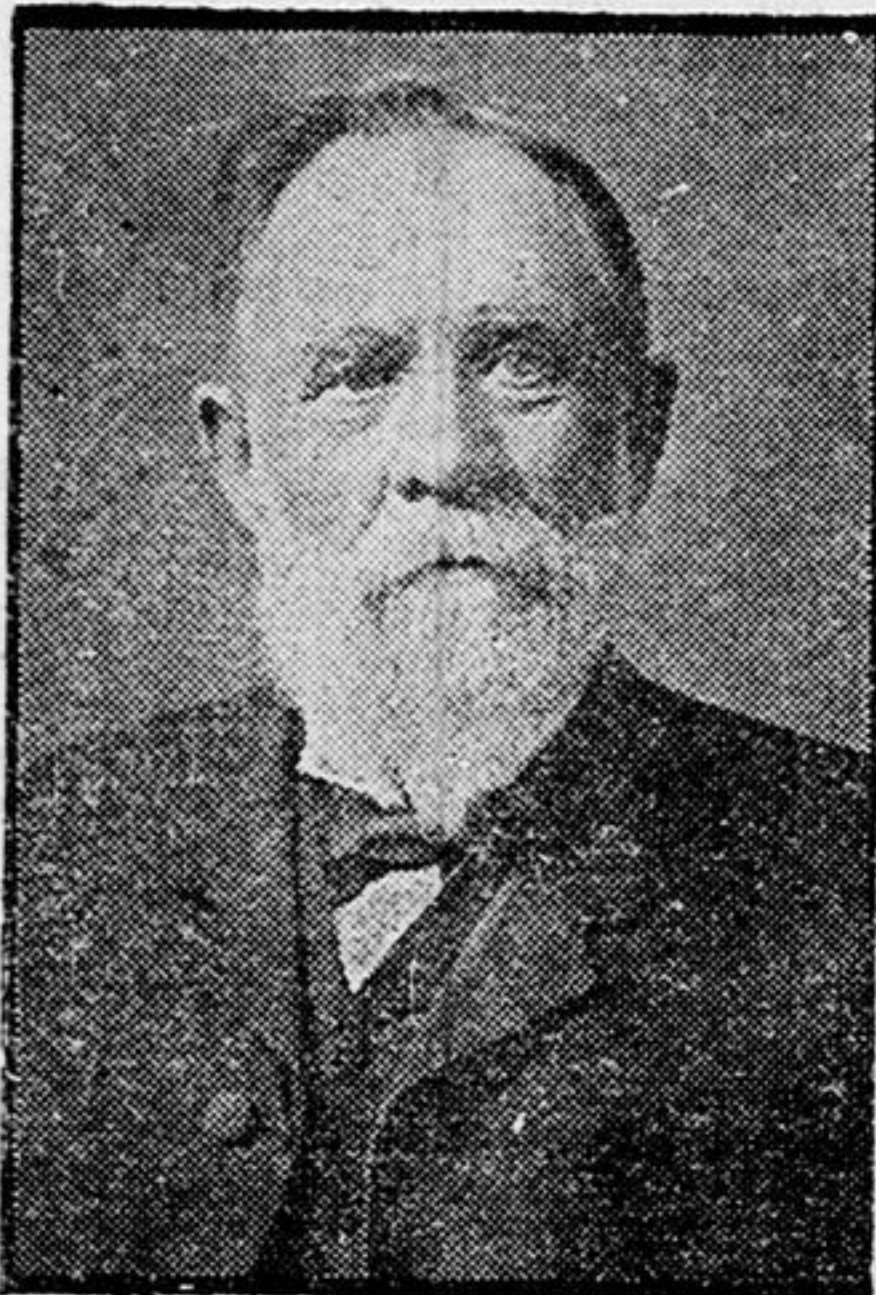

PRESENTATION

At the conclusion of the dinner, a very pleasing ceremony took place, when Mr. Alex. Keith read an address from the family, while the little grandson of the honored couple, John Mac Keith, presented Mrs. Keith with a handsome cama gold brooch and Mr. Keith with a rose-wood gold headed cane.

Mr. Jas. Keith replied in a neat speech.

EVENING FESTIVITIES

In the evening Mr. and Mrs. James Keith held a reception, when a large number of citizens from town and vicinity called at their residence on Francis-st. and extended their congratulations. Among those who called were Rev. Dr. McMillan and Mrs. McMillan, of Halifax; Rev. Jas. Wallace, His Worship Mayor Begg and Mrs. Begg. The evening was very pleasantly spent in music and social intercourse Mrs. Jackson presiding

MR. JAMES KEITH. Who celebrated his golden wedding anniversary on Thursday

at the piano during the evening and rendering many excellent numbers.

NATIVES OF SCOTLAND

Mr. and Mrs. James Keith both first saw the light of day in Bonnie Scotland. Mr. Keith, who is 73 years of age, was born in the parish of Longside, Scotland, and Mrs. Keith, in Aberdeen, her father being a member of the legal profession. They are both ardent and loyal children of the heather, and love the land of the immortal Wallace and Bruce.

Dangers of Street Loafing

The worst habit that boys can fall into is that of loafing around on the streets at night. It is then they cast their lot in slippery places when at any moment they are likely to fall from grace. All good and noble lessons taught them by their mother are there counteracted and nullified. They learn nothing that is good—but everything bad. The boys who spend their evenings in the sacred precincts of home, with good books for their companions, are the future hope of this republic; they will fill our legislative and congressional halls and sit in judgment upon men and measures while the boys who run our streets, will fill our penitentiaries, almshouses and lunatic asylums. Parents who are responsible for these broken laws of decency will have broken hearts and bowed down heads in the awakening years that will inevitably follow.

Children Cry FOR FLETCHER'S CASTORIA

Ladies Headgear Larger Than Ever

Such is the Declaration Of Arbiters in Feminine Fashion

The declaration of the arbiters of feminine fashions in headgear is that for the coming season hats are to be larger than ever, and that colors are to be loud enough to deafen. The decision of size ought to be interesting to railway builders, railway managers and others who are responsible for the construction of entrances and exits used by the fair sex. As to the colors—aesthetic sense has been outraged already to such an extent that a little more of the same thing makes but slight difference.

From the standpoint of mere man, there is something decidedly amusing in the whole subject of feminine fashions. We know that women, in the majority, are generally out of sympathy with the incoming style, either in dress or headgear, whatever it may be; but we know, too, that much as they dislike the new effect, it is only a matter of days before they "come to it." Where is the woman, for instance, who would admit that she honestly desired a hat of the size that has been fashionable this summer? She knows it is a nuisance to everyone she comes in contact with, as well as to herself, and if she could have her own way would have none of it. Yet here comes the maker of fashions with a declaration that the next lot will be larger still—veritable monstrosities—and, as usual, lovely woman, who usually has her own way in all things else, will in this case bow to the inevitable, while mere man will prepare to dodge the side swipe of the broader brim—and pay the bills.

But after this plain talk about woman and fashions, let us be strictly honest and answer the question—How much more independent is her lord and master in the same direction? Criticize as he will and poke fun as may at what fashion decrees for the feminine, and at the neck submission of the sex to fashion's dictates, is he much, if any, better off? Every man who thinks anything of himself believes in dressing well, but to how many men does "dressing well" have any other meaning than that he should be attired in fashion? And how many men are there among the well dressed crowd who would feel restless in their glad rags if those glad rags were other than the latest cut, style and pattern? Fashion rules and her decrees are as binding upon the one sex as the other.

Heather From Bonnie Scotland

Last evening Mr. W. M. Robson, grocer, received through the mails a box of heather neatly done up in bunches and tied with ribbon. It was sent from Scotland by Mr. Frederick E. Robson, son of Mr. and Mrs. W. M. Robson. He is at present touring in old Scotia, having recently been married at Middlesbrough. Every member of the family received an assortment of the heather, a card being attached to each bunch.

Banks Willing to Give Aid

An article in last evening's Post to the effect that it was difficult in getting financial accommodation in our local banks has been called in question by several of our financial institutions in town, who state that it is not the case, as they were prepared to advance a reasonable amount of money to any manufacturer or industry in town where business possibilities warranted such investment.

Childs Play of Wash-day

Surprise Soap

cleanses so easily that wash day is like child's play. There is nothing in it but pure Soap. It cannot injure the clothes and gives the sweetest cleanest results. To wash the Surprise way

Read the directions on the wrapper. You can use Surprise in any and every way.

SYLVESTER AUTO-THRESHER AND PLOUGHING ENGINE GREAT SUCCESS

After years of hard work Mr. Sylvester has perfected the best combined plowing and threshing machine on the continent.

This machine has been working at Mr. D. Dunoon's, and has satisfied everybody who witnessed its work. There is no doubt apparently after this test but that the machine will meet the requirements. Mr. Sylvester is thoroughly satisfied that this machine will do as good work as the best machine operating in the North West. The engine is running perfectly well and is well balanced, and there is no vibration. It is easily started, a man with a couple of half turns of a crank is all that is necessary; both the engine and separator are doing perfectly satisfactory work, all weak points being now overcome, and it is only a matter of building the machines. Mr. Sylvester is now loading the machine for the West, and with some of the men from the factory will go there with the necessary fittings to complete the two machines that are now there, and will have these three machines working this fall to demonstrate to the public their reliability, which no doubt will be accomplished. This machine is a much greater undertaking than anyone is aware of, traction and thresher, for at the time Mr. Sylvester undertook this scheme, very few, in fact, no gasoline traction engines were in use, and stationary gasoline engines were not out of the experimental stage, but Mr. Sylvester had in view the advantages of the gasoline power for the North West and conceived the idea of making the combination to travel through the fields threshing from the stock, thereby saving labour, in fact cutting the cost in half. Since he undertook the manufacture of this machine great developments have taken place in the mode of farming and no machine has come to the front as rapidly as the gasoline engine for all purposes, especially for plowing. Mr. Sylvester had in the view the idea of taking the Separator off, and using the traction for plowing purposes. This idea has developed into an important factor in this machine, making it doubly advantageous to the Western farmers. While in the first make up the plowing was not considered of so much importance, but the traction plowing has developed so rapidly that some important changes had to be made to take care of this end.

Two of the plowing machines were tested last season with the result in the first place the combination of of this experience in the field. It has enabled the makers to overcome all weak points, and the machines will go in the field in as perfect a condition as any made on the continent. The demand for this class of machines is practically unlimited, and thousands can be sold in the Northwest. The question is where are they going to be made,

and where is the money to come from to make them? The Sylvester firm at present is not able to undertake their manufacture, and none of the banks in Lindsay are disposed to come to their assistance. Is the town of Lindsay going to lose this business? Mr. Sylvester controls the patents and no doubt can get capital to manufacture, but promoters supplying the money would in all probability want a different location. Mr. Sylvester for some time has been endeavoring to reorganize or sell the factory out, but so far has not succeeded. A company has been formed in Winnipeg to take over the patents, and no doubt arrangements will be concluded while Mr. Sylvester is in the West. There have been no threats made with a view to holding up the town, that has not been hinted at. Mr. Sylvester appreciates the privileges already extended to the Sylvester Co. Mr. Sylvester claims that his company is being held up by the banks. Now, what is going to be the result? It appears that if the banks will not render reasonable assistance to deserving manufacturing industries, they are not working with proper spirit in the interests of the town. Lindsay must stand behind the industries. The Post and the citizens of Lindsay highly appreciate the success Mr. Sylvester has brought this machine to, and sincerely hope it will make one of the leading industries in the town. Mr. Sylvester certainly deserves all credit due to him.

Pain in Heart

"For two years I had pain in my heart, back and left side. Could not draw a deep breath or lie on left side, and any little exertion would cause palpitation. Under advice I took Dr. Miles' Heart Remedy and Nerveine. I took about thirteen bottles, am in better health than I ever was, and have gained 14 pounds."

MRS. LILLIE THOMAS, Upper Sandusky, Ohio.

For many years Dr. Miles' Heart Remedy has been very successful in the treatment of heart troubles, because of its tonic effect upon the heart nerves and muscles. Even in severe cases of long standing it has frequently prolonged life for many years after doctors had given up all hope, as proven by thousands of letters we have received from grateful people.

Price \$1.00 at your druggist. He should supply you. If he does not, send price to us, we forward prepaid. DR. MILES MEDICAL CO., Toronto.

Mrs. Jas. Fraser spent a few days in Toronto this week.

Whalen has given them a course, and Miss Burns, of Toronto, and Mrs. Randolph McDonald, of Roseville, are doing first class work and several of the farmers are likely to follow Will's example.
