## Serious Runaway Narrowly Averted

Exciting Incident on Kent Street at Noon Today

A serious runaway was narrowly averted today at noon.

A team of horses belonging to Mr. Frank Graham, of Ops, was standing in front of Spratt & Killen's when two ladies drove up in a buggy. They came up too close to the team of horses, with the result that the shaft caught under the back band of one of the horses. This caused a mixup which promised to terminate seriously. The team ran up as far as Carroll's store, the two vehicles being badly mixed up. The ladies still occupied their positions in the buggy and were calling for help. The horse finally tripped on the pavement and fell down under the wagon. A large crowd gathered on the scene and the horse was extricated. No damage of any account resulted, except the bending of one of the axles of the buggy.

## Business College Changes Hands

Federal Business College Purchased by A. H. Spotton, of Peterboro

The Federal Business College, of town, which has been doing such excellent work for the past twelve years, has been purchased by A. H. Spotton, of Peterboro. Mr. A. M. Houston, and his staff will still be in charge of the departments.

The new proprietor is a man of wide experience in business college work, having been for a number of years in charge of several high grade colleges of Western Ontario. He is determined to make this school the largest and best of its kind in central and Eastern Ontario.

The celebrated Gregg shorthand has been introduced. This system has a sweeping victory at the Fifth International Shorthand Speed Contest at Washington last March, and is acknowledged by writers of several systems to be the best. All the leading styles of shorthand were represented at this contest; the victory of the Gregg shorthand was complete. The Loose Leaf Ledger, Bill and Change System, Card System, and every modern appliance known to business science have been introduced.

This school will hereafter be known as the Lindsay Business College and School of Gregg Shorthand. Mr. Spotton is a member of the Gregg Shorthand Association, and is in direct communication with Prof. John R. Gregg, the author of the system.

Every graduate of the stenographic department, who is of pleasing appearance and industrious will be guaranteed a position. This offer is made by reason of an agreement with the leading typewriter company of Canada. A cash prize of twenty dollars will be given to the first student who typewrites fifty words per minute. Contests for medalists will be held regularly every school term, and a special discount of ten per cent will be given to each of the first thirty students entering after Sept. 5.

## Former Ops Teacher Appointed

(Special to The Post)

Ottawa, Sept. 2.—Several changes have been made on the staff of Ottawa University. Messrs. J. F. McDonald, of Peterboro and D. H. Coleman of Trenton, two laymen, have also been added to the staff of teachers.

Mr. Coleman was teacher at Connolly's School house, West Ops, a few years ago.

## Poor Fishing on Lake Scugog

So Says the Editor of the Whitby Chronicle

Whitby Chronicle: A few years ago all the fish in Lake Scugog were killed by frost, the water having fallen. The lake was restocked and a close season of a couple of years enforced. This year reports have been circulated that fishing was good in Scugog. The editor of this paper, joined the editor of the Port Perry Star in a fishing expedition last week. Now, if any Ananias ventures to say to us that the fishing is good—well, we know better. "Get up early," we were told. Well, we got up early. "Still fish near the weeds." We did so. "Use frogs." We failed not. "Troll in the steamboat channel for lunge." The lunge were away visiting. "Troll near the weeds for lunge." We caught lots of skunk weed. No, the fishing in Scugog is not GOOD. By accident one may, after the exercise of much patience, run against a struggling bass, or a pike—called lunge by the natives. But that fishing is good—such a canard. Of course, as a Welsh man of our acquaintance was wont to say: "Ef yeh want to ketch fish yeh must go where they air." Perhaps we didn't go where the fish were.

If we didn't catch fish we saw a very attractive spot for a summer resort. On the east shore of the lake, about five miles by water from the Port is Pettit's Point—though there is little point just here. The Point we want to make, however, is that on the farm of Mr. Pettit there is a beautiful oak grove on a bank some ten feet above the water. The land gradually slopes into quite a hill. In this grove Mr. Pettit has built some eight or ten cottages, all of which have been occupied this season. The writer spent two weeks, in one of them thirteen years ago. There is room here for scores of cottages and yet some. A splendid view of the water and the shore opposite is obtained, and the shade of the trees is always refreshing in the hot weather. As we enjoyed a half hour in this delightful spot, we wondered why more people were not attracted by it, and why a big hotel would not draw a paying patronage.

## Visitors Called At the Hospital

Oshawa Gentlemen Delighted With the Local Institution

Wednesday afternoon the deputation from Oshawa, together with Mr. F. Reid, of Windsor, His Worship Mayor Begg and other representatives of the town council, visited the Ross Memorial Hospital.

The town of Oshawa has just opened a handsome hospital and the citizens of that town are naturally very proud of their institution.

The visit to the local institution by the deputation, therefore, proved an eye opener to them. They were taken in charge by the matron and shown through the different apartments and the gentlemen expressed themselves as surprised that Lindsay possessed such an excellent institution, which, they declared, was second to none in the county.

Read Carefully

Let's sing a song, as we go along, so every one can hear, and tell them all to trade this fall, where goods are not too dear; and bear in mind that you can find, right where these goods are sold, if you will read with care and speed, the ads these columns hold.

## Clergy Visit Ste Anne Legate and Temperance

Quebec, Sept. 3.—The cardinal legate and his party, which included the Archbishop of Montreal and other distinguished prelates, left Quebec yesterday afternoon for Montreal via Three Rivers and Sorel, by the Government steamer Lady Grey. The Minister of Marine, Hon. L. P. Brodeur, welcomed the party on board.

The legate had obviously been delighted with his stay in Quebec, and as he stood on the gangway of the Lady Grey on the point of departure, he expressed his thanks to the assembly, and gave them his blessing. On the King's wharf, whence the departure was made, were the papal Zouaves, including many veterans of the Italian campaign, acting as a guard of honor.

The large and brilliant assembly that gathered to bid his eminence Godspeed in his journey to the Eucharistic Congress at Montreal included Archbishop Begin, chief pastor of the Diocese of Quebec, and other dignitaries. The laity were represented by Mayor Drouin, corporation officials and other prominent citizens.

The day in Quebec had been spent less strenuously than the previous day. The morning opened with early mass at the Basilica, which was packed to overflowing the legate being celebrant, assisted by Archbishop Begin. After breakfast the party journeyed in motor cars to the shrine of Ste. Anne de Beaupre, which much interested the visitors. The afternoon was taken up with seeing the Plains of Abraham and the other historical landmarks.

On Saturday morning the legate and party will disembark at Three Rivers, where mass will be said at 6 a.m., and a welcome will be tendered by the Bishop of Three Rivers, who will accompany the party to Montreal. A stop will also be made at Sorel, where a welcome will be tendered by the Bishop of St. Hyacinthe, who will also journey to Montreal.

During his stay in Quebec the cardinal visited the Catholic Temperance Congress at Laval, where he received an ovation from a great gathering. He thanked them for the splendid welcome, and declared, amid laughter, that temperance was a cardinal virtue. He congratulated the gathering on the work the temperance societies were doing for the uplifting of humanity, and in closing he gave the assembly a blessing in the name of the Sovereign Pontiff.

During the two days of the legate's visit Quebec has been crowded, the hotel have been besieged by a constant stream of visitors, and accommodation has been at a premium and difficult to obtain.

## Killing Duck Out of Season

It is said that a number of local nimrods have forgotten that the duck season does not open until Sept 15th. They hid themselves away to the hunting grounds yesterday and peeped away at the feathered game to their heart's content. Ducks are reported to be very scarce and if the unscrupulous hunters persist in shooting out of season, it will not be long before the game is practically extinct in this section.

Rice croquettes are sometimes fried in the chafing dish with butter.

MAYOR GUERIN.  
 Montreal's Chief Magistrate, who will figure prominently in Eucharistic Congress.

### Old Hall Torn Down

The old Ops township hall at Riverside cemetery, where the business of the township was transacted for a good many years, is now a thing of the past. It has been razed to the ground by the cemetery authorities, and its site will be levelled up.

## Nervous Prostration For Three Years

"Dr. Miles' Restorative Nervine cured me of a period of nervous prostration of over three years duration, and the Anti-Pain Pills are as necessary to us as the roof of our house. They have been household remedies with us for many years."

WM. J. LOUGHRAN,  
 1214 Catherine St.,  
 Philadelphia, Penna.

Much sickness is due to nervous troubles. Headache, dizziness, epilepsy and insanity are nervous troubles. Then there is a large class of disorders which arise from a weakness of the nerves of an organ or part, as weak lungs, heart, stomach, kidney, bladder, eyes, etc. Dyspepsia and indigestion are usually the result of nervous disorders.

### Restorative Nervine

soothes the irritated nerves, and assists the nerve cells to generate nerve force.
