Co-operating with the energetic pathfinder, the officers of the Canadian Highway Association have prepared maps, plans, charts, etc., which will be invaluable to Mr. Wilby. A chain of pilots has also been provided across the continent. Those in Eastern Canada, as far as the Great Lakes, have been selected by different automobile clubs in these districts, while west of this point the men have been appointed by the Canadian Highway Association. In most cases the pilot is member, frequently an officer of the association, and it is his intention to accompany Mr. Wilby for at least one hundred miles on his journey, resigning his services as guide when the district served by another officer is reached.

There are, of course, great difficulties to be met with on the journey. For many weeks it seemed as if the trip would have to be abandoned as there seemed no possibility of getting beyond the Great Lakes, short of shipping the car over the railroad or on one of the boats plying on the inland sea, but a few days ago Mr. Wilby was advised that a party which had been sent out to thoroughly investigate conditions in that lo cality, had reported that a route which appeared to be passable had at length been located.

Before leaving Halifax for hi western destination Mr. Wilby was presented with a number of letters to be delivered en route, these being from acting Mayor Martin to representative western men. One of these letters is to His Royal Highness the Duke of Connaught, patron, and another to Mr. W. J. Kerr, president, of the Canadian Highway Associa-

Valuable assistance is being given by Victor Parker, editor of the Modern Power Magazine of Winnipeg who has volunteered to pilot Mr. Wilby for 100 miles outside of Winnipeg. Mayor Fleming, of Brandon, has arranged for a pilot from his town for a considerable distance westward where he will relinquish his task to the Regina pilot. Members of the Medicine Hat Automobile Club ar to take charge of Mr. Wilby in Alberta and convey him to the British Columbia boundary, where he will be met by Mr. Guy Lowenberg, will have charge of him as far Castlegar, where Mr. Cohn D. Anderson, another vice-president, will un dertake to pilot the car as far as Grand Forks, from which point Mr. Wilby will have the assistance of

Montreal Grain and Produce. MONTREAL, Sept. 3.-The demand from foreign buyers for new crop Manible, the journey will come to an of- toba spring wheat was good and as bids were in line sales of a number of loads were made late Saturday and this morning, but owing to the continued weakness in the Winnipeg market late cables today came 71/2d per quarter lower, and the demand even at this reduction was much quieter. The demand for old crop oats continued good, and a fair amount of business was done. The local market is very firm. There was a good enquiry for new crop spring wheat flour from European sources and bids for some round lots were received, which may result in business. The local trade is steady under a fair demand for small An active trade continues to be at an advance of %c to 1/2c, with a good business doing. Local stocks estimated at 115,000 packages, of which considerable is held for western account. Cheese rather quiet but strong, with prices %c te %c higher.
