Adventures of Automobile Party

An automobile party from Lindsay had an exciting experience Labor Day while on a trip to the northern part of the county. Near Moore's Lake flames were seen apparently shooting right across the road, and the smoke was so dense at times it was impossible for the driver to see the front of the car. It was discovered that a huge pine stump fence which skirted the road was burning. The road twisted so much among the rocks that going ahead on faith was certain to end either in a smash up in the boulders or a warm reception in the flames, which was not particularly inviting, when the gasoline tank was thought of. Once the car had to come to a complete stop from inability to find the road through the smoke, but finally the party got through in safety. The fire extended for three or four hundred yards along the road. Later that evening the same party came within three feet of running over a skunk, which had become dazzled by the headlights.

COLONEL HUGHES IN ENGLAND

London, Sept. 1.—Col. Sam Hughes, Minister of Militia and Defence, for Canada, arrived at Avonmouth on Saturday night, and with Mrs. Hughes and the Misses Hughes, is quartered for a few weeks at the Savoy Hotel. Col. Hughes was enthusiastic in his appreciation of Sir Ian Hamilton's report, which he said he regarded as the most able and most brilliantly written state paper ever penned by a military authority on this question. Col. Hughes would not express an opinion whether the Government would adopt Sir Ian's recommendations, particularly the suggestion that Canada emulate Australia and New Zealand in adopting the compulsory training of youths, but he candidly sympathized with the Hamilton proposals. On the military roll are all men capable of service, and the Government knows the military potentialities of the Dominion, he said, but the roll does not bring home to the manhood of the country a sense of their direct duties in the defence of their homes. A large percentage are neglectful and indifferent and it is a fact that an enrollment impress must be made to make them share their responsibility in defending the country.

Col. Hughes said there was a project in the minds of several prominent Canadian military men to bring a Canadian brigade to England, for the next few years to join the manoeuvres of the army and territorials. It was not officially his idea, but had been officially considered by Col. Watson. After the manoeuvres here, Col. Hughes hopes to see the manoeuvres of France, Germany and Switzerland, where he will wear mufti.

Capt. Thomas Mitchell of Toronto carried off the honor at the D.C.R.A. yesterday, when he annexed the first prizes in both the city of Ottawa and grand aggregate. The veteran shot had a point lead when he came to the last range, the 900 yards distance, in the city of Ottawa, which is included in the grand aggregate. In this range he made his lead sure by putting on a possible in a high wind while the other high ones dropped.

It was a splendid win, Capt. Mitchell for thirty years has been one of the best shots in Canada. He is a vegetarian and firmly believes that the fact that he eats no meat gives him the steady eye and nerve necessary to high shooting.

Uriarte was for fourteen years Spanish consul general in New York. His last service was in Canada. The aged couple had been up until a late hour celebrating the homecoming of their son from Cuba.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to little ones. The complaints of that season, which are cholera-infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to cure them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Advanced Optical Science

The demand for accuracy in glasses, keen competition and the desire to arrive at only absolutely correct results have resulted in our placing in our Optical Department the latest improved Geneva Telescope and Ophthalmoscope Combined.

This instrument enables us to see the diseased conditions, if such exist, of the interior of the eye, accurately measure all defects, and all this without asking the patient a question.

This is the only instrument of its kind this part of the province and this is the latest invention in the field of advanced optical science.

Free examinations with this wonderful machine are conducted daily in our optical room from 9 a.m. to 5 p.m.

We supply glasses only when absolutely necessary, and many times have we directed the patient to a physician for treatment where we have found glasses to be useless in giving the desired results.

JEROME DISAPPOINTED.

Went To Quebec To See Gonin But Premier Was Away. SHERBROOKE, Que., Aug. 29.—Harry K. Thaw's lawyers, successful so far in keeping their client in jail, safe from the immigration authorities, rejoiced last night when they received word from Quebec that the trip of William Travers Jerome to see Sir Lomer Gouin, Premier and Attorney-General, had been in vain.

Mr. Jerome, leader of the New York State force seeking Thaw's return to Matteawan, accompanied by Deputy Attorney-General Franklin Fennedy, left here Wednesday night hoping to lay before the Premier facts that would persuade him to sweep aside the commitment on which Thaw is held in Sherbrooke, and place him in the hands of the immigration authorities. Presumably Mr. Jerome did not know that the Premier was to leave Quebec for New York to join those paying tribute to Lord Haldane, who is to arrive there from England to-day.

Messrs. Jerome and Kennedy were due to return from Quebec last night. Until they decide on some plan of getting Thaw out of the Sherbrooke jail the status of the case remains the same as when he was brought here.

GOES HOME TO BONNIE SCOTIA

Saturday evening Mr. Jas. Robson, of A. L. Campbell's grocery, was the recipient of a presentation at the hands of Mr. Campbell and staff, which came in the nature of a surprise.

Mr. Robson is sailing this week to visit his home in Bonnie Scotland, and the occasion was taken advantage of by the staff to wish him Godspeed. Mr. A. L. Campbell read the following address, while Mr. W. H. Bell made the presentation of a handsome gentleman's companion.

To Jas. Robson, Esq. We, your employer and fellow employees, wish to bid you good-bye upon your ocean trip to reach your parents in "Bonnie Scotia".

From your employer you have earned his highest esteem and confidence. Your co-workers have always held you in the best of regard and have learned to appreciate many of your good qualities. They wish you a most pleasant voyage, hope that your parents are enjoying the best of health, and will be glad to welcome you back to Canada.

While Canada is called the Land of the Snows, undeservedly, it contains many warm hearts who look back to the "heather in the glensom," and from the "Old Sod" we have received those who have made the bond of the British Empire stronger.

We say "God speed you," and with all our good wishes, we hope that you will when abroad still think of your friends in Lindsay.

Kindly accept this small token of our regard. Signed, A. L. CAMPBELL AND STAFF.

Mr. Robson, after he had recovered from his surprise, replied briefly, expressing his thanks for the heartsome gift as well as the kind sentiments contained in the address.
