## TRANSIENT TRADERS' BYLAW PASSED

### Important Measure Adopted by Town Council

At last night's session of the council a new bylaw regulating transient traders passed its several readings.

This is a bylaw for licensing, regulating and governing transient traders and other persons whose names have not been entered on the assessment roll in respect of income or business assessment for the then current year and who offer goods, wares and merchandise for sale by public auction conducted by themselves or by a licensed auctioneer or otherwise, or who offer them for sale in any other manner, and for requiring transient traders and other persons whose names are not entered on the assessment roll or are entered on the assessment roll, for the first time in respect of income or business assessment, and who so offers goods, wares or merchandise for sale, to pay a license fee before commencing to trade.

The bylaw stipulates that no transient trader not on the assessment roll shall offer goods, wares or merchandise for sale in any manner in Lindsay without first taking out a license; no such license shall apply to the sale of the stock of an insolvent, which is being sold in the country or district in which he carried on business at the time of the issue of a writ of attachment or of the execution of an assignment.

Application for licenses shall be addressed to the clerk and there shall be levied and collected from the applicant the sum of \$50.00.

Any person guilty of a breach of this bylaw shall pay a fine of not less than \$1.00 and not more than \$50.00 for each offence, exclusive of costs.

The words "transient traders" wherever they occur in bylaw include any person commencing business who has not resided continuously in the municipality for at least three months next preceding the time of his commencing such business here.

## A VALUABLE FOOD AND MEDICINE

Olive Oil has been used as a food and medicine since the beginning of time. It contains nearly 100 per cent. of nutriment; is highly digestible and makes blood and tissue. The pure oil when rightly made is very palatable and lends to salads a rich, appetizing flavor. Pure olive oil is a splendid food for the dyspeptic as it supplies plenty of nourishment without taxing the digestive organs. Olive oil will correct all common intestinal affections—diarrhoea, dysentery, etc.—and is valuable as an internal or external remedy in treating many other illnesses.

Round-Up of Men Believed to Have Been Involved in Theft of \$750,000 Worth of Jewels Results in the Recovery of Valuable Pearls—Scotland Yard Officials Brought Off the Coup.

The men are believed to be members of an international gang of thieves. Some of them were arrested early yesterday morning and the others during the afternoon.

All of the men are said to be Londoners, though they are of mixed nationality and were residing in Dalston, a comparatively poor quarter in North London.

The men were taken to the Bow Street police station where they will be brought up before a police court magistrate to-day.

It is reported that the Scotland Yard men are looking for other men. The pearls have not yet been discovered.

Pearls to the value of tens of thousands of dollars were recovered by the police who arrested three of the men at a railway station where they equalled for the succeeding days of men at a large sum. Scotland Yard had been watching the men for over a week. Reports that the necklace expected to meet a purchaser for the men arrested said their names are Silberman, Grisand, Lockett, McCarthy and Guttenworth. The latter is alleged to have violently resisted arrest and attempted to escape.

The debate disclosed a unanimity of sentiment in favor of the general idea, but differences of opinion as to whether the proposed text of the treaty should be approved.
