NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that simple, blotches and aches heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the system bright, the face full and clear, energy returns to the body, and I could feel the physical and mental systems are invigorated; all drains cease—no more vital waste from the system. You feel yourself a man and know marriage cannot be a failure. Don't let squacks and fakirs rob you of your hard earned dollars.

NO NAMES USED WITHOUT WRITTEN CONSENT

THREATENED WITH PARALYSIS

Peter E. Summers relates his experience: "I was troubled with Nervous Debility for many years. I lay in bed to indigestion and excesses in youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. I was induced to consult Dr. Kennedy, who looked at me and the doctor said he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Dr. Kennedy, who I had lost all faith in doctors. Like a drowning man I commenced the New Nervine Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so.

CURES GUARANTEED OR NO PAY

We treat and cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to Men.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

If you desire to see us personally call at our Medical Institute in Detroit as we see and treat no patients in our Windsor offices which are for Correspondence and Laboratory for Canadian business only. Address all letters as follows: DR. KENNEDY & KENNEDY, Windsor, Ont. Write for our private address.

J.G. EYRES TALKS TO POST OF HIS TRIP TO THE WEST

(From Thursday's Evening Post)

This morning a Post representative had a most enjoyable and profitable interview with Mr. J. G. Eyres, who has just returned from a trip to the great Canadian West.

That gentleman, it is unnecessary to state, is enthusiastic over the great possibilities of this part of the Dominion and very kindly devoted some of his time in answering the scribe's interrogations.

"I suppose you came across quite a number from your home town," said the reporter.

"Yes, I met a lot of Lindsay people out at Saskatoon during my two months' stay. Mr. J. Irwin, now superintendent of the C.N.R., has his headquarters in the city of Saskatoon, and I can assure you he is master of his situation, exceptionally capable and well liked. Nothing aristocratic about our "ain John," but glad hand for all comers, in fact a typical big hearted westerner. Then there is Leon Koyl who so ably held the laurels for us as a hockey player. He is now equally famous as a real estate dealer. It would astonish you to see the piles of letters the firm of McDonald & Koyl receive from enquirers and purchasers from this Dominion and the United States, which is undoubtedly the direct result of their fairness and integrity, and also their judicious selections for their clients.

"Well, Mr. Eyres, what do you think of Saskatoon?"

"It is going ahead at a wonderful pace. Remember, it is not outgrowing itself. Every condition is equal to the occasion. Why, in 1903, just six years ago, its population was only 113, and just before I left census returns showed a population of a little over 16,000. This phenomenal increase, being 154 per cent. greater than the combined percentage increase of 11 of the leading western cities for nine years, being a fifty per cent longer period than the existence of Saskatoon, whose actual percentage was 10608 per cent. in six years, and there is now nine different operating railway outlets and more to follow.

"The university and agricultural college would be a credit to any city and embraces over 1300 acres of land set apart for the grounds.

"Arrangements are being completed for one of the best power plants in the West through the immense and rapid flow of water in the big Saskatchewan river, which passes through the city. The grain crops of Saskatchewan surpass anything in the west and while it is the youngest of the three prairie provinces the grain yield for 1909 amounted to \$122,539,242 being considerable over the total produce of Manitoba and Alberta combined and one-eighth as much wheat as the entire United States. "We certainly hold the fort for the most gigantic wheat producing areas of the world."

THE BURLEIGH POWER COMPANY WANT PATENT TO OTARIO'S LAND

Star: A deputation headed by J. J. Preston and J. H. Devitt, two members of the Legislature, waited upon Hon. Frank Cochrane, Minister of Lands, Forests and Mines, this morning, to ask that the Central Ontario Power Company be given a patent to 26 acres of Government lands near Burleigh Falls.

This company has received from the Dominion Government a concession to develop power at Burleigh Falls on the Otonabee River, at the head of Stoney Lake. The land in question is immediately adjoining this water power. At the present time this question of ownership is in dispute between the Ontario and Dominion Governments, and therefore the Minister of Lands, Forests and Mines is in favor of a release. The company, however, desires patent rights. It promises cheap power to Cobourg, Port Hope, Peterboro and surrounding towns.

Peat Fuel Scores Great Success At Ottawa

Ottawa, Oct. 19 — The experiment made by the Mines Department during the last month of placing on the local market 500 tons of peat manufactured into domestic fuel at the Government experimental plant at Alfred, a few miles east of Ottawa, has proved a great success. The whole supply offered was sold within a few days at \$3.25 a ton, and since then there has been a deluge of orders for further supplies. There is a general consensus of opinion among those who have used the new fuel that it is cheaper than coal. The results of the first year's operations of the government plant at Alfred indicate that there is an immense field for commercial exploitation in developing the very large peat deposits scattered throughout central Canada.

SOLICITOR RESIGNS

F. A. McDiarmid of Victoria, B. C., Steps Out

The following despatch to the Globe will be read with interest: Victoria, B. C., Oct. 19—(Special).—There has been another shake up at the city hall. Mr. F. A. McDiarmid, city solicitor, who came from Lindsay, Ontario, has resigned. He claims he cannot work with the city engineer.

Left Today For Prince Rupert

From Saturday's Post

Mr. Freemont Crandell and son Freemont, Jr., left this morning via C.P.R. for Prince Rupert, where they will resume their work on the Grand Trunk Pacific 250 miles east of Prince Rupert. Mr. Crandell says the building of the G.T.P. in the west is very much delayed by lack of labor, which is very scarce, and the contractors are using every effort to induce the British Columbia government to allow them to import Oriental labor to help them out.

CRIPPEN TO HANG

Close of Great Murder Trial in London

(Special to The Post)

London, Oct. 22.—Dr. H. S. Crippen was this afternoon found guilty of murder by the jury, and was at once sentenced by Lord Alverstone to be hanged. The jury, after being addressed by the judge, retired at 2.42 o'clock, and returned shortly after with a verdict of guilty of murder. The court room was crowded when the case was resumed this morning.

Dr. Crippen was, as usual, carefully dressed, and to all appearances, unworried by the seriousness of his position. A sensation was created in court when the judge, first asking the jury if they had seen yesterday's Evening News, directed that an order be issued for the attendance before His Lordship in the court of the day of the editor of the Evening News. His Lordship, addressing Mr. Muir, chief counsel for the prosecution, said he had received a great many communications, some of them entitled to respect.

Fatal Accident Narrowly Averted

On Thursday evening there occurred at Haliburton what might have been a fatal accident.

A traveller who was staying at the Watt house was looking over his gun preparatory to going for a hunt. He put the gun up to his shoulder, and sighted it out of the window, and not knowing it was loaded pulled the trigger and it went off, blowing a hole through the plate glass window and passing through the fence into Dr. Scady's building on the opposite side of the street. Mr. Watt, the proprietor of the hotel, was sitting in front of the window, and the ball just missed his head by an inch or two.

Had Relatives In This County

Review: Around the year 1880 a young lad came to Peterboro as a junior clerk in the old Bank of Commerce, situated then at the corner of Brock and George streets. Today that boy, grown to manhood, after years of faithful and diligent service, is manager of the bank in Peterboro. Such is the career, in brief, up to the present, of Mr. Dunsford, who arrived in the city last week to accept the position as manager of the Bank of Commerce.

Mr. Dunsford will be remembered by many of the older residents of the city. His father was the late Mr. Martin Dunsford, who practiced law in Peterboro in the year 1860. He served in the bank here for two years, before being moved, and since that time he has been constantly transferred from city to city, each move being a slight promotion, until now, in middle life he has been appointed manager in the same city which saw the commencement of his banking career.

Mr. Dunsford is a nephew of the late George Dunsford, and also of the late Mr. Hartley Dunsford, registrar of Victoria.

Mr. Dunsford will, in a few weeks occupy the residence vacated by Mr. D. Hughes, Charles, 748 Water street.

HYMENEAL

LANE—DOXSEE

In Toronto, on October 13th, was solemnized a pretty but quiet wedding, when Miss H. M. Lane, youngest daughter of Mrs. J. Lane, of Haliburton, was united in marriage to Mr. W. W. Doxsee, M. A., of Peterboro.

Immediately after the ceremony Mr. Doxsee was due to leave for Calgary to take a position of school teaching while his young bride received a telegram from her mother to return home on account of illness.

Mr. Doxsee is well and favorably known, as is his bride, and congratulations are current everywhere in town.

INSPECTION OF PORT PERRY AND LINDSAY WATERWAY

Review: Mr. J. H. McClellan, superintendent of the Trent Valley Canal, returned yesterday from an inspection trip of the waters between Lindsay and Port Perry. He was accompanied on the trip by members of the council of Port Perry, that town being greatly interested and thoroughly alive, in regard to the waterway problem, that now, and for some time past, has been confronting it.

When Port Perry was at its height as a lumbering centre a railway was bonused, and a line built from Whitby to that place, and later a junction was built, which gave the town access to Lindsay, just as did the Scugog river and lake. Transportation by water, however, gave way to the railway, and as a consequence, the dam and locks erected by the Ontario government, which kept the water level normal, fell into disuse and out of repair.

With the completion of certain sections of the Trent Valley Canal, Port Perry woke up in alarm. They saw the possibilities before the town, if connected with the canal.

Since the erection of the new dam and locks at Lindsay by the Dominion government, and which has but recently been put in operation, the water is again at normal level and with the rise has come corresponding benefits.

The fish have come back to their old haunts, and this in itself is a great asset to Port Perry as a summer resort. Then, too, the water facilities in conjunction with the canal will allow of cheaper transportation to and from the town.

There have been many complaints about the low water in this watercourse, but the dam and locks at Lindsay is now fulfilling its purpose and besides being buoyed, the river and upper Scugog will receive other attention by the department.

SUGGEST CHANGE IN OPEN SEASON FOR THE TRAPPING OF MINK

Toronto Mail: A large deputation was introduced at 4 p.m. yesterday to the Hon. Dr. Reaume by Messrs. W. D. McPherson, K.C., M.P.P., and John Shaw, M.P.P., representing practically all the prominent fur dealers in Toronto and Northern Ontario, requesting an amendment to the game and fish law by having the open season for taking mink changed from the 1st of December to the 1st of November in the Autumn and the close season limited from the 1st of May to the 1st of April. The dealers were represented by Mr. M. H. Ludwig, K. C., and Mr. J. H. Hammond, of Orillia.

Among those present were:— Mr. George Monteith, of the Monteith Fur Co.; Mr. George Dale, representative of Wagner, Braster & Co.; Mr. Geo. E. Gillespie, of the Gillespie Fur Co. Mr. Chas. J. McKay, of the Canadian Hide & Skin Co.; Mr. W. C. Goffett of Orillia; Mr. C. W. Dineen, of the W. and D. Dineen Co., and Mr. D. G. Bastedo.

The Minister heard the deputation which presented the detailed reasons for the proposed change, and promised to lay the matter before his colleagues, so that if deemed advisable, the law may be changed in compliance with the request at the next session of the Legislature.

Last year, and as far back as 1907-08 Inspector Bradshaw, in his report, suggested the following amendment: "That mink be protected from the 1st of May till the 1st of November in each year." It will be seen, therefore, that this recommendation had been made in advance of the prayer of the

Cheese Board Held Session

The cheese board met this morning at 10 o'clock, bidders Fitzgerald Gillespie, Brown and Flavelle being present. Cheese sold at 11c. Potzger all bought but Mariposa and Reaboro at the quoted price. Buyer Flavelle taking Mariposa and Reaboro output.

The following factories were boarded:—

Star.....	95
Dunsford.....	99
Mariposa.....	57
Omeme.....	135
North Ops.....	120
Reaboro.....	120
Bobcaygeon.....	165
Maple Leaf.....	65
Red Rock.....	85
North Harvey.....	60

Goose Took A Wild Streak

Mr. T. J. Spratt, who recently purchased a flock of geese, is now mourning the loss of one of the number.

On Saturday the bird was departing itself with the other members of the flock when it suddenly took a wild streak, flew skyward, and struck off in the direction of the G.T.R. round house. Back again it came and circled the flock several times, finally striking out towards the pump house. It was afterwards noticed by a citizen striking back again, but Tom thinks she is "a gone goose."

What caused her to leave the flock is a mystery. It is thought that the bird was given a hint that there was a scarcity of turkeys, and it took flight in order to save its head.

Syndicate For Exploiting Power

Bowmanville Review: Monday the Commissioner of Industries for Peterboro phoned the Mayor that there were power facilities in that district that could be cheaply developed and suggested that the several towns form a municipal syndicate to exploit them. He said under this plan electric power could be developed in Bowmanville at a cost not exceeding \$15 per horse power. A meeting may be held in the near future.

The Toronto Telegram says:— "Eastern Ontario stands waiting the guiding hand of this Commission. What the Commission has done for Ottawa in securing for the citizens of the capital electricity at 015 per h.p. it must also do for Whitby, Bowmanville, Kingston, Brockville and Cornwall. Power must be had from the waters of the Trent Valley Canal and from the other rivers and falls of Eastern Ontario to stimulate the industries of these cities and towns, and to revive the flagging commercial life of this, the oldest section of our province."

Epilepsy, Spasms, St. Vitus' Dance

"I suffered for many years from what some people call epilepsy. Dr. Miles' Restorative Nervine cured me, and you can imagine how thankful I am."

M. I. COFFMAN, Coldwater, Mich.

"My daughter was cured with Dr. Miles' Restorative Nervine, after having been afflicted with fits for five years."

PETER MCAULEY, Springfield, Mass.

"For a year my little boy had spasms every time he got a little cold. Since taking Dr. Miles' Nervine he has never had one of these spasms."

MRS. MYRTLE DAGUE, Rochester, Ind.

"My daughter couldn't talk or walk from St. Vitus' dance. Seven bottles of Dr. Miles' Nervine entirely cured her."

MRS. NANNIE LAND, Ethel, Ind.

"Until my son was 30 years old he had fits right along. We gave him seven bottles of Dr. Miles' Restorative Nervine. He has not had a fit since he began on the fifth bottle."

MRS. R. DUNTLEY, Wautoma, Wis.
