WHAT FRIDAY'S VOTE MEANT

The vote accorded by the citizens of Lindsay yesterday in favor of granting a franchise to the Seymour Power Co. to supply light and power to the town, must have been most gratifying to the great body of our citizens. The verdict was not a snap one, taken at a time when the people were not conversant with the merits and demerits of this and the alternative proposition—the purchase by the municipality of the local plant.

The question has been freely and fully discussed in the press and on the platform, and the citizens were therefore in a position to give an intelligent vote on the question. The two monster mass meetings held during the week, at which every opportunity was given the citizens to express themselves were of great educational value, so that the people were not stampeded into voting on a question they did not fully understand.

The supporters of the proposition to purchase the local plant and operate it as a municipal enterprise advocated their policy with zeal and vigor. They had the prestige and support of Hon. Adam Beck, Chairman of the Hydro-Electric Commission, and Mr. Lyons, of Guelph, in this campaign. Municipal ownership, which, it must be admitted, is popular with a great many, was also strongly emphasized by those opposed to the franchise.

The Citizens' Committee, on the other hand, pointed out the great dangers which loomed up in case the people decided to vote in favor of purchasing the local plant. Affairs, they pointed out, had reached a crisis in the history of the town. Our tax rate was high, our population was not increasing and the people were becoming discouraged. The expenditure of \$230,000 for the local plant with the additional expenditure of \$70,000 for repairs and enlargement, was a proposition too great a magnitude for the town to assume in its present condition. Then there was a strong element of doubt regarding the power possibilities in the north and upon which the Hydro Electric Commission had failed to enlighten the people. In short the people did not wish to be saddled with additional burdens; on the contrary they wished to be relieved, and they voted with that object in view.

The town wanted industries and were willing to support any legitimate proposition that would tend to increase the industrial activity of this town, without adding additional burdens. The advent of the Seymour Power Co. on the scene was providential. The proposition submitted by this Company to the town was not looked upon with favor at first, because the people had been hypnotized to a certain extent by the Hydro-Electric influences. The Post, together with a number of the citizens, championed the cause of the Seymour Co. because it was realized at the time that their proposition was the better one for the town to accept. First, because the town would not be saddled with any expense, and secondly because the Company was a wealthy one, with unlimited power to dispose of, and thirdly because of the influence it would yield through the Industrial Department in securing industries to locate here. The Post took this stand solely in the best interests of the town, and has had the satisfaction of seeing the citizens falling in line with the attitude taken, which had its culmination in the magnificent verdict at the polls Friday in favor of the Seymour franchise.

The result of that vote marked an epoch in the history of the town. We feel that we are not over sanguine if we say that Lindsay's future prosperity will date from Friday Oct 29. We have every confidence in the patriotism and loyalty of our people, and believe they will now unite to work in harmony for the future up-building and advancement of our town.

WATCH PLANETS THIS MONTH

The passages which follow are taken from Word and Works, an astronomical journal which is published in St. Louis, Mo., by the Rev. Irl R. Hicks.

"Saturn is now almost on the meridian at midnight and is growing in brightness and magnitude. Have your telescope in readiness and study his beautiful rings during his present opposition.

"Mars is growing very bright and large. Many uninformed people will now begin to ask—What big red star is that in the morning eastern sky? Be prepared to answer all such questions.

"Any bright fair day from about the 15th to 25th of October, any good keen-eyed observer may follow Venus through most of the day with naked eye. Locate her early in the morning about sunrise, and you will have little trouble to see her after sunrise and at intervals during the day. She will keep her distance ahead of the sun, setting an hour before sunset."

LIVED IN THE DOOMED TOWN

Mr. T. A. Fisher, of Lindsay, informed the Post this morning that he was at one time a resident of Austin Pa., the town that was swept by the fierce flood on last Saturday, resulting in the loss of hundreds of lives. Mr. Fisher lived there some twenty five years ago and helped construct the wooden dam situated on the site of the one swept away on Saturday. He knew quite a number of the residents of the town and is anxiously awaiting the publication of the death list.

Children Burned to Death.

Indian, Pa., Oct. 3.—Eight children of Mr. and Mrs. Dias, of Heshbon, near here, ranging in age from thirteen years to three months, were burned to death early Sunday, when fire destroyed the family home. The parents, after discovering the flames, left the children in their beds and went to the first floor, where they made an attempt to extinguish the fire.

The blaze spread rapidly, however, and they were unable to return to rescue the little ones.

Entombed Men Rescued.

Fairbanks, Alaska, Oct. 3.—The fourteen men who were entombed at the Shakespere Mine, on Dome Creek, were rescued yesterday, none the worse for their confinement of 84 hours. A drill hole, through which they had been provisioned, was enlarged by thawing until it was big enough to permit the body of a man to pass. Then the imprisoned miners were pulled one after another to the surface of the ground, 1,274 feet above.

Signs of a Hard Winter.

Whitby, Oct. 3.—Farmers in Ontario County are preparing for a hard and long winter, because the red squirrels and chipmunks have become very busy buying in their winter food stores, even going to the extent of collecting green chestnut burrs, breaking them open and hiding away for future use the unripe chestnuts. The natives declare they never before knew the squirrels to open green chestnut burrs or to begin storing food so early in the fall.

Charge Now Manslaughter.

Ottawa, Oct. 3.—J. LeBevre may be charged with manslaughter as the result of a fight in which he took part a couple of weeks ago, when, it is alleged, he knocked Patrick O'Hanley down on Clarence street, causing him to break his leg. He has been in Water Street Hospital ever since, and last Saturday died as a result of his injuries. The prisoner was yesterday morning remanded for a week.

Royalists in Portugal.

Santiago de Compostela Spain, Oct. 3.—The newspaper Eco says that the Royalist leader, Capt. Coure, and his chief Portuguese Monarchist conspirators entered Portugal Sunday at the head of 3,000 men with several guns and quickfiring, and one hundred and fifty mules.

How He Saved \$40.

Peterboro, Oct. 3.—Michael Scott pleaded guilty to obstructing and assaulting a C.P.R. conductor when asked for his ticket, and was fined \$40. He took the alternative of one month in jail.

Another Airman Dies.

Spokane, Wash., Oct. 3.—Cromwell Dixon, who aviated across the Rocky Mountains last Saturday, fell 100 feet in the Interstate Fair grounds here and received injuries which caused his death.

Bargains of note from the Dress Goods and Mantle Dept...

Dress Tweeds 45c

Beautiful English quality for Dresses and Coats. Just the right weight for fall and winter. 50 inches wide. See these on display for per yard..... 45c

New Furs Have Arrived

We have one of the finest selections, of all classes, that will be shown. We invite your inspection before purchasing, Second floor.

WAKELYS

GERMANY LIKELY TO STOP WAR TURKEY NOT ANXIOUS TO FIGHT

(Special to The Post) London, Oct. 3.—From present appearances the Turco-Italian war promises to be the shortest and most bloodless war in history. Thus far its distinguishing characteristic has been the absence of fighting, and with Germany acting as peacemaker, it may be ended before fighting occurs. It is concluded that no mediation will be accepted by Italy until she has accomplished the military occupation of the Tripolitan coast.

After that negotiations will be much easier and are likely to be successful, if Turkey will accept a money indemnity for allowing Italy to establish herself in Tripoli, as Great Britain did in Egypt. The news filtering in from various points continues to be of a negative kind. Evidently Tripoli has not been bombarded, and is not likely to be, if the Turks do not oppose the Italian landing.

The warlike operations are confined to a blockade and the capture on either side of a few small vessels. It is now admitted from the Turkish side that Preveza, in European Turkey, is not occupied. Italy's announcement that she has no intention to carry the war into European Turkey, will do much to allay apprehension over the Balkan or other complications.

Turkey's ministerial difficulties have not been solved, but generally the situation looks more hopeful. No Bombarding Before To-day. Rome, Oct. 3.—A despatch to The Tribune from Malta, says that a steamer, which arrived here at six o'clock yesterday evening, brought the news that the Turkish transport Derwani had been shelled and sunk in the harbor of Tripoli. It contained the other advices that the bombardment would not begin until Tuesday—this in order to give the population time to withdraw to a place of safety.

Keep Hands Off Balkan Peninsula. London, Oct. 3.—A despatch received here by a news agency from Vienna, says that Count Von Aehrenthal, the Austro-Hungarian Foreign Minister, has informed the Italian ambassador that any further action by the Italians on the Albanian coast will make it necessary for Austria to dispatch warships thither.

Count Von Aehrenthal asked the ambassador how he reconciled Italy's naval movements in the vicinity of Albania with her declarations that she was keeping her hands off the Balkan Peninsula.

Erecting Brick Barn At last night's council meeting Mr. Wm. Shouldice, 33 Peel-st., asked for permission to erect a brick barn on his property. He was instructed to see Chief Chilton on the matter.

THE NEW \$4 BILL DENOTES PROSPERITY

Have you a \$4 bill in your pocket? There are a great many new \$4 bills in circulation just now. These new bills are an evidence of the unusual prosperity this country is enjoying. The fact of their being in circulation means that business in Canada has expanded to such an extent that the note circulation allowed them under the Bank Act, and have been forced to buy Government notes to supply the country's demand for currency. The bank note circulation is one of the best barometers of the condition of business in the country. When the note circulation is large the country is always in a healthy business condition. The fact that the note circulation has reached its limit and that the Government had to be called on for new currency shows that business in Canada has experienced an enormous expansion this year. It shows business conditions to be in an unusually healthy state.—Orillia Packet

Market Clerk's Report

Market Clerk Callaghan's report for September read at last night's Council meeting is as follows: Weighing fees, \$50.13; rent of booth stands during fair, \$16.00; fees in rigs and baskets, \$6.42.

Conduct Dancing Classes

Mr. Walter A. Dixon wrote Council last evening asking if the town hall would be available once a week to conduct a dancing class, and if so, what the terms would be. Referred to Town Property Committee.

Funeral at New Market

The death took place yesterday from spinal meningitis of the nine-year old infant daughter of Henry Sabin, caretaker of the Riverside cemetery. Interment took place to-day at New Market.

CHIEF CHILTON'S SEPTEMBER REPORT IMPROVEMENTS TO THE POLICE STATION

At last night's meeting of the council, Chief of Police Chilton presented his report for the month of September with recommendations. There were 27 cases dealt with by the Police Department. Convictions were made in all the cases but one, a breach of Liquor License Act, withdrawn by complainant. Totals of fines and penalties and licenses amounted to \$284.30. Five vagrants were given lodging, and let go with a warning. The Chief recommended that the new office be properly furnished to enable Chief to carry out official duties with despatch and give strangers a good impression of the town.

In connection with the suggested improvements to police office, Chairman Lewis, of the Town Property Co. and Ald. McCrae, of Police and Light, were instructed to put a window in the police station and also secure the necessary office furniture. Dept. Reeve Dobson said the Chief was doing extra good work and should get what he required. Dept. Reeve Lewis pointed out that in three months the Chief had collected over \$500. During nine months in the previous three years, only a little over \$400 was collected—\$76 less than in the past three months.

It was pointed out by some of the Aldermen that the construction of the C. P. R. grain line brought many undesirable, who helped to swell the funds. The same conditions prevailed when the Bobcaygeon line was built.

Was Neglected in the Past

Deputy-Reeve Lewis at last night's council meeting stated that all the electric lamps had been taken in from the park. As Chairman of the Town Property Committee, he has saved the town \$9. as in other years the lamps were all destroyed. Miss Amey of Cannington, who had been spending a few days visiting Miss Cora Stevens, returned to her home this morning.

Not in Sanitary State

Mr. William Lees wrote the Council last evening and stated that under existing conditions it was next to impossible for him to avail himself of cellar drainage for his premises on Kent-st. east. Without drainage he found his premises could not be kept in a sanitary state. He was willing to pay a reasonable share of the cost of relieving the trouble.—Referred to Board of Works.

Mr. S. J. Haight, Toronto, Inspector for the Manufacturer's Life, was in town to-day on business.

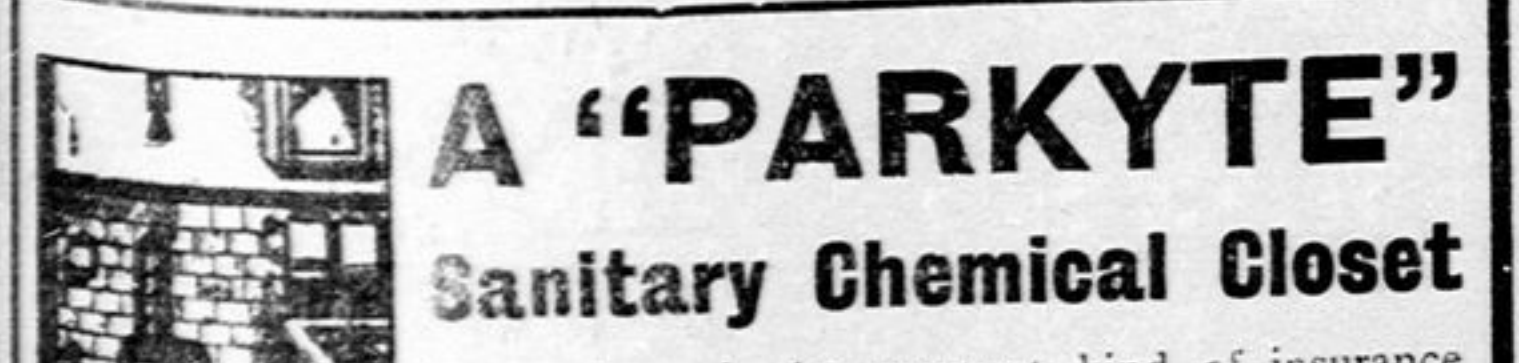

HUNTERS' Return Tickets at Single Fare
