Proceedings Of Ops Council

Ops Council met Oct. 9th, at 10 a.m. All the members present. The minutes of last meeting were read and approved.

COMMUNICATIONS.

From the Township Engineer, Mr. Smith, extending the time for the performance of the work on the Walker Drain. From W. H. Biggar, of the G. B. & S. Ry., explaining the plan of bridge No. 51 to be rebuilt between cons 1 and 2, Ops; and stating that the drive road here would be kept as straight as in the old bridge, and be 6 inches wider, and asking for approval of the plans. From the National Concrete Co., re drainage at their property. From the Clerk of the Peace, re jurors to be selected from Ops.

Messrs. Patterson and Moore again sat on the Council re the closing of the by-road through their properties. Mr. Patterson claimed that it was the understanding at last meeting that he was to get the whole of the said byroad for \$75. Some members of Council agreed with Mr. Patterson. Mr. Moore took objection to this, claiming that it would not be right to sell the portion of said road belonging to his farm to another man. Mr. Patterson claimed Mr. Moore went away from last meeting refusing to come up to the price fixed by Council. The Statutes relating hereto were read, and it was shown that Council has not offered Mr. Moore the portion adjoining his farm at what they thought a reasonable price as was required. They had only been trying to see what they could get for the whole road in bulk before they took any proceedings, and that the first thing to do was to get the by-law passed closing the road, and then a man adjoining have the first chance of buying. Council decided on these steps, and the Clerk was instructed to have the Township Solicitor proceed therewith. The closing of by-street between the lands of

Messrs. Dowler and Williamson to be proceeded with at the same time.

Mr. Robert Sanderson presented a bill for inconvenience caused by having to travel through Wm. Stewart's fields while the overhead bridge on the G. B. & S. Ry. was being constructed. This bill was handed to Engineer Duncan of the C.P.R. Council allowed Mr. Sanderson remuneration for his statute labor performed this year, as the rest of the work on his beat had been remitted on account of the impossibility of drawing gravel across the railway.

Engineer Duncan was present to ask Council to close by law that portion of the North end of St. Patrick-st., within the right of way of the G. B. & S. Ry. in as much as the Council had no further street left North of the track.

Mr. W. B. Fee was present claiming an open crossing at this point, as the entrance to his lands north thereof. Council wanted Mr. Fee and the railroad to come to a settlement and in the meantime decided to take no action towards closing the said street.

On motion of Messrs. Waldon and Best the Clerk was authorized to get a new registration book. On motion of Messrs. Terrill and Hickson the following accounts were ordered paid Thos O'Neill, for cement used in maning tile this year, \$54; W. F. Shoultice, for use of hack in connection with the visit of the members of the Board of Railway Commissioners, \$3; National Concrete Co. for cement tile, \$27; Dr. Brown, for express, sending samples of well water to Toronto for examination, 25c; Clerk for Long Distance phone re visit of Railway Commissioners, 25c. Also a number of interim orders of pathmasters.

Council instructed the Clerk to write the Board of Railway Commissioners that the Council of Ops would not approve of the plans for the rebuilding of the bridge between cons 1 and 2 on the G.T.R. unless the drive road were made straight.

Council adjourned to meet at the call of the Reeve, probably on Nov. 20th.
