TORTURED BY BILIOUSNESS

AND TERRIBLE SICK HEADACHES

Both Completely Cured by "Fruit-a-lives"

DRESDEN, Ont. July 17th, 1910. "I was a dreadful sufferer for many years from Sick Headaches and Biliousness, or Torpid Liver. I tried many remedies and physicians, but nothing seemed to do me any good. I finally used "Fruit-a-lives" and after the first box, I was so much better that I continued using these fruit tablets and they have entirely cured me.

"I certainly can recommend "Fruit-a-lives" to anyone who suffers from Headaches, Biliousness or Stomach Trouble." Mrs. ISAAC VANSICKLE. Thousands of people have had the same experience as Mrs. VanSickle. They have tried doctors and taken all sorts of medicine, only to find that "Fruit-a-lives" is the one and only remedy that actually cures these troubles.

"Fruit-a-lives" is the only medicine in the world made of fruit juices, and is the greatest Liver Cure ever discovered. It acts directly on Liver, Kidneys and Skin—sweetens the stomach and purifies the blood.

50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers or from Fruit-a-lives Limited, Ottawa.

Too Little Blood

The Cause of Nearly all the Everyday Ailments of Life

Too little blood—that is what makes men and women look pale and sallow and feel languid. That is what makes them drag along, always tired, never real hungry, unable to digest their food, breathless and palpitating at the heart after slight exertion, so that it is wearisome even to get up stairs. Doctors tell them that they are "anaemic"—the pain English being too little blood. If your face is pale or sallow, if your gums are pale instead of being scarlet; if you are easily tired and frequently despondent; if you do not relish your meals, and small matters irritate you, it is a sign that your blood is thin and watery and that you are on the verge of a complete breakdown.

More weak, anaemic people have been made strong, energetic and cheerful by taking Dr. Williams' Pink Pills than by any other means. They actually make new blood, which reaches every part of the body, braces the nerves and brings new health and new strength. The case of Miss Nellie Welch, Essex, Ont., is proof of the great curative powers of Dr. Williams' Pink Pills. Miss Welch says: "A few years ago I was going into hopeless decline. I was subject to severe headaches, had no appetite, was pale and grew distressingly weak. I tried several doctors, some of whom we counted the best in this part of the country, but they failed to help me. At last my heart grew so weak, and I was so nervous and thin that I had to take to my bed, and the doctor held out but little hope for my recovery. Like others I had often read of Dr. Williams' Pink Pills, and though the doctor opposed my taking them I determined to give them a trial, as I felt I might as well be dead as to be living in the misery I was in. In a month after beginning to take the pills I was up and around again, and steadily growing stronger until I was again enjoying the blessing of perfect health. Several years have since elapsed, and my health has been the very best. It is therefore with great gratitude that I write you in hopes that my experience may be of benefit to some other sufferer."

Sold by all medicine dealers, or by mail at 50 cents a box, or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

INDUSTRIAL COMMISSIONER

(From Tuesday's Post)

Last evening a meeting of the Committee appointed at a recent meeting of the Board of Trade to deal with the question of the appointment of an Industrial Commissioner, met and discussed this important question in all its phases.

It was decided to hold a meeting at an early date of all the contributors and they will select five members to form a permanent Industrial Commission—one member from the Board of Trade, one from the Town Council, two from the contributors and the Industrial Commissioner will comprise the Committee. A local bank will look after all monies collected and it will be checked out by the Treasurer of the Industrial Commission and countersigned by the President. The Industrial Commissioner will act as Secretary and will be controlled by the Commission.

The question of the appointment of an Industrial Commissioner or Lindsay is a very important one, and marks the inauguration of an ambitious campaign for the upbuilding and advancement of the town. The appointment of such an official by any municipality is not in any sense a venture. All the live, progressive towns and cities of the West have their Industrial Commissioners, and their success has been phenomenal. Capable men were appointed, and they succeeded in bringing the advantages and facilities of their respective towns into such prominence as to favorably impress manufacturers looking for locations. Several important centres in Ontario have also realized the importance to a town of having such an official on the road.

This is the age of competition in every line. Municipalities in this progressive age are competing with each other in the race for industries, and every other factor that will help in their growth and expansion. It has long ago been proven that you must get out and hustle for the good things. They will not come to you. A town that is satisfied to let well enough alone and that lives in the hope that it will grow without any effort on that part of its citizens will soon lapse into that state of innocuous desuetude that places it in the "down and out" class. The progressive

towns of to-day were made so by the progressive cities within their borders. They boosted the town first, last and all the time, and followed up their words by deeds. Prospective industries desiring locations were chased up by an Industrial Commissioner, who very seldom came back empty-handed.

If Lindsay ever expects to become an industrial centre it must do as other towns have done. If the citizens are anxious to see its population increase, to see a new era of prosperity and progress, they must all unite in the effort that is now being made to bring about these conditions. Lindsay can secure new industries if we only get out after them and our unrivalled advantages over other municipalities emphasized. To do this successfully we must have the services of some one who will devote his entire attention to this important matter and who is well qualified to present Lindsay's claims as an important centre. This is where the appointment of an Industrial Commissioner comes in.

There is a feeling among a great many citizens that Mr. Wm. McComb who has been most prominent in connection with the Sylvester and Seymour Power Co. propositions, would make an excellent man for that position. It is pointed out that he is eminently qualified by virtue of his successful experience in industrial matters. He is aggressive and has a thorough knowledge of the duties required.

It is proposed to inaugurate the appointment of such an official and the

launching of Lindsay's aggressive industrial campaign by the holding of a small dinner to which the contributors to the industrial fund will be invited and a small fee will be charged to defray expenses.

Will Petition the Government

Toronto News: The shareholders of the defunct Farmers Bank will unite in a giant petition to be submitted to the Federal Government asking that some measure of relief be allowed to all parties innocently involved in the crash. The petition is now in the hands of the Halton shareholders.

Such was the intimation received this morning by long distance telephone from Dr. Anderson, of Milton, one of the members of the relief committee, when Mr. William Laidlaw, solicitor for the shareholders, drafted the form of the petition which calls upon the Government for assistance, quoting precedent, and alleging that the treasury board was in reality responsible for the ruin of hundreds of Canadian citizens.
