BAPTISTS CONVENE AT PETERBORO

Peterboro, Oct. 17.—At the morning session of the Baptist Convention of Ontario and Quebec, with Rev. John MacNeill, Vice-President, in the chair, after devotions led by Rev. O. C. Elliot of St. Thomas, Rev. J. H. Farmer, B. A., L.L.D., professor of New Testament exegesis in McMaster University, opened the discussion on the New Testament or Protestant doctrine of salvation. Taking up Romans iii, 21-26, regarded as the keystone of Protestant doctrine, the speaker said that the essence of St. Paul's teaching was that God through Christ's death had conditioned himself to righteously forgive man on the ground of faith. The resources of the risen Christ help the child of God to complete the new life by the help of the Holy Spirit. The whole Pauline thought was that sin was imputed to Christ through the shedding of His blood. The Protestant doctrine emphasized justification by faith, not by works. The Gospels all emphasize the death of Christ rather than the example of Jesus. The baptism of Jesus made it clear that Christ in that act confessed that he had taken the sins of men voluntarily. The ordinance of baptism and the Lord's supper refer to His death. The gospels agreed with Paul in making the death of Christ propitiatory and expiatory; the song of the redeemed and the sum of religion. The address was scholarly and tender.

WESTERN MISSIONS PROSPERING

Dr. W. B. Tighe, B. A., read the fifth annual report of the Western Mission Board, the collecting agency of the Baptist Convention of Western Canada. In Manitoba there are 13,000 Baptists in Saskatchewan, 18,000 in Alberta, 19,000 and in British Columbia 17,000. Non-English churches were successfully maintained among Germans, Scandinavians, Russians, Ruthenians and Hungarians. Collected are located at Brandon, Calgary, and Summerland, B. C. The churches of Western Canada gave liberally this year, \$12,500 to India and Bolivia, \$1,000 to Grand Ligne and \$18,400 to non-English work at home, a total of \$31,900 for foreign missions at home and abroad. The Treasurer's report showed receipts of \$23,339.33, of which \$19,007.86 was from churches and the balance from Sunday schools. Disbursements were \$23,312.97, leaving a balance of \$26.35.

Injured Youth Is Recovering

The many friends of Mr. and Mrs. J. C. Burke, Lindsay-st., will be pleased to learn that their little son Earl, who was accidentally shot on Sunday morning, is progressing nicely, and is able to be around. The bullet entered his left cheek, and although it has not been located, no serious results are anticipated.

SPEND \$300,000 TO KEEP BAR

(The Globe.)

Activity in the Dominion Alliance office just at present is at its height, and the place represents the provincial bee-hive. The fight for local option this year presents some interesting features, and there are some keen contests in sight. The Alliance office, the centre of the Province's campaign, has a greatly augmented staff dealing with the printed matter going out, and the big mail bags bulged with their contents.

Rev. Ben. H. Spence, the Secretary of the Alliance, speaking with regard to the cost of the elections, stated that the liquor interests were spending their money freely, and the elections would cost them between three and four hundred thousand dollars. "We do not spend one dollar where they spend four," said the Secretary.

One of the interesting fights will be that of Adajala township, which is looked upon as a sort of strategic point. Upon the map in the Alliance office the licensed parts are shown in black and the non-licensed in white. Adajala township looks like a splash of tar upon a white sail, and there is only one license in the township at that.

Speaking of convictions the Secretary stated that there had been more convictions for "blind pigs" in Acton since local option had been repealed than in the three years previous.

There are fifty-three contests to date, and there may be more before election time.

Cigar Traveller Died Suddenly

Mr. Matt Gould, a well known cigar traveller of London and well known in Lindsay, died suddenly of heart failure Sunday at the home of his sister, Mrs. Lou's McCarthy, 462 Maitland street, London. He had just returned from a trip to Port Arthur, and, although complaining of a slight indisposition, his death was altogether unexpected. He is survived by two sisters and one brother.

LIFE'S SUNSHINE

Gladdens Those Who Regain New Health and Strength

When the glow of health comes back to sallow cheeks; when languid weakness gives place to vigor; when you notice some pale, exhausted individual restored to active health—enquire. More than likely you will find the cure to have been yet another of the thousands already wrought by Dr. Williams' Pink Pills. Headache and neuralgia, St. Vitus dance and twitching of the limbs, indigestion and rheumatism, eczema, and disfiguring eruptions, and the ailments of growing girls and women all disappear when the veins are filled with the new, rich, red blood Dr. Williams' Pink Pills actually make. Here is one instance among thousands: Mr. F. Ashford, Halleybury, Ont., says: "Some years ago I completed a lengthy term of service in India, the last three years being spent in the beautiful but treacherous Poshawar Valley. Ague and dengue fever were rife, and although I was fortunate enough to escape a severe attack of either, on my return home it soon became apparent that the enervating climatic conditions had left their ravages on my constitution. In short the reaction had set in, and inexorable nature was exacting a severe toll from years of strenuous labor. My first warning of the impending breakdown were severe pains in the back of the head, and eyes, insomnia, irritability, a general anemic condition and an indefinite nervousness. Life had lost its zest, work became impossible and companionship intolerable. It really seemed that I was passing to that stage where nervousness ends and insanity begins, when by chance I read an advertisement of Dr. Williams' Pink Pills. I confess I was skeptical of them doing what doctors had failed to do, but concluded that the cost was small, and perhaps the chance in their favor, and so decided to try them. To my joy there was soon an improvement, and a continuance of the treatment effected a complete cure. I was now as fit and as healthy as any man and am overgrateful that the lucky perusal of an advertisement brought to my notice the wonderful curative properties of Dr. Williams' Pink Pills."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

FIELD DAY OF LOCAL COLLEGIATE

The Athletic Association of the Collegiate Institute held its annual field day Friday afternoon at the Agricultural grounds. Every student was present to see the fun, as well as the teaching staff, and a number of citizens.

The events were run off very methodically and in fairly fast order, so that the program was completed before six o'clock. The Association was unfortunate in having threatening skies overhead, but happily no rain came to mar the sports until they were practically finished. More parents and Lindsay citizens generally should make it a point to attend these annual games not only to encourage the students by their interest in them, but on account of the good sport furnished and highly interesting events that are run off every year. The committee in charge of the events are to be congratulated on their success. Mr. A. G. Hooper, Mr. E. W. Jennings, Mr. G. A. Lucas, and Mr. L. Wheelton deserve particular credit for their untiring efforts to make the day a success.

They Don't Drip Oil

The neatest woman that ever lived would consider a Sharples Dairy Tubular Cream Separator an ornament in her kitchen. That's because Tubulars are neat—have no oil cups, oil holes or oil tubes to drip. You don't need an oil can for Tubulars.

Tubulars Are Neat
To oil the Dairy Tubular simply lift the gear case lid once a week and pour a spoonful of oil right down among the gears. The oil stays there. The lubrication is perfect and never forgotten. There is no dripping on the floor. Both men and women appreciate that—and the many other exclusive fine points about Tubulars—fine points other separators don't have. Tubulars double dairy profits and cut the work in half. Come in and see the Tubular—examine it inside and out—next time your in town. Welcome to look at every piece—and the pieces are few because the Tubular is mighty simple.

Old Separators taken in exchange. We sell the Sharples Mechanical Milker.

her team to meet combination work and the result was a victory. Though the score stood at 6-5 in favor of the L. C. I. and finally 13-12, which created intense excitement and the keenest good spirited rivalry, there were few fouls or infractions of rules.

Quite a few young ladies witnessed the game, a small entrance fee being charged to cover expenses. Afterwards the teams went to the fair grounds to see the field day programme of sport, the visitors being the guests of the L. C. I. girls until this morning's 9.15 train.

A few of those who made exceptional plays for Port Perry were Kathleen McCaw, Beatrice Vickery, Veronica Cassidy, and for L. C. I. Mary Anderson, Isabel Ryley, Margaret Murtha.

The line-up was—
Port Perry 12.
Kathleen McCaw, Clemie McTaggart—Forwards.
Beatrice Vickery, Eva Henry—Centres.
Veronica Cassidy, Pearl Ewen—Defence.

Gertrude Munroe, Lexi Munroe—Linesmen.

L.C.I. Girls Defeat Port Perry

Undaunted by defeat at the hands of the Port Perry High School Girls' Basketball team a couple of weeks ago at Port Perry, the girls of the L. C. I. won the return game after an exciting struggle by 13-12, in the local collegiate gymnasium. It was no easy victory, for the young ladies from the Lakeside town have combined play down to such perfection that once the ball was obtained a score was almost certain. This very advantage won the first game two weeks past, but Captain Bessie Hopkins had skillfully trained
