An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As soon as Zam-Buk tal. is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their Mothers should never forget

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Company and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day-over three years after his cure of a disease he had for twenty-five years-he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

### THE ROSS HOSPITAL

Once again the Board of Governors of the Ross Memorial Hospital has held its annual meeting, and once again the same remarkable story of success is told.

Truly Lindsay is more than blessed by having within its borders such a magnificent institution, and one that is bestowing so much good on the community at large.

### GOT WHAT THEY VOTED FOR

(Peterboro Examiner)

Now that the milkmen's combine has been formed and the price advanced to seven cents per quart the housekeeper sees the beanty of combines from a new view point. Last September there was a vote, and the people decided to retain the combines This was done by refusing competition in the articles of living and thus giving free play to the combines to take it out of the consumer and producer at the same time. Look again at the comparative prices, say, for live stock, and see how the producer voted last September to his own hurt. with sores that he had to sleep in | The past week's top prices for live stock are as follows

> Hogs-Off cars, Toronto, \$6.40; of cars. Montreal, \$6.30; off cars, Buffalo

Cattle-Toronto, \$6.40; Montreal, \$6.00; Buffalo, \$7.75.

Lambs-Toronto, \$5.70; Montreal, \$5.50; Buffalo, \$5.85.

Butter-Toronto, 26c; Montreal, 27 -2c; Buffalo, 33c.

Eggs-Toronto, 30c; Montreal, 28c; Buffalo, 50c.

Has anybody noticed a corresponding depression in prices of these art icles to the consumer? This is the reward the consumer, farmer and working man have got for voting to keep the home market intact. The "British Born" and the "Defenders of the Faith" got their reward for voting for the Empire and against 'French domination's in a similar left-handed way. Nobody seems to have got what he voted for. Electors were duped into voting for a dream ; they have got a very unpleasant reality in many respects.

### THE NEW LIBERAL LEADER

The Liberal party in this Province has been singularly fortunate in se-The tributes which were paid to the curing Mr. N. W. Rowell, K.C., as its leader. In fact, it is nothing short of providential at a period when the party has been called upan to accept the resignation of Hon. Mr. MacKay, that a gentleman, combining all the qualities that go to make a successful leader accepts such a responsible position.

The new leader is a man of probity, and honor. He possesses the splendid energy so essential in a position of this nature, is a splendid platform speaker, and has an honored record of twenty-five years in the service of his party. He is a gentleman possessing the high ideals, and is prominent on the questions of social and moral reform. In Mr. Rowell is exemfied the highest type of Canadian citizenship, and his active participation in Provincial politics should prove an inspiration to the Liberals of the country. Mr. Rowell's acceptance of the leadership of the Liberals marks an epoch in the history of the party, which will give a good account of itself in the forthcoming struggle. Mr. Rowell was brought up in the Lib eral faith. He is not without political experience, having contested, though unsuccessfully, the seat for East York in the Dominion House of Commons in 1900.

### AN AMERICAN SOVEREIGN

Andrew Carnegie, upon returning to New York from London, denied that he has become a British subject, tho' the denial was a peculiar one. The inscription was: 'He who cannot reason is a fool' he who will not is a bigot; and he who dares not is a slave." "

### THE LOS ANGELES TRIAL

It is estimated that one millions dollars has already been spent to convict the men accused of dynamiting at Los Angeles, that another million will be spent for6the same purpose, and that a million will be spent on the defence. The Toronto Globe says: the two million would almost inevitnocence or guilt."

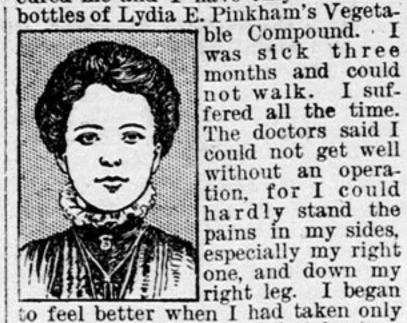

## A HOUSE DIVIDED

The Kingston Standard says: "Up in Port Hope they have ai fund \$22,000 to build a hospital, but because of internal dissension the hospital has been held up now for a full six months. Port Hope had better get together. No town or city will ever go ahead where the citizens are fighting among themselves."

## HORRORS OF WAR

It is generally recognized that in order to have a progressive government, a strong vigorous opposition is essential. If Ontario is to come into its own in the march of progress, it cannot afford to have an unprogressive government. In this connection, the Hamilton Herald, (Independent),
