Dr. J. W. White leaves to-night for Ottawa, where he will deliver before Col., the Hon. Sam Hughes, M.P., Minister of Militia and Defence, and the Militia Department, an address on "Military Training in Schools."

NEW STEAMSHIP FOR THE C. P. R.

Montreal, Que., Nov. 14.—The Canadian Pacific Railway's new steamship, the "Princess Alice," which is on the way from England to Vancouver, has reached Coronel, off the South American coast, according to word received at the local Canadian Pacific Railway headquarters yesterday. The new steamship has evidently weathered the trip around Cape Horn safely and will be moored against the docks at Vancouver soon.

NOTICE TO CREDITORS

Creditors and others having claims against the estate of W. S. Slingo, late of the Village of Kirkfield, in the County of Victoria, Carriage Maker, deceased, who died on or about the 5th day of September, A.D. 1911, are hereby notified, pursuant to Revised Statutes of Ontario, 1897, Chap. 129, to send in their claims duly verified, to the undersigned on or before SATURDAY, NOVEMBER 25th, 1911, after which date the administratrix will distribute the Estate having regard only to the claims of which she shall then have notice.

Dated at Woodville this 26th day of October, A.D. 1911

C. E. WEEKS Solicitor for Mrs. Alice Slingo Administratrix.

STANDARD CHEMICAL CO'S PLANT BURNED AT FENELON FALLS LAST EVENING

(From Wednesday's Post) Fenelon Falls, Nov. 14.—The Standard Chemical Company's mill on Cameron Lake Shore, at the foot of Francis street, was destroyed by fire to-night. The fire started about 5.30 p.m., and is supposed to have its origin in the still room. There was no wind blowing, otherwise there would have been danger to the dwellings nearby. About twenty hands will be thrown out of employment. The loss is believed to be covered by insurance.

JUGGLING ACCOUNTS

(Brantford Expositor) The rather startling announcement has been made by Hon. Mr. Matheson, financial chief of the Whitney Government, that he only hopes to balance the accounts for the past fiscal year. An even balance sheet for the past year, means, in brief, that the spending powers of the Whitney Government have more than kept pace with the revenues of the province, and the sums secured from the rapid depletion of timber wealth. In other words Sir James Whitney and his cohorts are drawing annually on Ontario's bank balance for current expenditures, much of which is occasioned by the demands of party patronage for increased salaries.

An even balance sheet by an extravagant government which for revenue purposes has squeezed the license holders of the province to the limit, robbed the dead, and has used the capital account of the province for current expenditure is not a creditable result of seven years' stewardship.

Hon. Mr. Matheson, financial chief of the Whitney government, who juggles the revenue from the capital into the current account, was once a bitter assailant of the very practice, which he now invokes to save his government from what would otherwise be a startling deficit.

Hon. Mr. Matheson once hated succession duties. To him they were obnoxious and meant legislation, which practically robbed the dead. This was in opposition. Now Hon. Mr. Matheson rejoices that such legislation, passed by the Liberals, gave this province over a million dollars in succession duties in 1910.

Revenue from the liquor traffic was likewise abhorrent to the financial critic of the former Whitney opposition. It was likewise wringing money from the impoverished poor, and the dissipation of the people. But the brute majority of the Whitney government has produced a change, and a pride that always goes before a fall.

It is only natural that Ontario electors should expect Hon. Mr. Matheson to put into practice what he preached while in opposition. The truth is, however, that the Whitney Government secured in 1910 a revenue of \$8,831,001, all of which, with the exception of the comparatively small amount of \$300,000 was derived from sources provided by former Liberal legislation.

The juggling of provincial finances only goes to show that the Whitney Government was elected under false pretences, and such being the case had to fall back on the very experience adopted by the Liberals for revenue purposes.

COMMUNICATION

THE CENTRAL PRISON.

To the Editor: Sir.—The Whitney manifesto says: "The erection of the new Central Prison has been commenced at Guelph." Just so; but why was it commenced just there, when that place already has a large Government institution—the Agricultural College? Usually these Government works have a large commercial value and have generally been placed in different parts of the country. Lots of other towns have not been so favored and some have quite as much right to Government institutions as any one town has to two. Lindsay would have been an ideal place for a Central Prison, and besides the County of Victoria sends two Government supporters, or has. It will be to the interests of the voters of these constituencies to consider the matter of locating the new Central Prison at Guelph. Then, too, there is North Ontario just on one side and Peterboro on the other, both of which would have been benefitted to a certain extent, had the Central Prison been located up this way. Lindsay, however, did get something. What was it, and how has it panned out?

Yours, etc., GRANDFATHER.

POLICE COURT

Last night an Italian was fined in the police court for being drunk and disorderly. His first name is George The Magistrate assessed him \$2.00 and costs for his little spree, which amounted in all to \$6.50. The arrest was made by Chief Chilton.

This morning two cases were tried. Fred Willis, Emily and James Barnes, of Mariposa, farm laborers, were charged with being drunk and incapable near a public place, to wit, Mr. A. B. Terry's barn. They were each fined \$2.00 and costs. James Barnes enriched the Town Treasury to the extent of \$6.65 while Fred Willis paid over \$6.50. The arrest of the last two men was made by Constable Short.

Where is the Coat?

This afternoon Chief of Police Chilton arrested James Murphy on a charge of stealing an overcoat from Harry Applebaum. The coat was not found in his possession, but was seen on him. A thorough search was made for the garment.

Ocean Liners Days Late.

Montreal, Nov. 15.—Of the five liners on the way to Montreal, one is as much as five days over due, but all are reported in the gulf, except the Pomeranian, which is two days late in reaching the gulf. No anxiety is felt however, as it is usual at this time of the year.

The vessels behind hand are: Corinthian three days late; Manchester Importer, three days; Cassandra, two days; Pomeranian, not reported; Montreal, five days late.

Cholera in Italy.

Chasso, Switzerland, Nov. 15.—The report of the Italian Government shows that there were 153 cases of cholera and 81 deaths in Italy from Oct. 29 to Nov. 11 inclusive. The towns of Naples, Genoa and Rome were immune. The Province of Naples reported one case and the Province of Genoa two cases but no deaths. There were three cases and no deaths in the town of Palermo and one case in the province.

No Feudalism Intended.

London, Nov. 15.—(C.A.P. Cable.)—The Duke of Sutherland emphasizes the fact that he has bought land in Canada not for forming a large estate, but he is anxious to have settlers, not tenants. His insistence on this point is perhaps forthcoming, because a prominent Liberal paper expressed fears that the duke's action if copied by others might lead to the establishment of a Canadian feudal system.

MERRY JINGLE OF SLEIGH BELLS

With last night's fall of "the beautiful" King Winter has once more been ushered in. This morning the merry jingle of sleigh bells could be heard on all the streets, putting gladness into the hearts of the people, calling to mind the delights of a Canadian winter. A frequent expression on the streets this morning was "Isn't it good to see the snow and hear the sleigh bells jingle once more." There promises to be a run on the livery stables for horses and cutters, said demand being created by the young people of the community. There are still a number of the four wheeled vehicles on the road, cut with the weather man's promise of more snow they will soon disappear, to return no more—not until next spring, when Nature will once more put on her green garb.
