PROMINENT BANKER RECEIVED SUMMONS

TORONTO, Nov. 18.—One of Canada's foremost bankers died yesterday in the person of Col. D. R. Wilkie. The news of the sudden death came as a great shock to his many friends and associates. Apoplexy was the cause. The statement given by the officials of the Imperial Bank, of which the late Mr. Wilkie was president, was: "Mr. Wilkie died at 11 o'clock at his house on Sherbourne street of apoplexy."

Two sons survive. They are both captains in the regular army—Arthur and Stewart.

The late colonel was born in Quebec on Dec. 17, 1846. He entered the service of the Quebec Bank in 1862, and was promoted to the position of accountant of the Montreal branch in 1867. The same year he went to St. Catharines as local manager. In 1872 he was promoted to Toronto as manager, and held this position until he was appointed cashier of the newly-organized Imperial Bank. At the time of his death Col. Wilkie was president of the Imperial Bank. Col. Wilkie was also active in artistic and literary movements.

KITCHENER AND THE REBEL MARITZ

Lord Kitchener must have smiled grimly when he heard of the treachery of Lieutenant-Colonel Maritz.

Maritz has always been on the border-line of treason, and he has had good cause to remember "K." When Cronje surrendered and there was a lull in affairs, Kitchener had time to devote his attention to growing rebellion which had broken out in the very district in which Maritz was commanding when he broke faith with the King. Kitchener had an ungentle method of dealing with treason, and Maritz hastily decamped before the vengeful columns that came sweeping up to Priesk. After the war was over every effort was made to conciliate the Dutch in that district, and Maritz, one of the last men to take the oath of allegiance, was given control of the military forces in that part of the world. The failure of the kid-glove method with such men as Maritz is apparent.

MILITARY ORDERS PLACED AT HOME

LONDON, Nov. 18.—The War Office yesterday assured the High Commissioner's secretary that no orders for boots or shoes had been given outside the United Kingdom, which disposes of the assertion in Canada that such order had been extensively placed in the United States.

The War Office further said they were anxious to place such orders in Canada, whenever the opportunity offered. Ten thousand saddles were yesterday ordered by the Government through the High Commissioner. Orders also for clothing will probably follow.

The War Office has arranged for frequent interviews with Secretary Griffiths in relation to placing commissions for goods in Canada.

WHAT WAS LACKING

James started his third helping of pudding with delight.

"Once upon a time, James," admonished his mother, "there was a little boy who ate too much pudding, and he burst."

James considered, "There ain't such a thing as too much pudding," he decided.

"There must be," continued the mother, "else why did the little boy burst?"

James passed his plate for the fourth time, saying, "Not enough boy."

Are you the same man who ate my mince pie last week? No, mum, I'll never be th' same man again!

WINNIPEG GRAIN MARKET

WINNIPEG, Nov. 17.—Trading was quiet on the wheat market and prices opened higher generally, influenced by firmer Liverpool cables than expected, in face of the weaker markets on this side yesterday. Following the opening there was a decline, caused by a general bearish sentiment, the opinion spreading that the war will not be so prolonged as recently predicted, and considerable profit taking took place. A strong turn took place on the market before closing. New Zealand and Australia were said to be in the southern markets, and in addition the market was oversold during the early hours, which was responsible for the rally. Wheat closed 1/4c to 1/2c higher, oats 1/4c to 1/2c lower. Flax closed 1/4c to 1/2c higher after a very weak market.

The cash demand was much quieter today. No. 3 northern and lower grades were wanted, but there were few enquiries for No. 1 and 2. Oats, barley and flax were also quiet and dull, flax prices being about 3 cents lower from high points of the day. In the early part of the day some new export sales were made. Later, however, bids were out of sight.

Inspections Monday totaled 551 cars as against 1622 last year and in sight were 460 cars.

MONTREAL GRAIN MARKET

MONTREAL, Nov. 17.—There was a decided improvement in the demand for foreign buyers for Manitoba spring wheat today, but the prices bid for all grades were very irregular, some of them being 9c per quarter lower than others, which would indicate that the feeling in the English markets is unsettled; however, there were no more than 53 per cent. higher than yesterday and sales of 200,000 bushels were made.

There was also some demand from exporters for wheat at bay ports and sales of 7000 bushels. No. 1 northern were made at \$1.22 1/2 and 40,000 No. 3 northern at \$1.19 1/2 per bushel c.i.f. Local demand for coarse grain was quiet at unchanged prices. Flour quiet, but demand for mill-feed is good and the market is active.

Butter is quiet and cheese is firm, with a moderate amount of business doing. Eggs continue active and firm.

MINNEAPOLIS GRAIN MARKET
