**THE POST CORRESPONDENTS' LETTERS**

**OMEMEE.**  
(From Our Own Correspondent.)  
The sleighing is giving our out-of-town a lively appearance once more. Hay, straw and wood are coming in lively. Many drove to Lindsay markets on Saturday and consider everything as good as on markets in larger towns.

The funeral of Herb. Latchford's child took place this week.

Mrs. Wm. Latchford received sad news this week, her mother, Mrs. P. J., having died very suddenly, at Millbrook.

Mrs. Thos. Stephenson and Dr. Cornwall's conditions are unchanged. Both are confined to their rooms.

Our merchants have an excellent display of Christmas goods at night prices.

Rev. Father McGuire pays our village weekly visits to get the warm southern air. To become a great commercial centre, the rev. father says Omemee must move back north and unite with Downeyville.

Rev. Peckover will occupy his own pulpit on Sunday next at 2.30 p.m. A male quartette will sing, under the direction of Rev. P. B. Thomson, late leader of the Toronto University Glee Club.

Conservative committee meetings are announced throughout the riding here by Wm. Cottingham, chairman, and Sam's very uphill job to get something to find fault about, lest the farmers here give up a certainty of the good times for an uncertainty. Crowded out last week.

**FARM NOTES**

**WASTE OF LABOR.**  
The small profit in farming all over the country, and the average is small, is not due so much to lack of work, as it is to misdirected work. That field that yields but a few bushels per acre through lack of fertility or want of drainage, the cow that makes less than 200 pounds of butter in a year, the pig that is kept shut up in a pen and fed till the feed amounts to more than it is worth, these are what make so much farming unprofitable.

It costs as much to grow a field that yields only 10 bushels to the acre as it does to grow one that yields fifty. The cow that gives only 3000 pounds of milk in a year takes up as much barn room, as much pasture and practically as much feed and care as a cow that gives 6000. The pig that has been kept a year and a half or two years, sells for but little more than the one that is kept on 8 months and forced along.

It is a fact that doing things results in little profit, although the farmer keeps at it from sun to sun. Eight hours a day, of intelligent, systematic work, with fields and plants and animals of high quality will result in greater production and greater profit than 16 hours a day of average farming. The proof of this may be seen the country over. Who are the most successful farmers? Is it on the mortgaged, run-out farms where the man works from sun to sun and the woman's work is never done?

Let us farmers seek to farm right, do our long hours of labor availing little.—Maritime Farmer.

The members and adherents of St. Andrew's church met on Wednesday evening, Nov. 20th, in the basement of the church, in response to an invitation tendered by the W. F. M. S. The meeting was of a social nature, the occasion of a reception tendered to Mrs. Loid. It was also the annual thank-offering of the society. A missionary programme was rendered, in which a number of members, including the choir, took part. After refreshments were served the remainder of the evening was spent in pleasant social intercourse.

The Harmony Club entertained their friends at an assembly in Dickson's hall on the evening of Friday, Nov. 29th. This was the second affair of the kind given by this Club, and proved to be fully as enjoyable as the first, given about two weeks ago.

The Scotch evening given under the auspices of the Literary Society of St. James church, on Monday evening, Dec. 2nd, was a pronounced success. It was held at the residence of Mr. Geo. McGeer on Elder's hill. The programme rendered was, it is needless to say, mainly Scotch, and all taking part therein acquitted themselves very creditably. Most of those taking part were the real thing, while the others were a very fair imitation. The programme consisted of vocal solos, and a duet, violin and piano, also several readings and recitations, which were much enjoyed by those present. After the close of the program, the large number present joined heartily in singing "Auld Lang Syne". The refreshments were of a nature to correspond with the decorations, which consisted of Scotch flags and artistically draped tables. A hearty vote of thanks was tendered Mr. and Mrs. McGeer by the Society for their kindness and hospitality.

Mrs. Can. of Haliburton, spent from Friday to Monday with her friend, Mrs. J. L. Arnold.

Mr. Geo. McGeer came home about two weeks ago from Collins' farm.

Messrs. Geo. and Paul Calder are home from Cornwall.

Mr. Jos. Welsh has left town to take up his abode in Bethany, where he intends to start in business.

Crowded out last week.

**Big Newspaper Bargains**

The Weekly Gobe from the present date to Dec. 31st, '08 (about 11 months) and The Weekly Post for 1908 for \$1.25 to those PAYING IN ADVANCE. SEND NOW and get the biggest newspaper bargain ever offered by The Post.

**This Offer is Good to Old and New Subscribers**

Mary had a little lamb  
Its wool was soft and white,  
It made a blanket for her bed  
To keep her warm at night.

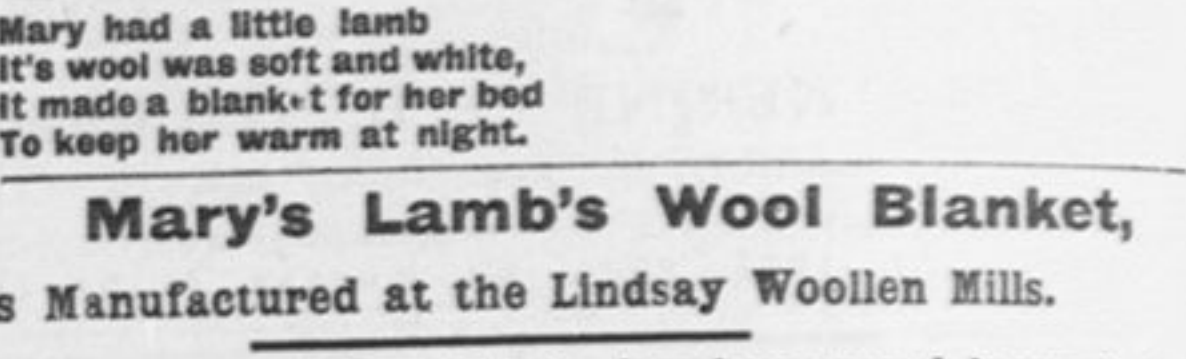

**Mary's Lamb's Wool Blanket,**  
Was Manufactured at the Lindsay Woolen Mills.

For over half a century members of this firm have been engaged in manufacturing Woollens. Experimenting, studying, learning more about making blankets all the time. So our blankets are constructed to stand the test and are absolutely unshrinkable. Our blankets are the warmest for the least weight, because we use only the soft silky lamb's fleeces. Our blankets have the wearing qualities because the wool is skillfully carded, finely spun and closely woven. They are finished with a soft nap which does not come off. Do not buy blankets with a lumpy nap if you want it to wear or wash well.

Ask your merchant for our goods. If not in stock send direct to our mills and get the home-made quality.

Prices from \$2.50 to \$5.50 per pair.

**THE HORN BROS. WOOLLEN CO., LIMITED.**

**The North-West Crop Reports.**

Will Bring Large Returns—Some Convincing Returns.

The following letter was received by Mr. Henry Rustad, president of the Canadian Swenson's Limited, of this town, from the North-West Farmer of Winnipeg, relative to the crop returns of the west. The writer is in a position to be better acquainted with the general conditions of the west than almost any person judging from the letter and other information that has reached us, the people will actually realize larger returns from this season's crop than other years when they have had excessive yields. The letter states:

Winnipeg, Man., Dec. 3, 1907.  
Henry Rustad, esq., Canadian Swenson's Ltd., Lindsay, Ont.

Dear Sir,—Knowing you to be vitally interested in business conditions in Western Canada, we take pleasure in sending you the latest authentic information.

The North-West Grain Dealers' Association estimates the crop yield of Manitoba, Saskatchewan and Alberta as follows: Wheat, 5,913,544 acres, at 12.9 bushels per acre, 64,675,000 bushels; oats, 2,373,030 acres, at 34.2 bushels per acre, 81,395,000 bushels; barley, 603,833 acres, at 25.3 bushels per acre, 16,795,000 bushels; flax, 105,650 acres, at 10.2 bushels per acre, 1,071,500 bushels. Fifty-two percent of the wheat crop will grade 3 northern and better.

On Nov. 27th the total number of cars inspected to date at Winnipeg was as follows: Wheat, 20,449; oats, 2,259; barley, 1,224; flax, 593; rye, 2; speltz, 1. Nov. 30, 1906, the total number of cars inspected was as follows: Wheat, 26,443; oats, 2,162; barley, 873; flax, 360; rye, 7; speltz, 1.

Since the movement started, it has broken all records, as many as 630 cars having been inspected in Winnipeg in one day. Ample supplies of coal having been laid in, the railways will concentrate their whole attention to the moving of the crop.

At this time in 1906, wheat prices approximated thus: 1 northern, 78 cents; 2 northern, 71 1/2 cents; 3 northern, 69 cents; No. 4, 66 cents. At present cash wheat approximates thus: 1 northern 104 3/8 cents; 2 northern, 91 3/8 cents; 3 northern, 94 7/8 cents; No. 4, 85 cents; No. 5, 72 cents; No. 6, 66 cents; No. 1 feed, 58 cents; No. 2 feed, 45 cents.

On Nov. 12th the Dominion Government arranged to loan money to the banks for the moving of the Western crop, and reliable grain-handling firms can readily obtain the necessary cash to handle shipments.

Trusting that this information will be useful to you, we are, yours truly,  
THE NORTH-WEST FARMER, LTD.

**ONTARIO BLENDED FLOUR ASSOCIATION**

OFFICIAL PERFECT BLEND LABEL

**FLOUR**

ASSOCIATION

This brand—on a bag or barrel—is the mark of a BLENDED FLOUR of Ontario Fall Wheat and Manitoba Spring Wheat, milled by the best millers in Ontario.

**NORLAND**

(From Our Own Correspondent.)  
The new steel and concrete bridge and inland roadway across the Gull river here, is nearly finished, and gives promise of being a substantial and somewhat picturesque engineering work. The rock island in the river, which is about 200 feet long and 24 feet wide, has been turned into a roadway, bordered along the eastern side with second growth pines, oaks, birch and maple and along the western side with a neatly built stone parapet. The main channel, which runs in a sharp curve round the northern end of the island is spanned by an 80 foot steel bridge on concrete piers, which connects it with the Somerville shore, where a large cut, 7 feet deep and 50 feet wide through a hill conducts the road track out to the Monk road. At the southern end of the island a 30 foot span across a side channel connects with the Linton shore, the piers of which, as well as the northern one being on solid rock foundation, and on this shore the chief engineering difficulty presents itself in the form of a huge and beautiful oak about 100 feet up the bank and in line with the bridge centre. The fate of the tree is being watched with keen interest by the junior members of the community, who cherish recollections of happy hours spent in its cool and quiet shade, and are naturally alarmed at its rumored destruction. Mr. Smith O. L. S., our popular county engineer, who evidently has an eye for the picturesque, is rather between two fires in the matter as our seniors and some members of the County Council who see more of the beautiful in a hill of potatoes than in the choicest house plant, are urging him to root it out. What the result will be is doubtful.

Miss Kate MacIntyre, of Highland Grove, is spending a few days under this parental roof.

Miss Maria Martin, of Moore's Falls, is visiting friends here.

Mr. Angus MacIntyre is visiting at the home of his father, Mr. Duncan MacIntyre. We learn that Angus has taken unto himself a wife, and we wish him much joy.

The grim angel of Death has once more visited our community, taking this time for his victim one of our oldest neighbors, in the person of Mr. Isaac Sprung. Mr. Sprung was one of the early settlers of this place. He was a member of the Methodist church for years. He leaves a wife and one daughter and a grandson to mourn his loss. Mr. Sprung was in the 76th year of his life. His remains were taken to Pine Grove cemetery for interment.

Crowded out last week.

**The Weekly Globe from the present date to Dec. 31st 1908, (about 15 months) and The Weekly Post for 1908 for \$1.25 to those paying in advance. SEND NOW and get the biggest newspaper bargain ever offered by The Post.**

**REPORT ON FARMS OF ONTARIO.**

Increase of Prices Make up for Smaller Yield.

The Ontario Agricultural Department has issued the full report. Fall wheat is a little below 1906, but up to the average. Spring wheat is an average. Barley was plump in grain, and better in strand than that of any other cereal. The oat crop has increased, but the yield is 25,000,000 under that of 1906. This year has been the smallest yield since 1896, excepting that of 1901.

Little rye is now raised, but both the yield and the quality have been good. This year's crop of peas has been the best in years, with an almost complete absence of the weevil. The acreage of new fall wheat will be increased in the Lake Erie and Georgian Bay countries.

The potato crop has been good. Potatoes are smaller than usual, owing to the drought, but comparatively free from rot.

Straw trees are in good condition, except where attacked by the San Jose scale, oyster shell bark, locust, tent caterpillar and other insects. The apple yield has been below the average, but large shipments have been made. The size is rather small.

Live stock will be thin for winter, owing to poor pasture, but remarkably free from disease. Horses are in good form, but are selling at reduced prices. Owing to the high cost of hay, grain, and mill feed, farmers are not fattening the usual number of cattle and hogs.

Falling pastures caused a decrease in the milk flow, but increased prices for dairy products have balanced matters. Butter prices have been from 3 to 7 cents higher than last year. Eggs have paid the farmer better than for some time.

**FENELON FALLS.**

(From Our Own Correspondent.)  
The newly organized Literary Society of St. James' church held their first meeting at the residence of Mrs. John Austin on Monday evening, Nov. 25th. The officers of the Society are as follows: President, Mrs. W. H. A. French; vice-pres., Mrs. W. A. Bishop; 2nd vice-pres., Mr. E. G. Hand; secretary, Miss Nie; treasurer, Miss Pearl Austin. The membership is steadily increasing, and the Society bids fair to become a popular and profitable institution. After business was disposed of, a program was rendered, which consisted of songs by Misses R. Austin, readings by Miss Alice Hand and Mr. Wiggins all of which were much appreciated. After refreshments were served a pleasant time was spent in conversation and games, etc. A hearty vote of thanks was tendered Mrs. Austin for her hospitality. The next closed meeting of the Society is to be held at the residence of Mrs. W. A. Bishop on Monday evening, Dec. 16th, when all who are desirous of joining the Society, of whatever denomination, will be made welcome.

**Trans-Pacific Yacht Race.**

A trans-Pacific yacht race for a trophy offered by the Hawaii Yacht Club is to be sailed next April, starting from San Pedro Harbor, a few miles from Los Angeles, Cal., and finishing in Honolulu harbor, 2,200 miles away. Clarence V. MacFarlane, a member of the Hawaii Yacht Club, is now preparing the race, and says already he has promises of half a dozen entries from as many yacht clubs along the Pacific coast from San Diego to Victoria, B.C.
