

## Correspondents' Newsy Letters

### BOBOAYGEON (Special to The Post)

Mrs. A. O'Loughlin, of Lindsay, was the guest of Mrs. Stewart last Sunday.

Mr. C. S. Logie, who was manager of the Trent Valley Navigation Company for some years, left on Monday morning for Brandon, Man.

Mrs. Gourlain, of Lindsay, was in town on Monday.

Miss Cora Thompson, got home from Toronto on Tuesday night after spending a few days with her sister, Mrs. W. Rowley.

Mr. G. D. Watt, who was first manager of the Bank of British North America here, and who has been manager of the King and Dufferin streets branch of that bank in Toronto for about two years, has been transferred to Brandon, Manitoba. The Brandon branch is an important one, and Mr. Watt's many friends will be glad to hear of his promotion.

Mr. C. Harris, who acted as relieving manager in the local bank on several occasions, has been appointed manager of the Campbellford branch.

Miss Annie and Myrtle Hurst got home from Buffalo last Saturday night. Miss Myrtle recently underwent an operation for appendicitis, and is home to recuperate.

Miss Ruby Davidson left for Pittsburgh on Wednesday morning to enter upon a course of training for the nursing profession. Bobaygeon has certainly contributed its quota of young ladies to the nursing staff of the country, and if nurses in general come up to the standard of his village representatives suffering bu-

manly should be well looked after, and the sisterhood must embrace a very superior sample of the feminine sex.

Mr. Chas. Read, of the Peterboro Times staff, is spending a few days with friends here. Mr. Read recently took a course with the linotype school, in Toronto.

Mr. Wm. Cresswell, wood superintendent for the Cavendish Lumber Company, and Mr. Percival Cresswell, his son, who is taking out hemlock for the Peterboro Lumber Company, were in town last Saturday.

Mr. and Mrs. H. J. Wickham of Toronto, are the guests of Mr. W. T. C. Boyd.

Mr. D. D. Cain is building a bake-shop at the rear of his block. The bakery is for the use of Mr. E. J. Broad, who is to occupy the Cain store next spring.

Mr. John Devitt is making preparation to commence building a dwelling house on Bolton street opposite Mr. F. W. Read's premises.

On Monday the Mossos Boyd Company shipped to Windsor, Ont., three carloads of registered Hereford cattle, which are to be sold there by auction on the 30th. Seventy-one animals were included in the shipment, which comprised besides Horned Herefords, about forty head of Double Standard Polled Herefords. This last named variety is a new kind of cattle. They are pure bred Herefords produced by the use of bulls which although from pure bred horned ancestry on both sides were born polled by sport of nature. These polled sports when mated with horned cows get about half their progeny polled. Mossos Boyd Company have been breeding registered Polled Herefords for four or five years, and are the largest breeders of this variety in the world.

The cattle were a very fine looking lot in prime condition. The bulls, all of which belonged to the polled variety, were long deep bodied, short legged animals. The bunch of horned cows with their bushy polled calves, made a pretty sight.

Before the train pulled out some of the bulls got loose and enlivened proceedings by a free fight. The cattle-men, however, soon quelled the disturbance.

These cattle were brought from the company's Saskatchewan ranch in September, and have since been at the Big Island farm here getting into sale condition and having the finishing touches added to the process of fitting. The sale on the 30th will be the Mossos Boyd Company's second annual sale at Windsor.

The C. G. Edgar Meat Company are busy these days turning out appetizing sausages and minced meat. They recently installed a green bone cutter and have now bone meal for sale.

Two funerals took place on Thursday. That of Mrs. Rossa Brown in the forenoon and the late Mr. Alex Logan's in the afternoon.

Great progress has been made at the building of "Hillcroft," Mr. W. T. Comber's new boys' school. A gang of twenty carpenters and bricklayers have been engaged at the work and the walls are now ready for the roof plates. The school will be quite a large structure and is being built of red and white brick, which presents a pleasing appearance. It is a two story building with a deep basement. The main entrance is on the west side. Mr. Chas. Parker did the brick work, and Mr. Peter Grant is in charge of the carpenters. "Hillcroft" is on the north side of the Fenelon Road just within the village boundary.

Boating is one of the chief pleasures during the summer season and the man who has a boat is never at a loss for recreation or exercise. Some prefer a launch to any other style of small craft, others think a skiff is the most satisfactory sort of boat.

while another class lean to the canoe. A number of our more industrious young men are devoting their evenings to the building of boats with a view to reaping a reward for their labors next summer. Dr. Fallis and Mr. Lowther Atchill have gasoline launches in the course of construction. Mr. Ormsby Boyd is busy at a sailing dinghy and Mr. Fred Walker is going in for a skiff. Mr. Atchill made his first effort as a boat builder last winter, and produced a launch that is a great credit to his workmanship.

One good result of the dry summer and fall was the making of much work for the well drillers. They have been very busy during the past few months. Many wells in the neighborhood went dry or nearly so and advantage has been taken of the low level of the water to have them deepened by blasting or drilling.

On Wednesday evening Mr. and Mrs. Joseph Robinson entertained a number of young people at a coudre party and a very pleasant time was spent.

Some repairs have been made to the rink roof, and caretaker Read has levelled the sand and got things in readiness for flooding.

Rev. Dr. Symonds, of Christ church cathedral, Montreal, is to give a lecture in the parish hall here on December 8th. One of Dickens' characters is to be the subject, and we look forward with pleasure to the lecture.

In a small place few things stir people as the sound of the fire alarm does. It gets immediate attention. A few minutes after an alarm is rung in the streets are as populous as on a fine Saturday evening in the Summer time, when our country friends come to town in great numbers. When the fire bell peals forth its warning, the first act of a great majority of folks is to ascertain that their homes are not in danger. Then there is hurrying to the fire hall and scene of conflagration. We have had several alarms lately, but fortunately little need for the services of the brigade. A week or two ago a burning chimney prompted someone to ring the bell and the brigade turned out only to find when half way to the house that they were not needed. Yesterday a small blaze was noticed around the chimney of Mr. Wood's blacksmith shop, and the brigade had another practice in getting the apparatus out and storing it away again.

Mr. Jackson Read has added to the collection of mounted birds and deer heads in his barber shop and has now quite a fine group. In the bird department there are representatives of the crane, duck, and bittern families, also plovers and sand pipers. On the walls are the heads of three red deer and a bull moose. The latter was mounted by Mr. Chas. Gordon, the local taxidermist.

From Another Correspondent: On Tuesday, the 24th inst., both Mr. Alexander Logan and Mrs. Wm. Brown of this place, departed this life. Both had been ailing for some time, and so their deaths were expected. Mrs. Brown had reached the ripe age of eighty, but Mr. Logan was in the prime of life. Both funerals took place on Thursday, and were largely attended by friends and relatives, who followed the remains to the cemetery here. The surviving members of the families have the sympathy of the village and district in their bereavement.

When the news came over the telephone that Mr. Percy Capetick was dead, caused by slipping under the wheels of a Grand Trunk locomotive, in Lindsay, the people of the village were shocked, for everyone knew Percy. The remains arrived here on the noon train on Friday, and the funeral took place on Saturday, the 28th ult., and was attended by a large number of friends and relatives. The sorrowing members of the family have the heartfelt sympathy of the entire community in the loss of a bright young fellow of nineteen years.

M. M. Boyd & Co. shipped three car loads of their thoroughbred Herefords and Polled Herefords, last week to Windsor, where a sale of them was to be held on Monday, the 30th inst. They were a fine lot of animals, and would no doubt bring high prices, when sold to breeders.

The ladies' aid of the Presbyterian church here, held a social in the school room of their church last Wednesday evening, the 25th ult., commencing at 7.30 p.m. The programme, which consisted of music, readings, recitations, solos and addresses, was efficiently executed, after which refreshments were served. The school room was filled and a most pleasant time was spent for a couple of hours. The ladies are to be congratulated on its success. The net proceeds amounted to about \$17.

The members of the young people's guild of Christ's church here, held a basket social last Thursday evening, the 26th. It was well attended, and the young people had a pleasant evening.

The electric plant is being installed on its new site at "Little Bob." If the water wheels were here, the work would be completed in a few days, and our village would be lit again by our arc lamps and incandescent lights. The sooner they shine the better.

# SUGGESTIONS!

This week we are giving suggestions of most useful gifts. **GIFTS! GIFTS! GIFTS!**

SEE WINDOW DISPLAY

# WAKELY'S

NOVEMBER BLEAK WINDS SUGGEST A CHANGE OF CLOTHING, DO THEY NOT?

We want you to come to our store for your heavy clothing and winter underwear. We are handling some fine brands of all wool, natural wool, mixtures, and fleeced lined wears. See our heavy vest, special value at 25c; also the nicest line of Men's socks, and Women's hose as well. Best value in the market.

We wish to give you a timely word about Furs.

It's no use of being in doubt about it. We carry the best shown in the Lindsay markets. Some are born better judges than others of fur goods, and the verdict has gone out in our favor. Let us fill your order and you'll have great satisfaction.

While speaking of Winter's approach think of your blankets -- ours are a thing to dream under.
