What became of that proposal to have the Emperor Francis Joseph quit ruling on December 1? Did the jubilee celebration cause him to change his mind?

The Spanish vice-admiral, Cervera, has just retired, it is said. Most people were of opinion that he retired some ten years ago in that little affair near Cuba.

The returns show that two millions of workmen were injured in the United States last year. This is an awful toll to pay for the greed of dollar-chasing companies.

The old age pension plan has revealed the presence in Ireland of forty thousand persons whose existence was hitherto unsuspected. It looks like another case of money talking.

So Mr. Lloyd George will not talk to any more meetings where there

are women, eh? Now just watch the suffragettes appropriate the male attire and put a new brand of rough house on the market.

Those ex-rebels and present patriots, who have started up a republic in a corner of Persia, had better have a good time while it lasts, for their heads will presently be used for ornaments over the gates of Tabriz, not a doubt of that.

#### Clever Capture of Horse Thief

County Constable Stiver Trained Man a Hundred Miles and Arrested Him

The following refers to an individual for whom the local police were keeping a sharp lookout:—

County Constable William Stiver is preparing the way for a provincial reputation. To trace a stolen horse for over a hundred miles, is sleuthing, and Constable Stiver has gone that far.

On December the 4th, Mr. J. B. L. Stiver had a valuable horse stolen. The theft was committed at night, and no trace in the morning could be found of either the animal or the thief. A description of the horse was circulated through the country, and a short time ago word was received that a man had taken a horse answering to the description through Pontypool.

Constable Stiver started on the job and taking up the trail at that village, followed clues which he unearthed to Port Hope. From there the trail led him to Balmoral, and then on to Hastings, in Northumberland county, where he corralled the

alleged thief and booty.

The man's name is George Brown, and in him the police believe they have one of the most dangerous horse thieves in the Province. For some time past there have been a great many thefts reported, and all through the country constant watch has been kept for the offender. In the capture of Brown, Chief Ramsden states that it is his belief that Stiver has got the man who has been causing most of the mischief. Brown has no definite place of abode, but swags at several small towns or villages throughout the country.

#### The Lindsay Presbytery

The next meeting of the Lindsay presbytery will be held in St. Andrew's church, Lindsay, on the first Tuesday in March. This was decided at the close of the session, which was held on Tuesday in St. Andrew's school room.

During the afternoon the routine business of the presbytery was taken up and attended to. There was a fairly good attendance of the ministers and elders, and much interest was taken in the proceedings.

Several funnels made of stiff paper and kept on hand in the kitchen will be found of great convenience. They are unequalled for use when emptying cereals, coffee, or other dry articles into glass jars or into the cans in which they are kept.
