During the earlier part of the day, the Imperialists attempted a sortie against the attacking forces, with a view to recapturing their position and guns, but were driven back inside the walls with considerable losses. The Tiger Hill batteries, meanwhile, were | found killed and a large number pounding shells into Lyou Hill. They succeeded in silencing the batteries there, which it is suspected were of

little value. The object of the seizure of Tiger Hill was shown by the early appearance of four cruisers, and later in the day of other warships. In the evening a dozen torpedo boat destroyers and cruisers were laying menacingly near the city. These are all well armed and well supplied with ammunition. Doubtless they will quickly reduce the garrisons and drive the desenders te

The Viceroy of Nanking and Tartar general, in fear of Gen. Chang, the Imperialist commander, have taken refuge in the Japanese consulate, in which only the consul remains. He is the sole official representative of foreign interest now in Nanking. The consulate is well guarded by marines. Sunday's attack can only be considered a slight foretaste of bigger things to follow, because the main body of the revolutionaries is steadily investing every side and bringing the big guns into position on every eminence. The plans of the attacking force are not revealed. The revolutionaries may not attempt to rush the city, but may prefer to bombard steadily and await its surrender. But if breaches are made in the walls of the city and the rebels enter, it is believed that Gen. Chang and the loyal troops will make a desperate

#### Radial Cars Stop.

Welland, Nov. 28.-There are no new developments in dispute between Thorold and the Niagara, St. Catharines and Toronto Electric Railway. The electric franchise expired yesterday, and the company, not wishing to accede to the demands of the municipality of Thorold for \$1,000 yearly rental, and a five cent fare between Thorold and St. Catharines, have ceased running their cars over the line. The rails are still down, and it is expected that a settlement between the municipality and the electric road will be reached shortly.

Thorold citizens are still able to visit St. Catharines on the main line on the electric cars, which operates on a private right of way.

Burnkill of St. John, N.B. The positions are filled by the Imperial Government on the recommendation of the Canadian Government and approval of the removal of the former members along with the commissioners for the new ones was received on Saturday.

Mr. Magrath's appointment is regarded as a fitting one, as there is probably no man in Canada who has made such a close study of the international waterways question. #### Cattle Prices Are Low.

Winnipeg, Nov. 29.—Ranchers throughout the prairie province are complaining bitterly over the price of domestic and export stock. Choice steers in Winnipeg are selling at \$4.50 to \$4.75 per cwt., and good steers \$3.75 to 4.25. Large herds will be carried through the winter, which were ready for market, at a heavy loss. CONNAUGHT IN TORONTO.

Ontario's Capital Gives Governor-General a Great Welcome.

Toronto, Nov. 28 .- Between banks of flag-waving, cheering humanity, His Royal Highness the Duke and Her Royal Highness the Duchess of Connaught triumphantly entered and peacefully captured this city yesterday. The special train containing the Governor-General's cars, the Cornwall and York. came to a standstill at the station at three minutes to three, and by four the whole ceremony of welcome

Rarely if ever has such a welcome been given by Toronto in the piping times of peace. It was indeed one of the biggest and probably the biggest seception ever tendered by Toronto when war-time excitement was not in

evidence. The outstanding feature of the welcome was the vast number of children, the coming citizens, who lined the street. It is estimated that 35,000 children were in the crowd. It was the children who provided most of the enthusiasm. They cheered themselves hoarse while the elder and at Lodi, N.J., a small town near | watched the proceedings deferentially, largely confining their demonstrations to lifting their hats when the duke passed.

Had it not been for a clerically-attired gentleman standing beside the platform, who caught him, he would probably have fallen on his back. As it was, he landed on the lower level on his feet.

> On reaching the City Hall all got out, walked up the steps, where Mayor Geary read the address of welcome, and the duke replied. Then the duke and duchess rode to Government House. A guard of honor of 150 men from the Grenadiers was lined un in front of the City Hell.
