CHRISTMAS APPEAL

FOR The Hospital for Sick Children

Dear Mr. Editor— Thanks for your kindness in allowing me the privilege of appealing at this Christmas time on behalf of the Hospital for Sick Children, Toronto.

I make this direct appeal to the people of Ontario, for the fathers and mothers of Ontario, outside the City of Toronto, have precisely the same claim for their sick children as regards the privileges of the Hospital, as parents who reside in this city.

In brief the sick children from any place in Ontario whose parents cannot afford to pay, is, on certificate from a municipal officer of any city, town, village or township, treated free.

This is a privilege not granted by any Hospital in the Dominion, or on this Continent.

Let me, in a few words, state that in the last 20 years, since 1891, there have been 4,731 patients from 450 places outside of this city treated free, as the parents were unable to pay for treatment. Last year 384 patients from 234 places outside Toronto were so treated.

The Hospital is not a city but a Provincial institution. The Corporation of Toronto grants \$18,000, not only for city children, but towards the maintenance of every patient in the Hospital, and the citizens of Toronto donate an average of \$10,000 to the maintenance fund of the Hospital.

It would take more space than you can spare to tell of the good work done for the sick and deformed children of this Province.

Why, in the Orthopedic department in 20 years, nearly 700 children, boys and girls, have been treated for club feet, and about 600 were corrected. Two-thirds of these came from places outside of Toronto, from parents who could not afford to pay.

Surely we have a fair claim for help from the people of this Province.

Every day is Christmas to the child whose little life is saved, or whose crippled limb is straightened with the might of money—your money—and the mercy of the Hospital.

Will you, the reader of this letter, think of what your dollar will do? It helps to restore health and strength, and gives sound limbs and straight feet to crippled boys and girls.

You give wealth to the Hospital, and the Hospital gives health to the children.

Yes, your money can put golden hinges on the door of the Hospital's mercy.

Will you, kind reader, help us and send a dollar to Douglas Davidson, the secretary-treasurer of the Hospital, or

J ROSS ROBERTSON, Chairman of the Trustees, Toronto.

OUR LETTER BOX

RE SOCIALISM

To the Editor:

Dear Sir—If you will permit me, I would like to thank Mr. Johnson for the explanation he made in last night's issue. I do not wish your correspondent to think I am attacking Socialism as a whole (that's too large an undertaking or me) but when a man posing, as Mr. Baritz did, as the only organizer of the Socialist party in Ontario, makes such statements in a public paper, it is time, I say, that some one, in the interests of "Churchianity," if I may be permitted to borrow a phrase from your correspondent—and, by the way, Socialists are adepts at coining new phraseology—it is time for some one to combat such wild propoganda. I am glad that Mr. Baritz is not included in the ranks of the Socialist party. I must say, however, that although I have made enquiries regarding that letter in the *Wardner*, Mr. Johnson is the first one to repudiate him, and his wild, erratic statements. I would point out also to Mr. Johnson that as he and several others have repeatedly stated that Socialism has nothing to do with religion, it would perhaps be better if Socialists, in their literature, which I have slight acquaintance with, would show a little more tolerance to something which they in turn seem to know very little about. Fight Capitalism and Bossism: if you like, but if you wish to gain the sympathy of the working class, whose cause you are so anxious to promote, I think it would be better for the cause if they eliminated the abuse from their literature. Finally, my dear friend, lest you should mistake me for a Capitalist in disguise, or a disgruntled grouch, I beg to remain,

Respectfully yours, ERNEST REEDER

Italians Are Expelled.

Constantinople, Dec. 11.—The Constantinople papers announce that the Turkish Government has decided to expel most of the Italians from the Gallipoli Peninsula, the territory around the Dardanelles and Smyrna. It is understood that the expulsion will become operative first in all fortified places.

Smyrna, Dec. 11.—The police authorities have issued orders for the departure of all Italians from this district within five days.

Mr. Abraham Goff leaves this evening en route to take passage to Liverpool, Eng.

Infanta Is Contrace. Madrid, Dec. 9.—King Alfonso has received a letter from the Infanta Eulalia asking him to pardon her, and saying that she had acted in a moment of forgetfulness. "She had," she said, "no intention of wounding the royal family nor from a political motive. She begs to have an opportunity of showing that she is an affectionate aunt and a true and loyal Spaniard."

Electric Restorer for Men Phosphonol restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. Phosphonol will make you a new man. Price \$2 a box, or two for \$5. Mailed to any address. The *Scottell Drug Co., St. Catharines, Ont.* sold at *Hickingsbotham's drug store.*

SPOILSMAN'S AXE FALLS IN LINDSAY

The Borden Government has nobly begun the work of civil service reform—"purifying the service." It has made a beginning in West Victoria and Mr. Fabian Gilgoly, a clerk in the local post office, is the first to suffer. This morning he received his blue paper, notifying him that his services would no longer be required. This young man gave excellent satisfaction as a member of the post office staff, and could not be accused of partisanship, because he was not old enough to vote. The howls of the political wolves—the hee-lers, must be satisfied, however. The member for this riding has been dogged to death since his election, and the first swing of the spoilsman's axe does not rebound to his credit.

BURGLARS USED NITRO GLYCERINE

Peterboro Times—Safe blowers at Lakefield about 2.30 Sunday morning, blew open the safe in Chareton's grocery and secured \$179 in cash, and made off, leaving no clue. The parties, supposed to be two in number, forced an entrance through the window, and after knocking the knob of the vault door proceeded to open it by the use of nitroglycerine. When the handle was removed the explosive was put in place and the holes and cracks were filled with soap, the result being a very badly smashed door. Flour, which was piled against the door to make the force go inwards, was scattered about the floor.

The men escaped in a buggy, and at the time of going to press had not been captured, although the police are busy on the case.

Only one citizen, who was up with a sick child, heard the explosion.

Chief Thompson, of this city was notified and has the matter in hand. The opinion is held that the burglary was committed by professional crooks.

Must Help Britain.

Ottawa, Dec. 11.—"Canada to-day has world-wide interests and she must, in the interest of her own trade and commerce and to preserve her own supremacy of the British fleet, which affects her commercial well-being just as much as that of England or any other part of the Empire."

So spoke J. Norton Griffiths, M.P., of the British House of Commons, and a celebrated British contractor and capitalist, who is in the capital en route from Vancouver.

While here he will interview the Government in regard to the construction of the St. John harbor, for which his firm tendered.

"We are ready for an immediate start and hope to get permission to make one from the Government," he stated. Another Canadian project with which Mr. Griffiths is connected is the scheme of the Duke of Sutherland to establish English people on Canadian farms while he has also an eye to an interest in Canadian progress in general.

Infanta Is Contrace.

Madrid, Dec. 9.—King Alfonso has received a letter from the Infanta Eulalia asking him to pardon her, and saying that she had acted in a moment of forgetfulness. "She had," she said, "no intention of wounding the royal family nor from a political motive. She begs to have an opportunity of showing that she is an affectionate aunt and a true and loyal Spaniard."

The trouble arose from the publication of a book relating her experience of court life, which the King forbade her to publish.

Father Carson Appointed.

Kingston, Dec. 8.—Archbishop Spratt has appointed Father Carson Merrickville, to Picton, to succeed Father Killen, who was appointed to the archbishop's old charge at Belleville. Father Wm. McDonagh, Merrickville, has been appointed to Father Carson's place at Merrickville.

The body of Frederick Ruch, aged 45, was pulled out of the slip at the foot of Princess street yesterday. He was a deckhand on the steamer Prince Rupert and was walking along the wharf to his boat late Wednesday night and fell in. His wife lives in Toronto.

MOOSE ARE NOT HARD TO KILL

Montana State Game Warden, Henry Avare, disagrees with the writers who write romantic stories of the williness of the moose, and the craft and skill required of the hunter who bags the great beast. The arrest this week of Frank Morris, of Wisdom, Beaverhead county, charged with killing a moose that weighed 1,100 lbs., led the Game Warden to make a relative comparison of the cunning of the different species of big game in Montana.

"My observation and experience have convinced me that it is just as easy to kill a moose as a tame cow, and how a man can preen himself on the fact that he slew one is more than I can understand. The habitat of the moose is confined to these swamps and marshy ground and such a locality it never leaves. All the hunters need to do to bag a moose is to keep on hunting from swamp to swamp and he can rest absolutely secure in the knowledge that the moose will never strike for the high lands.

"The elk hunter, however, must possess craft and skill and combine leg work with head work. He must study conditions and determine whether the elk are in the mountain valleys or far back in the high ranges. The elk, except, of course when in a starving condition is a very timid animal, and possessed of an abnormally acute sense of smell and hearing. After the hunter has determined the particular locality in which it happens to be ranging, infinite skill to stalk the animal is required, and if frightened, it may quit the locality entirely and travel fifty miles into another district.

"And the successful bear hunter must possess the same qualities as the elk hunter. The bear is a very cunning animal, keen of scent and hearing, a rapid traveller and a ferocious fighter. The man who kills either an elk or a bear has accomplished a really difficult task, but to kill a moose—that is not sport, but slaughter."

Moose are much more plentiful in Montana than has been realized. In the Glacier National Park in northwestern Montana there is a band conservatively estimated at 500; and another district where moose abound is in the heart of the Big Hole national forest in Beaverhead county, southwestern Montana. Up at the head waters of the Wise River many small creeks arise, and the district abounds in swamps and marshy meadows.

"Moose have been in this region for many years," continued the Game Warden, "and a number of men have been arrested for killing the animals. I hope it will be many years before Montana stops protecting them. If the Legislature makes an open season on moose, they will go the way of the antelope. For a long time the antelope were protected and they multiplied rapidly. Then the Legislature took off the embargo and the animals were shot in thousands. The open season lasted but six weeks each season, for two years, but in this short time, the hunters got in their work, and it will be many years before the animals are again plentiful."
