PIGEON CREEK BRIDGE MATTER

Peterboro Review.—Representatives of Peterborough and Victoria County Councils waited on the Minister of Railways and Canals at Ottawa, Tuesday, in regard to a grant from the Government towards the Pigeon Creek Bridge.

It was pointed out to Hon. Mr. Cochrane that owing to the raising of the water by the dam at Buckhorn the expense of rebuilding the bridge was greatly increased. Without the dam at Buckhorn the flow of water would be much smaller and construction work at this point would be largely facilitated.

At the present time there was 4,700 feet to be bridged or filled in.

The Minister asked that all information possible be given in writing when he would consider the matter, with a view to a satisfactory solution of the whole matter.

GREAT NUISANCE AT POST OFFICE

One of the greatest nuisances with which post offices, especially those in the smaller places, have to contend is that occasioned by the thoughtlessness of the great army of future men and women of this great Dominion sometimes irreverently called "school kids," many of whom during the school months flock to the post office three or four times a day, and not infrequently, perhaps, three or four of the same family may repeat the same performance at short intervals. Thus the mail of a family may be needlessly called for from three to a dozen times a day for six days a week sometimes without receiving a solitary piece of mail for weeks at a stretch, some older member of the family having called during the morning or afternoon. A post office clerk in a neighboring town kept tab on the number of times a certain family's mail was called for in one day. Four children called four times each—that made sixteen; the mother dropped in about five in the evening on her way home from the store. After supper the head of the family walked up to the window and demanded his mail. When informed that there was nothing for him, he blandly inquired, "Ain't there no papers?" Being asked what paper he received, he replied, "Oh I don't take none reglar, but sometimes I get a sample copy." As the window closed for the night the clerk gasped, "Oh, Lord, deliver us."—*Unbridge Journal.*

TRIUMPH FOR FAIRVIEW FARM

Messrs. J. & D. J. Campbell, of Fairview Farm, Woodville, Ont., winning for best wether shown at the International, and Mr. MacGregor of Brandon, Man., capturing the honor for the best steer at the great show are evidences of what can be accomplished in our country in the way of high class live stock production.

It is the first time a pure bred Shropshire has won the coveted position. That last year's winner of Grand Championship at Chicago was raised about a mile from Fairview Farm, and had for sire a sheep bred from Fairview foundation is rather remarkable.

BOY AND THE BANK ACCOUNT

There are several factors that are responsible for the making of an industrial and thrifty man out of an active and wide awake boy, and one of the most important of these is getting the boy to start a bank account of his own in his early teens or before. Not only should the lad be encouraged to put most of the money he earns on deposit in such an account, but it will help to still further encourage him if the fund is increased a bit now and then by those interested in him. The having and building up of such a bank account will not only make a boy saving and thrifty, but he will at the same time learn the value of a dollar, while the incentive he will have to add to the sum on deposit will keep him from spending foolishly the money he earns. Help that restless, active boy to start a bank account. It may make a man of him. The Penny Saving Bank is instituted for that purpose and is now in operation in our schools here.
