## HOME-GROWN JINGO

### Glasgow Herald Criticizes Col. Denison's Recent Remarks.

### FULL OF IMPERIAL PROMISE

Broad Arrow's Opinion on the Steps Already Taken to Cement the Various Colonies With the Mother Country—British Farmers Feel Canadian Competition—No Pay, No Preference—Emigration League.

London, Dec. 29.—(C.A.P.)—Col. Denison's remarks regarding the honesty of Chamberlain's opponents have aroused the anger of The Glasgow Herald, which says that while no man shouts for the Empire louder, he is not a representative Canadian, but a home-grown jingo, and many Britons resent his impertinence. The Herald suggests that the economic commission to perambulate through Canada exhibiting an hypothetical preference should take notes pro and con.

R. Cremer, M. P., received a congratulatory letter from Andrew Carnegie in New York. "The concluding of a preferential tariff with Canada," he said, "would change feeling here considerably. There was no doubt that but for this tariff it would not be until after an appeal to the country."

**Fall of Imperial Promise.**  
The Broad Arrow says the greatest steps toward Imperial unity during the last few years have been the fiscal policy and the presence of Sir Frederick Borden on the Defence Committee. Canada realizes her Imperial obligation and the steps are full of magnificent Imperial promise.

Lal Ghose in his Presidential address to the Indian National Congress at Madras, wanted Mr. Chamberlain to say if Canadian wheat is to be protected against Indian grain. George Gissing, the novelist, died of consumption yesterday at St. Jean de Lux, in the Pyrenees. He was born at Wakefield, Eng., in 1857.

**Feels Canadian Competition.**  
The Manchester Guardian devotes a column to a letter signed "Son of the Soil," who fails to see how the Chamberlain proposal to tax foreign corn and dairy produce and admitting colonial products free is going to help the British farmer. It makes no difference to "Son of the Soil" whether his competitor is Canadian or German; what he does feel is the increasing severity of his competition. The colonies, not us, are expected to benefit financially. Because they loved the Motherland the colonies would have helped whatever Government had been in power. For many years the Bramhall district in Cheshire has been one of the great hay-growing districts, but competition, principally from Canada, has reduced the price to such an extent that it is difficult now to make ends meet. The farmers as a body are strong, unbending protectionists, but they will want a lot of persuasion before they are convinced that Mr. Chamberlain's proposals will improve their position.

**No Pay, No Preference.**  
The Westminster Gazette says: "Colonel Denison is very eloquent in denunciation of the statement that Canada is not in favor of Mr. Chamberlain. These are fine words, but they butter no parsnips. The test of Canada's support is whether she is able to live up to the standard of 'no pay, no preference.'" Referring to Chamberlain's proposals, the Canadian Manufacturers' Association resolution was in support of Mr. Chamberlain, the Westminster Gazette says: "General support is of little use; what is wanted is evidence that Canada is willing to pay."

**Emigration League.**  
An emigration league has been founded, the object of which is to promote legislation offering free training, emigration and a colonial farm to one member of a family on reaching the age of 18, the emigrants to be provided with outfit, passage out and money placed to their disposal, their training to be completed under the direction of the colonial Governments.

**Collieries Resume.**  
Scranton, Pa., Dec. 29.—Work was resumed at all the Delaware and Hudson Company's collieries yesterday. The Ontario and Western Company started up its washeries and all of the individual operators resumed mining.

**Death List Shows 19.**  
Grand Rapids, Mich., Dec. 29.—Careful revision yesterday of the list of dead in Saturday night's wreck on the Pere Marquette Railroad shows a total of nineteen, instead of twenty-two.

**Turkey Threatened By Macedonians and Vigilance Ordered.**  
Salonica, European Turkey, Dec. 29.—The authorities are informed that 4,000 Macedonian revolutionaries, under the leadership of eighty Bulgarian officers, are ready to invade Turkish territory.

**Something in Seven Days.**  
Toronto, Dec. 29.—Messrs. Clergue, Shields, Coyne, Irving and other Soo promoters, assembled at the King Edward last night, after having been away since the day before Christmas. Mr. Clergue observed that with this seven days there would be some important developments, or perhaps on the seventh day.

**OFFICERED BY BULGARIANS.**  
Turkey Threatened By Macedonians and Vigilance Ordered.

**La grippe, pneumonia and influenza often leave a nasty cough when they're gone. It is a dangerous thing to neglect. Cure it with**
