Opinion of a Lindsay "Old Boy" Upon an Important Matter-Praises the Work of the Local Press.

We take the following very interesting article from the December issue of the Canadian Municipal Journal published in Montreal, The writer is Mr. W. T. Robsony son of ex-'Ald. W. M. Robson, of this town. As many of our readers know, Mr. Robson, jr., is in charge of the C. P. R. publicity department, and is an au-

thority on the subject; In order to obtain for our readers an expert opinion upon the very important subject of "How and why a municipality should advertise," we spending a few weeks among friends recently called upon Mr. W. T. Robson, the head of the advertising department of the Canadian Pacific Rarlway. Mr. Robson was born in Canada, and has spent some years in New York in the advertising profession and is undoubtedly now one of the best informed men in Canada upon the subject of advertising. He is a eafe, shrewd judge of the value of different mediums, and has carefully tabulated results obtained from therefore, we regard his opinions as of great value to our readers,

The first question we asked was, "Should municipalities advertise?" Mr. Robson replied, "Certainly, they should; that is if they are alive to the benefit of advertising." "Suppose you owned a municipality would you advertise ?"

"Most assuredly I would, just as should advertise my own business, "But a municipality, is not a busi-"No unfortunately, judging by the usual way their business is conducts

"Now, will you please tell me briefly just how a municipality should ad-

Make your place attractive, otherwise you cannot reasonably expect to draw business. Unfortunately, in most places the work of exploiting the village or town is left to a very few public-spirited men, who carry the load, while others profit by their labors. I think every municipality should hoist the work over to their merchants, and call it a Board of Trade, or Tourists' Association, or any other name. The whole municipality receives the benefit, then why not put the burden where it -ightin the race. Gentlemen, be assured fully belongs, upon all the municipalof my best attention to the business ity. The men who have charge of of the municipality during my term | this work should have their printof office. Strict economy in expend- ing done by local printers, and avoid iture, justice for all, favours for the travelling fakirs, who come along with special editions or write-ups in foreign papers. If you have an attractive town or village, send photos and descriptive matter to your local railroad and steamboat companies. They are always interested in their territory, and it is to their interest to unite thei refforts with yours to make your advantages known to the world. It is these sim-

ple things which DO NOT COST MUCH. that are the most important muniunited effort by public-spirited officials; second a reasonable sum of money for expenditure; third, some special advantages to advertise, which if you have not-well, my ad-Mr H. Sutcliffe and his sister are here Tuesday. The returns from vice is to always make the best of your own village or town as long as you are a resident of it, but talk its | May outs unchanged. good points and endeavor to mend its bad fortunes. I notice Toronto had the opinion of three prominent New York advertising men as to the best methods to adopt to advertise the attractions of that city. One of them Mr. S. Keith Evans, spoke of the good work done in this direction by Dalias, Texas a city of 75,000 population. where only about seven months ago there was a conference of business men, the Council, the Board of Trada, and other associations, the outcome of which was the formation of a "150,000" club, the idea being to increase the population to that figure within five years. The organization planned the expenditure of \$50,000 a year for five years, and adopted the "follow up" system of advertising. enquiries, and have already secured five branches of manufacturing in-
