

CANADIAN FARMERS SIT UP AND LISTEN!

2,000,000 ACRES OF THE RICHEST PRAIRIE LAND

IN ALL THE WORLD

THE FAMOUS SASKATCHEWAN VALLEY

THE CARROT RIVER VALLEY and the GREAT SASKATCHEWAN PLAINS

These lands comprise the land grant of the Canadian Northern Ry., and are located in the richest part of Western Canada. The country is open prairie covered with a rich luxuriant grass, free from weeds or brush. There is no other country in any section of Western Canada that will produce the same enormous yields of No. 1 Hard Wheat. These conditions, together with the facilities afforded by hundreds of miles of new roads now opening in these districts and thousands of miles more under construction, make it possible for a man to get a start more quickly and cheaply than in any other country on earth.

THE FARMER'S SON who owns a hundred acre farm of high priced land can secure from us better land at one fifth the price of the land he now operates and make more money in the next two or three years than he has in the past twenty.

THE FARMER'S SON who is eager to get a start for himself, will find here his last chance of securing good prairie land cheap that will produce crops quickly, easily and cheaply, where he can break 40 acres a year, and have his entire farm crop in four years.

THE RENTER who is struggling for a mere existence, more often in debt than out—who is willing to take his coat off and to work, will find a golden opportunity to secure for himself a home, a competence and contentment in this great new country.

THE INVESTOR will find in these lands an absolutely safe investment, better than bonds, stock, mines or money in the bank, the lands cannot get away, the taxes are a mere song, and with the tremendous development and settlement of Western Canada, the value of these lands will cause these lands to increase more rapidly in value in the next three years than they have in the past five. This is your opportunity to buy for investment.

YOU CAN SELECT YOUR OWN LANDS. It ought not to require much space to convince you of the advantage we offer you in giving you the opportunity to make your own selections from over 2,000,000 acres of the best land in Western Canada. No other company can make you such a favorable proposition. But be wise, don't wait until your neighbors have selected the choice pieces.

FREE HOMESTEADS!

Good Free Homesteads of 160 acres each, still secured near railroad stations. Our immigration department has records showing every homestead available in every township tributary to the C.N.Ry. This information and every assistance will be rendered homeseekers without charge. Write for maps, pamphlets, price lists, etc.

LIMP, LIMP "Oh That Corn!"

How one can suffer with such a corn! To look at it's almost nothing, but the hurt—that's where corns count.

Now the long suffering—those who have faithfully tried lots of corn cures without effect, may question our statement, but nevertheless, we make it, and it's true. We have a corn cure that will take out your corns, roots and all. If used according to directions it will leave no soreness. We warrant it—your money back if not satisfied. Call for

Our Best Wishes

The Holiday Season is now over and I must thank my many customers for their liberal patronage during the past year, which has been, for me, far the best since I have been in the grocery business. Now we are in a better position than ever to attend to your wants in all the different lines in the trade. We will do our utmost to still merit the confidence you have placed in us in the past.

Wishing you a Happy New Year.

Notice to Farmers

We are now prepared and are booking orders for the coming season for the growing of Fancy and other Peas, and we would request those wishing to grow that have not already left their order and require seed peas to call at once and leave their order.

The cut or sand worm, which was prevalent in the late varieties of peas in the past season, we have been informed that Prof. Nasb, of the Agricultural College, lecturing here this fall said, that this cut or sand worm was not likely to appear another year, and that it was caused by the elements of bad weather, excessive cold, heat and wet—w4ff.

Annual Meeting of South Victoria Agricultural Society—Reports of Treasurer and Directors—Next Year's Dates, Sept. 20, 21 and 22.

The annual meeting of the South Victoria Agricultural Society was held in the Council chamber, Lindsay, at 1 o'clock p.m. on Wednesday last, January 17th, 1906. (On motion Reeve J. H. Hopkins of Ops took the chair, when the minutes of last annual meeting were read and approved.)

DIRECTORS' REPORT.

The report of the directors was read by President Johnston Ellis, as follows, and on motion same was received and adopted:

Gentlemen—Another year has come and gone and we meet here at our annual meeting. We have to report that we have had the largest and best Fair ever held here. We had very good weather and good competition in every department.

We offered about \$320.00 more in prizes than other years, paid nearly \$200.00 more in prizes, and our entries were increased over one hundred more. Owing to the good Fair we were enabled to pay off our note of \$350.00, so we have only our mortgage of \$8,000.00 against us now.

We beg to tender our thanks to the County Council and the citizens of the Town of Lindsay for their grants and donations to assist us through our Fair, also all the railway officials for assisting us, in tendering our thanks to one and all for assisting us so nobly, and hereby ask all their assistance to the new Board of Directors who ever they may be, so they will be enabled to go on increasing our Fair so that it may increase to be second to none in this Province.
