Maccabee Major Talks of Fraternal Insurance.

SOCIETIES NOT PERPETUAL

Says a Crisis Has Been Brought About in Fraternal Organizations by Old-Line Insurance Methods—What is Expected From Fraternal Cooperation—Rev. Mr. Wilson's Method Too Drastic for Him.

Detroit, Jan. 20.—"A crisis has arrived in the affairs of fraternal organizations and it has been brought about by the societies being converted into quasi old line insurance companies. When the fraternal feeling disappears and cold business methods take its place, the fraternal societies must go down for fraternal societies, barring difference in expense of administration, cannot issue insurance at any less than the old-line companies. With the possibilities of bad selections, it is apt to be more. There is an end to everything, and we must not expect our societies to be perpetual. Only when a man can perpetuate himself can he expect to perpetuate an organization such as any of ours."

Uttered in characteristic style by Major N. S. Boynton of Port Huron, grand commander of the Knights of the Modern Maccabees, and one of the best-known fraternal insurance men in America, the above remarks dropped like a bombshell into the annual meeting of the Michigan Fraternal Congress, in session at the Hotel Cadillac.

He followed Rev. W. W. Wilson of Detroit, prominently identified with the A.O.U.W. of Michigan, who had protested that there must be rates adequate to meet all contracts at the time specified, requiring a sum of money which at compound interest would meet the policy at the expiration.

"You must get the 2 plus 2 from the members in order to have the 4 to pay back to them, or else you will meet dissatisfaction and disorder," said Mr. Wilson.

"What we have to expect is fraternal cooperation, not fraternal insurance," maintained Major Boynton. "You want blood-letting, strangulation and chloroform. My method is milder. A mill specific would be more to my idea. The only field for a fraternal society is to mix fraternity with business. If you get too much commercialism, the young men will go to the old line orders. If you get too much fraternalism, the confounded craft shops over. But we don't have to be territorial we have years ago and the orders are weaker for it."

"Fraternal insurance will carry a man over the time when he most needs insurance. If the organization which I have devoted years in helping to build up should go out of business tomorrow I should be satisfied with it for the good it has done. If you are going to give insurance for Tom, Dick or Harry to speculate upon, you have got to do it on the basis of the old-line companies."

PROGRAM TO BE FOLLOWED.

Morocco Conference Will Adhere to That Pre-Arranged by Germany and France—Trade Menaced.

Algiers, Jan. 20.—Yesterday being the Mohammedan Sunday, there was no session of the international conference, through deference for the Moroccan delegates. A Moorish villa served temporarily as a mosque, where the Moors redoubled their religious fervor, in praying for the preservation of their country.

In the meantime, the exchanges of views between the delegates of the powers have brought an agreement not to consider questions outside of the pre-arranged Franco-German program.

Baron Joostens, the Belgian Minister to the Moroccan conference, presented to the other delegates last night a written proposal that extensive arms not intended for military use be allowed to enter Morocco, otherwise the Belgian factories would suffer severe losses.

The wreck was rescued by the steamer Queen City and reached Clay-squet yesterday.

CHRIST AGAINST WORLD.

Dr. Torrey Denounces German Scholarship—End of Third Week Sees 2,800 Professed Converts.

Toronto, Jan. 20.—With the Torrey-Alexander meeting held last night there was marked practically the ending of the third week's campaign in Toronto. It is announced that thus far 2,800 converts have been received by Dr. Torrey. This includes 755 children, who came forward at yesterday afternoon's special meeting and the other youthful converts of the previous meeting, making about 1,600 or more than half the total number. It includes also the number drawn to the front last night, about forty.

Speaking generally on the theme of faith in Jesus, Dr. Torrey said: "If anyone believes in Jesus he would believe in every one of His words. It might seem difficult or impossible, but true faith would inspire belief against the world. There were words of people who were willing to accept the contention of German scholars as against the words of Jesus."

"I am here to affirm that such men do not believe in the Lord Jesus," asserted Dr. Torrey.

The vital question of the day was whether to believe Jesus or the consensus of the opinion of German scholars. His word had stood the test of eighteen centuries. This could not be said of the other opinion.

He went on to define, as an essential duty of the Christian that he should say to the Master: "Use me as Thou wilt." He asked his hearers who among them carried out this conception.

"I do," spoke up someone to a query that the preacher had probably not expected to draw a response, but Dr. Torrey's quick rejoinder was "Thank God for that."

Belief would show itself in obedience manifesting in personal habits, business, social and political life and everywhere else.

In the afternoon, when the special children's meeting was held, Massey Hall was packed at 2:15 p. m., and many children were turned away.

FROM THE WRONG PATH.

"God's Blockade on the Road to Hell," Subject Handled by Dr. Torrey—2,000 Excommunicated.

Toronto, Jan. 19.—Commencing next Monday, Dr. Torrey will address two meetings each evening at Massey Hall. Outside throngs filled Massey Hall to overflowing at two meetings yesterday. Excommunications were read from London, Barrie, Guelph, Trenton and Woodstock. Fully 2,000 came by special train.

At the afternoon service the subject was "The Influence of the Holy Spirit." The speaker dealt into the great joy and richness and experience that was imparted to those who had the Spirit springing up in them like a well of water unto everlasting life.

"God's Blockade on the Road to Hell" was the subject of a very pointed address in the evening.

God placed many influences in man's way to draw him out of the wrong path. The Bible was perhaps the greatest of these. Mother's influence and teaching of the father were also influences which could be cited on every hand where men would have been plunged to hell had not some slight happening interfered and brought them to themselves.

Kindly words and actions on the part of Christian people would redeem thousands of wretched lives.

Forty persons came to the front in response to the doctor's invitation.

COBALT CLAIM BLANKETING.

Attorney-General Issues Write Against White Silver Co.

Toronto, Jan. 20.—The White Silver Co. of Toronto are defendants in one of the suits of the Attorney-General to prevent the blanketing of claims in Cobalt. The writ issued yesterday includes as defendants Edward C. Hargrave, Bay City, Mich.; Frank N. Rutherford, Niagara Falls; Charles G. Williams, Montreal, all mining engineers.

The land the Ontario Government is seeking to recover is in two parcels, containing fifty acres each in Coleman Township. The leases were first granted to Williams and Rutherford in 1904. Later they passed into the hands of the company of which Hargrave is a director. The Government claims to have secured information that the discovery was not genuine, and that the defendants knew that George Hanon, who is supposed to have made the discovery, did no such thing.

The Government asks for an injunction restraining the defendants from working the land, and for a cancellation of the lease and an accounting of the profits.

EIGHTEEN MINERS KILLED.

Explosion in a West Virginia Coal Mine—Tons of Wreckage Hurlled From Mouth of the Mine.

Charleston, W. Va., Jan. 19.—Eighteen men are believed to have been killed by a terrific explosion in one of the mines of the Detroit & Kanawha Coal Co. at Detroit, on Paint Creek, this county, twenty-five miles from here.

That more men were not in the mine at the time of the explosion was due to the fact that almost all of the day men were eating their dinners on the outside. The explosion occurred at 12:30.

Had it been either before or after the noon hour hundreds of men would have been killed. The force of the explosion was so great that the hills trembled. Tons of wreckage and debris were hurled from the mouth of the mine, blocking the entrance and making the work of rescue difficult.

The first rescue party, consisting of fifteen men, entered the mine at 6:30 o'clock. The first body reached was that of G. P. Neal, which was discovered 180 yards from the entrance.

Mothers, wives, children and friends of the entombed miners are crowded about the mouth of the pit, declaring they will not leave until they know the fate of the unfortunate men. The explosion is believed to have been caused by a blast igniting the dust which has accumulated in the mine.

The boy was on his way to St. Mary's Separate School, on Bolton avenue, when he was struck by the car. There will be an inquest.
