The Weekly Post.

LINDSAY, FRIDAY, FEBRUARY 6 THE CEMENT WALKS CONTRACT.

it would appear that an effort is being made, -with good intentions, perhaps,-to impress the public mind with the belief that in accepting Mr J. J. Miller's tender to construct 45.

000 feet of coment walks at 18 1-40 per square foot our Aldermen are doing a dangerous thing. So the Watchman-Warder alleges, on th atrength of an opinion given by Mr P. G. Pilkie, whose sense of proper proportions is so outraged by the quantities of gravel or broken stone sand and cement, mentioned in the specifications, that-according the Watchman-Warder-he threatens to take out an injunction in order to protect the citizens from loss.

Mr. Pilkie may be deserving

praise for his disinterested zeal in our have been able to learn, no other persee has interpreted the specifications in precisely the same war! in fact all understood that the proportions would be those defined by Mr. Miller Cauncil, and we faner that Mr. Pilk: While on this subject we deem it only Aid. Dinnaman at the last meeting the Chalmers investigation that the town had been saved considreable money by the quashing of the Chalmers tender. That remark was based on fact, and for that saying our citizens are indebted to axaid McDiarmid, whose bold-and we believe conscientions-action brought | than a cent rer day. That is cheap tween Coombs' tender at 13. 3-4c. and Miller's at 13 1-8c. represents sun in excess of \$700. The coad of the investigation was about \$130, leaving a very tidy balance to Mr. McDiarmid's cradit. He acted as avery good citizen should act under similar circumstances.

MR. CARNEGIE'S OFFER.

(Toronto Globe, Wednesday.) Mr. Andrew Carnegie's offer o \$350,000 for the construction of central library building and three brane's buildings should be promptly accepted by the City Council, as it probably will be by the Public Library Board. The immediate need of Torento is not so much a Library as a library building, and this precisely want Mr. Carnegie's gift will supply. The premises at present in use were never very suitable for the jurpose, but they have become inadequate as well as unfit, and we must either cease rurchasing books or provide a better building in a botter place to afford access to

It is to be hoped that if the gift accepted at all it will be accepted at one and without any display of pipgraciousness. There is no reason to doubt the good faith and genuine liberality of Mr. Carnegie. He has zeiterated his opinion that no man should die rich, and he has been spending his money very freely for the rest few years. So far as the public are awars, his donations have always been intelligently as well as generously made. His immense contribution in aid of the Scottish Universities was a welcome addition to their funds, and no the ever spoke of throwing the money back at nim If the Scottish nation could cordially accept ten millions for the promotion of higher education, surely Toronto may accept the thirtietn part of that amount to bring culture derivable from books more effectively within the reach of those who crave for it.

Under this arrangement, if it is carried out, there will be no very great increase for the present in the amount spent in the purchase of bocks, but as the income from talation increases, more extensive annual excenditures will be practicable, and they should go largely to the expansion of the reference library. It is in these days of cheap Iublications no great bardship for recople to supp'y themselves with abundance of fiction at a moderate expense, and it may seriously be doubtad whether supplying the 'last | new novel" to thousands of persons who read little else than new novels cina Co., Brockville, Ont.

accessible a reference library in a eity like Terente. There are several others here hesides the Public Library, but they are all intended for special classes, and none of them are extensive enough for research work. Moreover, the Toronto Public Li-brary has been in the fast, and will no doubt continue to be in the future. a reference library to the Province at large and to other parts of the Dominion. In this respect it has no rival in usefulness, everyt perhaps the Parliamentary library at Ot-tawa. With its transfer to a new building on an up-town site a new ara of progress and usefulness would be opened up.

EDITORIAL NOTES.

Mr. Gamey, classed as the Opposition representative of Manitoulin has announced his intention of supporting the Ross Government. That majority of one is growing to very substantial proportions.

Mr. Foster is credited with arguing in his North Ontario speeches, for reciprocity of tariffs with the United States. Such an abandonment of the policy of Canadian tariff for the Canadian people in favor of one of a Unitpeople, would indicate that the Hon. George's moments of weakness are stretching into hours.

Goderich owns its own waterworks and electric lighting plants. show that the investment has been teirly profitable; Waterworks earn. to the English market, while others other buyers." ings, \$5,700; electric light earnings, are selling privately. He was proud \$4,700; street sprinkling and water of Verulam township, as it had sold for factories, \$400; 55 hadrants at (street) at \$40, \$1,720; 54 Ancandes. cent lights in municipal buildings, \$194.40, total, \$14,914.40; waterworks and electric light maintenance, \$0.087.78; interest on debentures, \$4,230.01; total \$18,318.84. Balance, \$1,500.00.

According to returns Fublished Canada exported, via Montreal, season of navigation just closed, 2,-100,171 boxes of cheese, valued \$18,455,246, as against 1,796,618 boxes, valued at \$13,168,355, in the season of 1901. This increase of ur wards of \$5,000,000 in the oneese trade done through the chief shipring port is a very considerable one Canadian butter also shows a gratifying increase. Our shirments last year via Montreal were \$2,000,000 in excess of those of 1901. There is still room for a great advance in this trade, seeing that out of nearly 400, 000,000 rounds imported annually by the mother country Canada only furnishes 28,846,200 rounds.

The Montreal Gazette dees not me this is what it says; "Just now Bus ton is dealing with an agitation in favor of municipal insurance. all the fads that ever were this fad aniekest and hardest. As a general al: the fire department in most branch of the municipal service This is so because the inuspance mer sit in judgment upon it, and when they disapprove they say so in s most emphatic way - raising rates There is nothing which costs a householder less than fire insurance in Montreal he can secure \$1,500 weath of insurance at a crst of less enough for anyone. The proportion of wind to sense in this agitation is even less than usual."

Stock for a Lindsay Industry.

Mr. John Henderson, of Bobcaygeon, timber buyer for the Rider & Kitchener Co., was in town to-day on business. He says that a lot of very fine timber is being taken out for the firm by jobbers and larmers, and in addition some 7,000 pieces will be taken off a 400 acre lot at Nogey's Creek, below Bobcaygeon, which was acquired by the the lirm last fall chinery is to be placed in the veneer factory next spring.

THAT OLD PAIN AGAIN.

Gnawing, Piercing Pains That Almost Maka You Scream.

It is your old enemy, rheumatism come again with the winter to torture you. These pains, remember, are caused by bad blood, you may ease them by rubbing with liniments, and outward lotions, but cannot get rid of them in that way. Rheumatism is caused by bad blood and the only certain way to drive it out of your system is to enrich your blood by taking Dr. Williams' Pink Pills. There is no case of rheumatism Dr Williams' Pink Pills will not cure if given a fair trial. By making new. rich red blood and strengthening the nerves they strike at the very root of such diseases as rheumatism, sciatica and lumbago. We give one case out, of thousands to prove the truth of this statement. Mr. A. G. Lacombe, Sorel, Que., says: "For five years I was a victim to the tortures of rhoumatism. At times the rains in my knees, shoulders and hips were almost rest endurance. O'ten I could not dress myself without assistance. I tried many remedies, but I never got more than temporary relief until I began the use of Dr. Williams' Pink Pills. I used altogether eight boxes. and since taking them I have not had a twinge of the trouble, and I feel better in every way than I did for years before. I would strongly advise every rheumatic sufferer to give Dr. Williams' Pink Pills a fair trial." Famomber that only the genuine pills will cure - imitations can't cure, therefore see that the full name, "Dr. Williams' Pink Pills for Pale People," is found on the wrapper around ev-

ery box. Sold by all medicine deal-

ers or sent post paid at 50a per

ANNUAL MEETING HELD IN TOWN MONDAY.

Number of Factories has Becreased. but the Output has Increased-Election of Officers-An Inspector Will Again be Employed

The annual meeting of the Victoria Courty Cheese Board, was held on Monday, commencing at 11 o'clock, with President Robertson, Secretary Shine, and a large number farmers interested in the dairy industry in attendance. On motion Mr. Taylor Parkin representing Cameron factory, presided as chairman. The minutes of last meeting and other meetings held during the year were read and confirmed.

PRESIDENTS ADDRESS. President Robertson gave a very interesting address. He thanked the Board for the honor of having been elected president for the last seven years-an honor which he ap- buyers say they must have shrinkpreciated very much. He had great hopes seven years ago that the Cheese Board would be larger than it is at present, however, quality is better producing a good quality of cheese, so we must not get discouraged.

In 1895 seventeen factories sold 9369 cheese; last year fifteen sold by Mr. staples it was decided that months being 99-16 cents. In 1897 Hall be recommended to the Associathere were twenty-two factories re- tion. presented on the Board, but since then | more cheese than some of the other townships. Over 7489 cheese were sold by Verulam, while Fenelon and Palestine factory 752, Emily 2703, Ontario Dairyman's Association anal meeting, held at Ottawa in January, Mr. Denbyshire, the president, said that 2,500,000 cheese had been sold in 1902, the amount realized for the same being \$21,000,000. Besides this, 013,840 packages of creamery butter were disposed of, the amount received for the same being \$9,000,000. So you see over \$30,000,000 was realizaltogether. The revenue derived from the sale of hogs was \$15,000, 000, so the farmers of Ontario should be prospereus.

The Hon. J. Dryden, at the meeting of the Dairymen's Association, said the farmers of this country should stand together whether the prices rise or fall. So it should be at this board-stick together. He thought an instructor necessary and the question should be dealt with at | Clerk Knowlson. in order to avoid another meeting later. The Eastern Ontario Dairyman's Association has decided to appoint twenty inspectors this year instead of ten as formerly. Mr. Diyden has made arrangements for two instruct ors to be in the employ of his department, who will have charge of dairy industry in Ontario. Mr. Barr will be in charge of the Western division, and Mr. Publew of the Bast

era: These two men will have super vision ever all metrueters in their re-The question has often been ask for our cheese as in Peterboro. The reply to that, perhaps, is that there are not enough muyers on this Board to make competition keen. Another is that when one-half the number of cheese of a factory is at the factory and the other half in the buyer's cold storage, the fact may have a tendency to keep away duyers.

On motion the President's address

THE DISCUSSION.

Mr. Parkin-"Three factories wer burned-West Ops, Valentia and Kin-

Mr. Robertson-"Yes, that's right. Minden stopped because there was not enough cheese to be sold. It's a great trouble to get instructors that are satisfactory to all the factories. Little Britain and Oakwood dropped off on that account. Instructors are necessary, however, because they have tendency to raise the standard cheese. The product nowadays is not what it was 20 years ago. Storekeeps ers at the present wont take culls, We understand that additional mat but insist on a good qualit of cheese, As for the low prices paid on the Lindsay Board, Mr. Flavelle will ex-

Mr. W. Flavelle--"In 1901 better prices were paid in Lindsay than in

Peterboro." Somediscussion took place as to the prices paid for cheese in Lindsay and Peterboro, but was finally settled by Mr. Flavelle explained how that came about. The question of allowing for shrinkage was discussed. Some of the members thought that if shrinkage was allowed a higher price should paid for cheese. Mr. Flavelle said that the shrinkage was allowed in October cheese last year. October is sometimes indifferently cured, and consequently the shrinkage is great. If not allowed the buyer would be at

Mr. Akister, of Bury's Green, said part of the report consists of an acthat Mr. Sandford, the treasurer. was unable to attend the meeting owing to other business. Mr. Sandford intended to engage in the butter business this year, and as he would not be a salesman at the board he wished to retire from the treasurer.

THE NEW OFFICERS.

The election of officers then took place, resulting in the following being elected: President, Mr. Rocertson: Vice-Pres., Mr. Parkin; 2nd Vice-Pres., Mr. Sinclair; Secretary, Mr. Shine; Treasurer, Mr. Ray. On motion of Mr. Parkins, second- hibition and the mood of conducted by Mr. Ray, it was decided that ing the early markets and fairs. each factory selling on the board should pay a fee of one dollar.

ABOUT AN INSPECTOR Mr. Robertson-"What about an inspector? We should have one. Last year we were separate from the Association in that respect, but I would suggest we fail into line this year and let them send any one of the twenty men they may select." Mr. Starles-"I don't know what other inspectors do, but I understand Mr. Hall not only inspects the milk, but he sags that the cane are clean | plan is well and fairly emphasized as well. I think Mr. Hall is a first- tonoughout the report.

care to take it another year, as

Mr. Latie-"I would suggest that the Eastern Dairymen's Association as one of the twenty inspectors to be appointed. Some of those that will be appointed may not be as fully qualified as Mr. Hall, but they get taeir appointment through in-fluence. I am giad Mr. Publow has been appointed superintendent of the Eastern Division, because he is a good man; I believe his is the greatest cheese man living to-day. It is a blessing to have such a man as Mr. Publow connected with the associa-tion, and I would be only too glad to see Mr. Hall under him, but the latter's salary last year was not enough to remunerate him for the work done. It is necessary to have an inspector in order to keep up the standard of cheese. We must have the quality, and that's the reason Canadian cheese won the first prize the prices paid in Lindsay, I think they were equal to the prices paid at other places. If buyers pay a high price one year they are not acing to do the same the next. Again, if age and the producers say no, the

buyers can get over that difficulty by offering a fraction of a cent less." Mr. Parkin-"Mr. Hall is a good man. He spend be because we eduthan quantity any time. The fac-tories selling on the Board now are gone and stolen one of our fine girls in Cameron, and now we can't do without him." (Laughter.)
On motion of Mr. Sinelair, seconded

Mr. Parkin-'I bave no fault to find some factories had been destroyed by with Messrs. Flavelle and Fitzgerald, fire and some preferred to consign but we should send an invitation to

NEW STYLE OF CHEESE

Mr. Flavelle then exhibited for inbeen lately patented. It is a square Ops sold 1916 and 2612 respectively, in form weight 12 bbs., and is covered with white Paraffine cloth marked off and Jametrille 578. At the Eastern in exact half-pound squares. This cheese is a good seller for the retail trade. The machinery for making this cheese would cost about \$200. The meeting then adjourned after deciding that the first sale will the held on Monday, May 18th.

BJARD OF HEALTH AFFAIRS. The Annual Meeting Held Menday

Afternoon. The annual meetting of the Board of Health was held on Monday afternoon at 4 o'clock, in the Council

chamber. Those present were Messrs. R. Kylie, J. Starles, J. Ward robe, Geo. Mills, Mayor Sootheran. Sanitary Inspector Douglas and The Secretary, Mr. Knowlson, callad the meeting to order and then

stated that the first business was to moved by Mr. Mills, seconded by Mr. Kylie, that Mr. Staples be appointed chairman for 1908. Maror Soother: en muved in amendment, seconded by Mr. Wardrobe, that Mr. Kylie be thairman. The amendment was rut and declared carried Mr. Kylle, in a few well-chosen

wards, raturned thanks for the honor fice last year he thought the honor should go around. He hoped he would teceire the hearty comererat an of all be transacted in a ganuar satisfac-

Will Strengthen His Hands It was moved by Mr. Mills, secondbe a committee to assist in their reofficer in performing his duties.-

Declared to be a Nuisance.

A communication from Sanitary Inspector Douglas, complaining of the bad odor arising from the new closet installed in the market building, and asking that the same be ventilated. caused a little discussion. Mayor Sootheran-"Mr. Douglas

score to me about it. I that a vent ripe be put in, but I prefer to have the orinion of the Board so that I can bring the matter before the Council."

Mr. Mills-"The complaint has been made and the matter should be attended to. I understand that some of the members of Council don't care to have Mr. Douglas complaining of the unsanitary condition of town property. I think the town has as much right to be notified as any rri-

Good Advice for Our Council. Montreal Star, Friday: The Council should stop trifling with the Carnegie Library affair. They should either politely decline the gift, once for all, or decide by a majority vote on a site and then go to work and put it up there. This vacillation is far more humiliating to the city than either the acceptance or the belated rejection of Mr. Carneie's proposal. The donor deserves better treatment than he is getting Montreal has only been up against the problem for a brief period, but in Lindeny the question of a site has been an issu for about a twelvemonth notwithstanding the rledge given by last year's Council that a site would be

RAILWAYS AND LABOR.

Draft of 6ir William Mulock's New Bill to Arbitrate Disputes Between These Interests.

Ottawa, Feb. 3.-Local labor ions have received draft copies of the amended bill for the settlement railway labor disputes, which is to take the place of the measure introduced at the last session of Parliament by Sir William Mulock. The old bill provided for the compulsory arbitration of railway disputes and made violations of the act punishable by severe penalties. After consultations between the Minister, of Labor and representatives of the railway employes, the provisions for compulsory arbitration and penalties have been dropped

The main provision of the bill as recast sets forth that where a difference exists between any railway employers and railway employes, and by reason of failure to readjust such difference a railway lockout or strike What fears of imaginary evils, conduce has been or is likely to be caused, with the distress after eating, the sourness or the regular and safe transportahas been or may be interrupted, the Minister of Labor may, either on the application of any party to the difference or on the application of any being given. A parusal of the whole Philadelphia, Pa., who was a great sufferer, et, cause inquiry to be made into municipal corporation directly affect-Her statement made in her 77th year is the same. For this purpose a board that she was completely cured of it and and of arbitrators is to be established by its attendant aches and pains, as others the Minister, to be composed of three persons, of whom the parties to the dispute are to name one each. The third is to be named by the other That acts on all the digestive organs, two arbitrators or by the parties to

For the purpose of such inquiry the board is to have the power of summoning witnesses and requiring them to give evidence on oath, and calling for the production of such documents and things as are deemed requisite to a full investigation. Atter making full and careful inquiry into the facts and circumstances o any dispute the board will make written report thereon to the Mints ter, and such report will embody the board's findings and recommends tions. The report will be published in The Labor Gazette without delay. and in the annual report of the

Each arbitrator will be paid bir actual traveling expenses, and cluding the chairman, in addition \$10 for each day that he shall attend a meeting of the board or be traveling to and from his home. The chairman will be paid such remuneration as the Governor-in-Council deems reasonable. Witnesses summoned by the board are to be titled to free transportation.

It will be seen that in place of permanent board of arbitration the Dominion of in each of the provinces a speciai board is to be constituted to investigate each dispute as it may arise. The purpose of the bill is to enable both parties to difference and the public as well to ascertain the facts and arrive at a reasonable basis of settlement. It is expected that public opinion will have an important influence in bringing about a settlement.

Windsor, Feb. 3.-William Brisbon charged with manslaughter in connection with the death of his wife will be tried at the spring assizes.
