EXPRESS STRIKES LOCAL.

Care Crushed to Pieces at Tilsonburg-No Passengers Hurt.

Tilsonburg, Jan. 31.-A rear collision occurred in the M. C. yards here about 4 o'clock yesterday morning, when No. 11 westbound flyer ran into a local freight train, which had fust pulled out from siding. The flyer struck the caboose of the local, amashing it into fragments, and then ploughed through ave or six other cars, most of which were crushed into kindling wood and scattered all along the embankment. One was telescoped and stands its full length in the air. The of the express engine was smashed into atoms. Nobody injured, however, except the engineer, whose knee is hurt. Very little damage was done to the fiver, the passengers not even being much disturbed by the sudden stop.

Struck by Lightning.

Sydenham, Jan. 81. - Thomas Leonard's barn, in Hartington Township, was struck by lightning in the big storm which visited this metion Thursday night and was completely destrayed

Frankville, Jan. 81.-The barne of Wesley Soper, two miles east of here. were struck by lightning and burne Thursday night, together with 21 cattle, 80 hogs, a thresher, two feed crushers and other machinery. Less about \$2,400; Ingured for \$800

Want a Larger Grant, Taronto, Jan. 21 .- The Ontario Best Sugar Association called Premise Ross yesterday and asked for a larger grant to carry on their educational work. The present grant is \$200 a year, but during the past couple of years, a large amount of money had been invested in the en- by vivid lightning and torrents of tarprise. About \$2,000,000, and rain. the output is now about 20,000,000 pounds of sugar. The Premier promised consideration.

Minister of Lands Accused. London, Jan. 31,-The Times cor-

respondent at Melbourne, Australia. says Victorian Minister of Lands Mc-Kenzie, who has been highly respected, has been accused of improperly obtaining public lands for his own purposes. He indignantly denies wrongdoing, and has resigned the portfolio. The courts are making an inquiry, and a select investigating sommittee has been appointed,

MEN WERE INJURED.

After 19 Hours the Electrical Famine Which Besulted Was Ended-7,000 Feet of Cable Were Ruined and Power Company's Less Is About

> \$50,000 - Factories Were Shut Down.

Niagara Falls, N.Y., Jan. 81.-The plant of the Niagara Falls power House was damaged from an unusual cause Thursday night by a bolt of lightning which struck a cable with defective insulation, causing a short circuit, which blew up a transformer in the power house. The large cables leading from the generating room to the transformer room were soon ablaze, the flames communicating to the transformer house. There was somewhat of a delay in the response to the alarm on the part of the firemen. When they did arrive a large amount of water was poured into the building and at 12.45 o'clock yesterday morning the flames were extinguished. No serious trouble has ever been experienced from lightning at the power house, and, coming in January, it is regarded as most extraordinary.

At 6.30 o'clock last night the temporary repairs at the Niagara Falls and Conduit Company's plant were completed, and the electrical famin along the Niagara frontier, due to the early morning fire started by a flash of lightning, was practically at

Four Mon Badly Burned.

Power was sent out from the plant an hour before that time, but it was not permanent, owing to a short circuit, which occurred in the power house shortly thereafter, and which seriously burned four men, one of whom may die. The short circuit and the injury of the four men came as a climax to disconcerting accidents which had marked the day despite the fact that the repairing of the damage in so short a time is considered remarkable.

Never before since the establish ment of Niagara Falls power ha there been a delay of such magnitude. It was felt directly by thousands of people in Buffalo, Niagara and Lockport, and the Tonawanda and intermediate points. Hundreds of factories were shut down for the day, and the street car service was demoralized. Thousand of workmen employed in the factories along the river were temporarily thrown out of employment.

Official Statement.

The officials of the Power Com pany state, however, that the seri ousness of the situation was not so great as was first thought probable As a matter of fact the electrical famine lasted 19 hours. The worst of it was over last night. On the Buffalo line 10,000 horse-power was ready for distribution at 6.30. der ordinary conditions 15,000 horse-power is used there.

Charles R. Huntley, vice-president of the company, said that by 10 o'clock last night all of the necessary additional power would be ob-

E. B. Rankin, vice-president of the company, made the following statement last evening: "The cause of the fire was a bolt of lightning. which entered the transformer room and set fire to one of the cables, upon which the insulation was worn. The flames communicated to the cable in the stone arch over the intake, and in a short time the roof of the arch and the transformer house were ablaze. The cables were destroyed in a short time, and it was necessary to shut down power house No. 1. Operations in power house No. 2 were not interfered with in anyway. There was no damage to machinery in either power house. In all about 7,000 feet of cable were destroyed. There was a reserve supply of cable on hand sufficient to re-The loss by fire is estimated at

Were Terribly Burned, The men injured last night were Will Allen, H. Anderson, William H. Beam and William Milks, all of whom are electricians, and Superintendent Imlay. They were engaged in testing what is known as a feeder to No. 2 switchboard in No. 1 power house. A short circuit caused a blinding flash, which enveloped the unfortunate men. An ambulance was called, and the four electricians were taken to the hospital. Beam and Anderson were found to have been injured the worst. In places the bones of their hands were exposed to view, and in addition their faces and necks were terribly burned. Allen was burned severely about the hands and face, but not to such an extent that the hospital. The manner in which the short circuit was caused in un-

Many Factories Shut Down. Lockport, N.Y., Jan. 31 .- Twenty of Lockport's 55 factories were shut down vesterday owing to the fire at Niagara Falls. Fortunately most of the large mills are run by water and steam power. The newspaper plants and smaller factories are idle. The street car sarvice is at a standstill, except one line, which is operated by Buffale newer, and the Buffale line. which is reduced to one car hourly. The city lighting is not affected. Trolley Lines Crippied. Buffalo, N.Y., Jan. 31 .- The trolley lines in this city, which get their power from Niagara Falls, were badly crippled early yesterday, but by the use of storage battery a number of lines were operated, although but a limited number of cars were run on them. On several lines no cars were rum. A number of plants in this city

were without light or power, among them the City Hall To Amond the Patent Act. Ottawa, Jan. 31.-Legislation will be introduced next seemon to amend the Patent Ack

## THE BYE-ELECTIONS.

North Gray, Terrebonne and Two Mounta'ns Probably on February 34-Agony of Hon. G. E. Foster Prolonged.

Ottawa, Jan. 31 .-- It is supposed that the bye-elections in North Grey, Terrebonne and Two Mountains will take place on February 24th. Mr. Foster's Agony Extended.

Owing, however, to the gerrymander of North Ontario, it has been found impossible at this season of the year to get the proclamations posted up in each municipality of the riding, as required by law, so as to enable the election to be held at the same time as those in the other con-

The riding of North Ontario extends from the Town of Uxbridge, which is within 20 miles of Lake Ontario, for a distance of nearly 150 miles north, into the remotest northerly parts of the district of Muskoka, it being only a few miles wide, at places not more than four. The constituency is actually longer than the distance from Toronto to London. By reason of its great length as compared with its width, the riding has for many years been known as "the fish-pole riding." It is possible that Mr. Foster, with his present practical experience as to this gerrymander, will be more favorable to its repeal than he was when Minister.

### CROMER'S TRIBUTE.

Through Efforts of Missionaries Native Are Learning That the Foreigners Visiting Them Ars Not Slavers.

Khartoum, Jan. 31.-Earl Cromer, British agent in Egypt, speaking at a banquet here yesterday, paid a tribute to the work of the missionaries in the Soudan, where the natives were learning that the foreigners visiting them were no longer slave dealers but the bitter opponents of slavery. He said:

"Let me testify to the special pleasure afforded me by a visit to the admirably conducted establishment of the missionaries on the Sobat River, and to that of the Austrian missionaries on the White Nile One is a Catholic institution and the other Protestant, but I know no distinction between such efforts among the pagans and they shall receive encouragement and assistance."

Lord Cromer spoke at length or the recent material, moral and intellectual development of the Soudan and held out the hope of early railway communication with Suskim, which would open up the Soudan provinces to the world's trade. He said there was a prospect of finding coal in the region south of Khartoum, which, in the drcumstances, was more valuable than gold.

Macedonia, and Austria and Russia Said to Be Agreed Upon Reforms

For That Country - Turkish Troops Defeat a Macedonian Band, London, Jan. 31.—The publication of a French yellow book, detailing

the efforts made by France and Russia during the past year to induce Turkey to institute reforms in Macedonia, which resulted in the tour through the Balkans of Count Lamsdorff, and in the Austro-Russian agreement regarding press reforms in Turkey, is held to point to the fact that an acute phase of the Balkan question has arisen. The rumors that Austria is preparing a squadron at her naval port of Pola; the passage of the Russian torpedo boats through the Dardanelles vinto the Black Sea, and other incidents, are being recalled, while the official denials of mobilization rumors issued by the Austrian Government are received with scepticism, There have been lately several reports of hasty purchases of war material by Roumania, the Balkan States and Tur-

keyasova oz fayoos kod vali vlater Reports are current in Odessa that Austria and Russia have agreed upa joint naval coercion of Turkey in the coming spring to enforce the reforms in Macedonia, according to Prof. Hambery, who is supposed to be well informed as to the views entertained at Yildiz Kiosk, the Sultan believing that the intention is to wrest Macedonia from the Turkish Empire would prefer the risks of war to acquiesce in these European demands.
