DANIEL'S PROPHECY VERIFIED

'THE EASTERN QUESTION' BEING SETTLED AS FORETOLD.

Since the Medes and the Persians No Failure is Traceable.

(Communicated.)

"The Eastern Question," as announced, was taken up in the Seventh Presbyterian Church Sunday evening. All who attended this service surely felt that it was an evening well spent. As an introduction to the subject for the evening the prophecy of Daniel xi. was traced through carefully, verse by verse, comparing prophecy with history; as each verse was studied, it was very remarkable to see and know how exactly it has all been fulfilled. Daniel xi. 1-2, takes us back through history to the Medes and Persians; the kingdom which overcame the Babylonians; next is introduced the kingdom of Greece, verses 3-14. When Alexander died his kingdom was broken and divided towards the four winds of heaven—v. 4, "next to his posterity." Fifteen years later his kingdom was divided among his four leading generals as follows: Cassander was given Macedonia and Greece; Lysimachus, the portion lying to the north of Palestine; including Thrace, Bithynia and some smaller parts of Asia Minor; Ptolemy had the portion to the south including Egypt, Libya, Arabia and Palestine; Seleucus had the East, Syria and the country to the River Indus. These divisions are to be reckoned from the standpoint of Palestine. The divisions of the kingdom were as follows: the King of the North and King of the South, according to these facts, Cassander was very soon conquered by Lysimachus, and his kingdom—Thrace and Macedonia—annexed to Greece; and Lysimachus was in turn conquered by Seleucus to Syria, so that the three are spoken of through the remainder of the prophecy. Whatever changes might occur, these distinct divisions of the empire must determine the names which these portions of territory should afterwards bear. Verse 14 introduces the Roman power. This power is the subject of prophecy from vs. 14-26. The distinctions noted would confirm the French power from vs. 36-39, during the revolution of 1793, when the bible was discarded, and the existence of the Diety denied, as the Voice of the Nation. The King of the North and the King of the South again appear on the stage of action, vs. 4-43.

We are now brought down to the time of the end, which began 1798 at the close of the papal supremacy. Egypt is still by common agreement the King of the South, while the King of the North has been for the past 400 years wholly excluded from the dominion of the Sultan of Turkey. To Egypt and Turkey, then, we must look for the fulfillment of vs. 40-45. The prophecy in vs. 40 calls for a conflict to spring up between Egypt and France, Turkey and Egypt, 1798, and history testifies that such a triangular war did break out in that year and Turkey conquered and remained independent until several years previous to 1810, when trouble sprang up between the Sultan and the Pasha of Egypt, 1839, when in a general battle between the two armies the Sultan's army was entirely cut up and destroyed and his fleet beaten and carried off. The Pasha into Egypt, gave up and positively refusing to give up and return to the Sultan, the Pasha of Egypt, in 1840 effected a settlement. Since that time Turkey has existed only by the sufferance of the whole four great powers. We see the whole prophecy has been fulfilled, thus far vs. 45, and it remains thus far only for Turkey to be pushed or driven out of Europe, which must certainly take place when "none shall help them."

The New Gas Proposition.

Mr. E. D. Morris, of Toronto, the gentleman who is making application to Lindsay Council for a franchise for the establishment of a gas plant, is unique by virtue of the statement in his letter that he seeks no other concession or bonus inducement. (That fact alone should suffice to favorably impress our citizens. He is at the head of a company recently incorporated under the name of the Collingwood Light, Heat & Power Co., the authorized capital being \$200,000, to establish a plant in Collingwood. The contract for the plant has been let, and the company hope to be able to furnish gas to consumers by the first of next October. It is the intention to manufacture carburetted water gas, which is said to be of a high quality for lighting and heating. Mr. Morris is offering \$20,000 of the stock to Collingwood investors, and the Bullfinch investors, and the Bullfinch says that the citizens are taking a deep interest in the proposition, being anxious to secure gas for summing up in their homes. Several large blocks of stock have already been subscribed for.
