London, Feb. 28 .- (C. A. P.) -- Anterday the Premier said the Government was considering the question of the payment of members. He pointed out that existing practice in colonies was, in Canada, when the session was more than 30 days \$2,500; session 30 days or less, \$20 for each day's attendance: Australia, £400 pounds a year; New Zealand, £200; South Australia, £200; Queensland, £300; New South Wales, £300; Victoria, £300; Cape of Good Hope, members resident within 15 miles from the House a guinea each day for attendance, more than 15 miles, a guinea remuneration and 15 shillings allowance for personal expenses for every day's absence from home on parliamentary duties; Natal, £1 daily traveling allowance for members who reside three miles or more from the place of assembly; Newfoundland, payments voted annually, the public service act of 1905 making provision for \$8,300 in salaries for 36 members.

BIG MAJORITY FOR BALFOUR.

Ex-Premier of Great Britain Elected

For the City of London. London, Feb. 28 .- Arthur J. Balfour, the former Premier, yesterday was elected to the House of Commons for the City of London, by a majority of 11,340 over his Liberal free trade opponent, Thomas Gibson Bowles. The vote was a strictly party one, the candidates receiving fewer votes than were cast for the Conservative and Liberal nominees at the general election, when the Conservative majority was 10,306. Mr. Balfour, who is not well, was unable to appear at the Guildhall, where the votes were counted, but was represented by Miss Balfour, who, in speech, thanked the electors on behalf of her brother. The result of the election was a foregone conclusion. There was no celebration.

The result of the election was: 'Arthur J. Balfour, Unionist, 15,474: Thos. Gibson Bowles, Liberal, 4.134. Unionist majority, 11,340.

The bye-election was robbed of much of its expected excitement by the illness of Mr. Balfour, whose doctor has ordered him to remain in bed.

BRITISH COLUMBIA V. RAILWAY.

C. P. R. Given a Decision In the Privy

London, Feb. 28 -- (C. A. P.)-The Privy Council has given judgment on the appeal of the Attorney-General of British Columbia versus C. P. R. Sir Arthur Wilson delivering judgment concluding, said:

"It is not enough to say that the language of the C. P. R. Act must prevai over that of the Consolidated Railway Act, which applies only so far as it i not inconsistent with the special act, and it is clear in their lordships' opinion that the power given to the company to appropriate the foreshore for the purposes of their railway of necessity includes the right to obstruct any rights of passage previously existing across the foreshore. The appeal should be dismissed, and the appellant will pay

The C. P. R. claimed the right by its agreement to close Cambie, Abbott and Carrol streets in Vancouver, which led to their yards and wharf. The company won in the Canadian courts.

INQUIRY THOROUGH,

Hon. Mr. Fielding Regarding the Insurance Investigation.

Ottawa, Feb. 28.-Mr. Fielding issued a statement yesterday in which he said that the commission appointed Monday would inquire into "insurance affairs." Seemingly this would comprise every branch of the insurance business. It has been assumed in some quarters that the Superintendent of Insurance, Mr. Fitzgerald, will be a member of the commission. The Minister of Finance, however, thought it best that the constitution of the commission should be entirely independent of the Insurance | \$26,734.21. Department. The services of Mr. Fitzgerald and his staff will of course be at the disposal of the commission whenever required. The commission are also empowered to employ expert assistance whenever in their opinion such will be necessary. The secretary of the commission is Henry T. Ross of Bridgewater, N. S., a leading member of the Nova Scotia Bar.

Power Report Recommendations. The instituting of an international commission to decide upon an equitable distribution of the source of electrical power contained in Niagara Falls, and a careful inquiry by the Ontario Government into the charters granted to Ontario power companies; these were the important recommendations made in the annual report of election. the Niagara Falls Park commissioners submitted to Legislature yesterday, in the following form:

1. That the whole subject involving the further diversion of water from Niagara River for power development in excess of the charters now being exercised be referred to an international commission appointed by the Governments directly interested, territorially or otherwise, in order that an agreement may be arrived at between such Governments as to further withdrawals of water on both sides of the

2. That a careful inquiry be made by the Government indicated respecting the charters already granted, but in regard to which no works whatever have been commenced, with a view to cancellation of the same.

Ten Additional Charters. There had been charters issued for quantity, and "should their undertakings be carried out upon anything like the scale, adopted by the companies whose works were now in course of construction, there could be no question but that the falls of Niagara as a scenic spectacle would be most seriously impaired, if not entirely destroy-

Application For Increased Privilege. Chairman J. W. Langmuir submitted a memo, re. the application of the International Rallway Co., to be allowed to increase its electrical output. It was recommended that the company pay \$2,000 in addition to the present \$10,000 for the privilege of generating a maximum of 4,000 horse-power, and that, by paying an added \$1 per horse-power per annum, the company might generate up to 10,000 horse-power, and that the power be used exclusively for operating and lighting railways.

Park Commissioner James Wilson reported strongly against the building of a dam across the Niagara River, near Fort Erie, as recommended by the United States deep waterways commisiso in 1900. It was asserted that the main object to be served would be the lessening by \$1,375,000 of the cost of a 21foot channel through from Buffalo to Lake Huron.
