But hard wheat flour was persistently pushed and prejudice has been overcome. The women tried it, succeeded with it and appreciated it.—To-day hard wheat flour is the favorite for pastry as well as for bread.

The flour that is doing the most for the reputation of hard wheat flour is the brand known as

### Ogilvie's Royal Household

It is hard wheat flour at its best—milled by modern methods, retaining all of the good of the wheat and none of the bad—it is without an equal for every kind of baking in which flour is used.

Talk to your grocer about it—if he isn't enthusiastic, it's only because he isn't informed.

### WATER RATES OF LINDSAY AND OTHER TOWNS COMPARED.

#### Some Towns Enjoy Cheaper Rates, and a Good Many Have to Pay Higher Charges—Some Interesting Figures for Water Users.

We are indebted to the Peterboro Examiner for the following compilation of water rates charges in 35 of the leading towns and cities in the Province. The figures were supplied for the guidance of Peterboro Water Commissioners, and may be accepted as reliable. Lindsay water users may regret the fact that a number of towns enjoy cheaper rates, yet there is some consolation in the fact that whilst they are paying more than some, a number of towns are paying a considerably higher rate—in fact Lindsay may be said to be near the happy medium between the maximum and the minimum, ten towns and cities paying a higher rate, three or four within a few cents of our total, and half-a-dozen other places within a dollar, or less. Here are the figures:

Leave for Southern Saskatchewan—Address and Presentation. Quite a number of friends of Mr. L. T. Lowndsbrough and family, lately respected people of Mariposa, assembled at his home on Wednesday, evening, March 7th, to join with them in an evening's social chat and merriment. Mr. Lowndsbrough having decided to try his fortune in the West, and having made a location near Gainsborough, in the southern part of Saskatchewan, his many friends thought it a very fitting time to give him something of a parting send-off. A very pleasant evening was spent in games and social chat. A sumptuous supper was provided, and after the inner man was satisfied the following address and presentation were given Mr. Lowndsbrough and his family: Dear Sir,—A few of your most intimate friends, having assembled at your home on this, the occasion of your departure from our midst, feel that we could not let the opportunity pass without in some slight way, showing you our appreciation and the high regard in which you and your dear family are held by us. This we have met in your home and in our aspirations, were one and the same thing—the well wish of our Heavenly Father and thereby, lay up treasures in heaven. On this occasion, while our hearts are buoyant and hopeful, and the future seems full of rich promise, and as you are about to begin a new life, we have come and gone and done so repeatedly, and have always felt that our joys and sorrows, our aims and aspirations, were one and the same thing—the well wish of our Heavenly Father and thereby, lay up treasures in heaven. Another reason for the change is that it is almost impossible to keep a first-class body builder in a small shop. He cannot improve himself; he has no designer to teach him; conditions are unfavorable to-day and a badly ventilated and heated; he is building a good Carriage to-day and a Lumber Wagon to-morrow. He knows that under those conditions it is impossible to do first class work, and he naturally goes to the first-class body shop. These are the results of the changed conditions during the last few years, and they are facts that cannot be denied. In future I shall take advantage of those changes, and will place within reach of the people of this country the best results of the brains, capital and experience of those large companies, and give you the nearest and best show ever offered for sale here. My show rooms will be fitted up and goods ready for inspection ABOUT THE MIDDLE OF MARCH. Wait until then and see the latest and best rigs in Canada. I have 75 Buggies of my own make still on hand.

### A CHANGE IN BUSINESS

Important announcement to every person interested in WHEEL VEHICLES

Having leased my workshop I will not in future do any repairing, but will give my undivided attention to the production of the best and most up-to-date Buggies and Wheel Vehicles of every description. In future I shall purchase all Carriage parts in the white, finished ready for the paint shop. By doing so I can see the material and workmanship in every rig.

My reasons for this change I will state as briefly as possible. First-class designers, send them to the Carriage centres of the continent and get the latest and most improved styles and place them within reach of the dealer at reasonable prices.
