

# MIDGETS' GUESTS OF MANAGER PARKIN

Wearers of the Blue and White and their Supporters Enjoy Pleasing Function—A Successful Season Under Good Management.

From Evening Post, March 17.

- The Team That Was Honored**
- L—Goal—B. Newton.
  - 1—Point—V. W. Sullivan.
  - N—Cover Point—A. McWilliams.
  - D—Rover—W. Stoddard (Capt.).
  - S—Centre—R. McDougal.
  - A—Left Wing—A. P. Maxwell.
  - Y—Right Wing—K. Randall.

The above is the team known as the Lindsay "Midgets," which have done great credit to themselves during the hockey season of 1905-6. "We are it" was the expression used by Manager "Artie" Parkin last night at one of the most pleasing of our parties and smokers, and the team fits well.

Lindsay's repertoire of home brews were entertained last night, along with the officers and a few supporters of the Club, by the popular manager, Mr. Parkin, in his comfortable and nicely decorated rooms. Among those present were the members of the team, J. A. Carroll, Dr. Brown, A. C. Gillespie, W. Roenigk, W. Shelton, Ed. Armstrong, J. Fullerton, R. Rennie, Mr. Gillespie, (Peterboro), J. Doran, G. Brady, Ford W. Moynay, W. House, Geo. Reilly, F. Taylor, M. Wilson, P. Menzies, A. Simpson, Arthur S. Parkin, J. A. C. MacPherson, G. Johnston.

Space forbids us going into details over the baskets of bouquets of congratulatory speeches showered on the Midgets and their popular manager, but it may be in order to make a few comments. Beyond a doubt Lindsay has had the fastest team this year that they ever had. It has been the first year in the town's history that they have won out their district. The boys this year have made a most creditable and successful showing.

Out of fifteen games played this season they have won nine, lost five and played one tie game, with a total of 100 goals scored by their opponents. The tally card used last night read as follows:

- 1—Port Perry 2, Midgets 3.
- 2—Peterboro 1, Midgets 3.
- 3—Parkdale 4, Midgets 9.
- 4—Fenelon 1, Midgets 9.
- 5—Upper C. C. 3, Midgets 15.
- 6—Upper C. C. 5, Midgets 18.
- 7—Midland 4, Midgets 11.
- 8—Midland 3, Midgets 11.
- 9—Port Hope 4, Midgets 3.
- 10—Port Hope 4, Midgets 0.
- 11—Uxbridge 3, Midgets 6.
- 12—Fenelon 1, Midgets 14.
- 13—Fenelon 10, Midgets 2.
- 14—Fenelon 3, Midgets 5.
- 15—Cobourg 4, Midgets 12.

Total, Lindsay 400, opponents 52. The town has every reason to feel proud of her hockey boys. They have done and brought honor to the old town of Lindsay, and through their efforts we are sure to be remembered with trophies such as other teams have, still they have won much glory. The results which followed last year's hockey combine, with a few exceptions, this year, and Manager Parkin had a hard row to hoe all the way. It is certain had he not taken hold of the team Lindsay would have been unrepresented in the O.H.A. this season. Although not favored by the gods, Mr. Parkin stuck at the game, and when things looked very dreary kept a stiff upper lip and bore reverses cheerfully, with a view to prove a student to hockey sports next year to aim at having a winning season on the ice. A winning team does more, perhaps, to bring a town before the public than any other factor. The people of Peterboro recognize this. And if Lindsay has a championship team next season it will certainly do more to spread the name of Lindsay from one end of the Province to the other, than our Board of Trade can accomplish. People will know that they represent a place where there is something doing.

**SOME FIGURES.**

For the first round in the O.H.A. the schedule called for 28 senior, 145 intermediate and 46 junior games, a total of 219. Of these 28 senior contests, 115 intermediate and 42 junior games were played, a number of tie games in the junior series necessitated.

## Suffered for 23 Years With Kidney Trouble.

CURED AT LAST BY GIN PILLS.

Whether you are just beginning to feel the first twinges of kidney pain—or whether you have tried for years to find relief—Gin Pills will cure you. Surely you can't doubt their virtues after such a letter as this:

"I sent for a free sample of your Gin Pills some time ago, and found them to give me great relief, so I put myself under the treatment, and am now using the third box, and feel myself entirely cured. I have suffered with my kidneys for 23 years. At the time I began taking Gin Pills I could not turn in bed without pain. If I moved at night, the pain would be so great that it would wake me up. Now I am free of pain, and feel as well as I did 23 years ago. I feel it my duty to let you know about Gin Pills, so that it might be the means of relieving some other sufferer."

"HENRY WAKEFORD, Toronto."

Gin Pills hold out a guarantee of certain, quick relief. They will stop the pain—kill the sick kidneys—and build up the whole system—or your druggist will refund your money. That shows our confidence in Gin Pills. We will do more. We will send you a trial box of Gin Pills absolutely free if you will write asking for it and state the name of the paper in which you see this. You can thus test them at our expense and see for yourself whether or not Gin Pills are all that we claim them to be. Gin Pills are for sale at all druggists. See a box—4 boxes for \$2.50. The Bole Drug Co., Winnipeg, Man.

# TRENT VALLEY CANAL ROUTE

STRONG ARGUMENTS AGAINST THE TRENTON OUTLET.

Port Hope or Cobourg Declared to be Vastly Superior.

The following letter is worthy of careful consideration by the members of Lindsay Board of Trade and every citizen who is active in the possible benefits in the way of cheap freights to be derived by the people of this section of country in case the canal seeks the short outlet to Lake Ontario:

The Dominion Government is now considering the relative merits of the different routes for the Trent Valley Canal outlet from Rice Lake to Lake Ontario. In making a choice of routes the Government is bound, in the interest of the people of this country, to choose the route which will be to the advantage of the territory most interested and to this country as a whole.

That the eastern, or Trenton route is largely of rock and will entail an enormous additional outlay of money, is an established fact, besides being many lines longer than either the Cobourg or Port Hope route. Rock excavation will not cost much less than two dollars per cubic yard, and I believe that that will be a very conservative estimate. The western routes have little or no rock cuttings and the earth excavation can be made for less than 25 cents per cubic yard, or at about one-eighth of the cost of rock excavation.

The extra cost of maintenance of several railroad bridges, which must be paid for by the Government, will be a very large item in the added expense if the eastern route is adopted, while the cost of maintenance of buoys and light-houses to mark the route in Rice Lake will add to the grand total of the outlay. Another most potent factor in favor of the western route, and one that should not be lost sight of, is that navigation to Peterboro from Ontario lake ports via either Cobourg or Port Hope will be extended from three to five weeks longer than by way of Trenton. The Ontario river is a fast flowing stream and opens up in the spring much earlier than Rice Lake, or the seventy miles of frozen Bay of Quinte, but a channel could easily be broken across Rice Lake from the mouth of the Ontario, a distance of two or three miles to the canal entrance, and a break would be utterly impossible through the length of Rice Lake and the Bay of Quinte, a distance altogether of about one hundred miles. The canal from Rice Lake to Cobourg could be unwatered in the winter and watered when desired in the spring.

**THE WESTERN ROUTE.**

would also be of immense value on account of the minimum danger of being frozen in by the shorter route in the fall. Peterboro would most certainly gain immensely by having the shorter route and an added period of navigation at a time of the year when it most needed it in the importation of coal, etc. Besides the reasons given above, the fact that the western route is the largest outlet of Lake Ontario should be one to which large vessels could come without the danger of intricate navigation, and which would accommodate the vessels of the largest tonnage. This would be impossible were Trenton selected as the outlet, owing both to its situation and its shoal waters. I have had an extensive experience with the waters of the Bay of Quinte, having sailed boats years ago, and also in my business as a dredging contractor, improving the waterway and having no hesitation in stating that the Bay of Quinte, in foggy weather, is almost impossible

to navigate for several days together. It is to be hoped that the Dominion Government will carefully consider these conditions before making a selection.

The people demand an immediate completion of this great waterway and nothing less than an eight foot channel, as a lesser draught would simply be throwing money away. I believe Cobourg should be the Lake Ontario end of this canal, and have good reasons for so believing. But, however, the fact remains that the western route will save millions in construction, have a longer period of navigation, will be a much shorter route, and will be able to accommodate vessels of the largest size, besides costing infinitely less for maintenance. No private interests should be considered in the selection of a route, and the fact that capitalists have acquired interests along the Trent river should be no reason why that route should be selected, and the interests of the people of the whole country sacrificed—Yours etc., C. A. MUNSON.

**A SPRING TONIC.**

Dr. Williams' Pink Pills Make Rich, Health-giving Blood.

Cold winter months, enforcing cold confinement in over-heated, badly ventilated rooms—in the home, in the shop, and in the school—sap the vitality of even the strongest. The blood becomes clogged with impurities, the liver sluggish, the kidneys weakened, sleep is not restful, you awake just as tired as when you went to bed; you are low spirited; perhaps have headaches and blotchy skin—that is the condition of thousands of people every spring. It comes to all, unless the blood is fortified by a good tonic—by Dr. Williams' Pink Pills. These pills not only banish this feeling, but they guard against the more serious ailments which usually follow—rheumatism, nervous debility, anemia, indigestion and kidney trouble. Dr. Williams' Pink Pills are a healthy spring medicine. Every dose makes new, rich, red blood. Every drop of new blood helps to strengthen the overworked nerves. Overcome weakness that drives the germs of disease into the body. A thorough treatment gives you vim and energy to resist the torrid heat of the coming summer. Mr. Mack A. Meuse, Sluice Point, N.S., says: "I was so completely run down that I could hardly work. I decided to try Dr. Williams' Pink Pills, as I had heard them highly spoken of, and a few boxes worked a great change in my condition. I am again feeling as well and strong as ever. I did and can recommend the pills to all weak people."

It is a mistake to take purgatives in the spring. Nature calls for a medicine to build up the wasted organs—purgatives only weaken. Dr. Williams' Pink Pills are a blood medicine—they make pure, rich red blood and strengthen every organ of the body. Sold in 50-cent boxes or in a box of 25 for \$2.50, from Dr. Williams' Medicine Co., Brockville, Ont.

**SAVE THE POTATO MARKET.**

Ontario Potato Trade—Too Many Varieties Crown.

Uxbridge Journal: Potato-planting is approaching, and before it arrives there are some things worthy of consideration by the potato grower of this section.

The market for good potatoes is slipping away from Ontario to New Brunswick. The principal reason given for the change is that in New Brunswick one good white variety is grown, while here probably a hundred varieties are grown. The leading potato from the east is called in Toronto the Delaware, and is also so called in the Green Mountain. Some were planted here last season and yielded well. It is necessary that our growers are to recover and retain lost ground, it is necessary that they get down to a few good varieties, such as the Whiting, Empire State, or any other good variety. They must be white. A shallow-eyed, round potato is meeting with most favor in the market today.

It has long been held, too, that any size of potato was good enough for planting. Is this so? Do we not look for the best grades and seeds for sowing? Does the farmer improve his stock to his herd to improve it? There must be a reason, it may be found in the varying rules that he begins like. As much care, it is claimed, should be exercised in the selection of potatoes for planting as in the choice of any other seed. The practice of spraying for blight, another thing that should not be overlooked. It is largely practiced in the eastern provinces, and has undoubtedly had not a little to do with the success of the farming growers. It is usually done four to six times in a season, beginning about the last of June. The Bordeaux mixture is used.

The potato man up this way must wake up if they wish to receive fair returns for the labor and expense of growing and marketing their product.

**THE WEALTH OF COBALT.**

Nearly Two and one Half Million Ounces of Silver Mined Last Year.

The ore shipped from the famous Cobalt mining camp in 1905 aggregated 2,144 tons from the seventeen shipping mines in the camp. The following are the details of the output and the values: \$1,255,306; cobalt, 118 tons, valued at \$100,000; nickel, 549 tons, valued at \$2,698, an aggregate value of \$1,448,524. The returns in value would have been larger, but for the fact that during the latter part of the year the ore sellers received nothing for cobalt, nickel or arsenic, the buyers declining to pay for these ores, on the ground of difficulty in treating them. The Canadian Copper Company now have a plant in operation at Copper Cliff for treating these ores, and another company having bought the old Hoopman refining works at Hamilton is now installing a modern plant there.

# BARGAINS!

# BARGAINS!

As we have to vacate the old store by the 1st of April, we are arranging our stock for the greatest sale of Footwear that Lindsay ever saw. The date will be made known in due time. Our terms are Strictly Cash.

# P. J. HURLLEY,

SUCCESSOR TO N. HOCKIN.  
LINDSAY'S GREATEST SHOE HOUSE.

TOLD BY THE TEA CUPS.

GOOD OR BAD FORTUNE MAY BE FOUND IN THEM.

Here are a few Hints That May Help You to Get a Line on Your Future Life.

Reading fortunes from the tea leaves left in the cup, with the exercise of a little imagination and humor produce much merriment. It comes in opportunely at the doubtful half hour just after a "company," when the machinery of pleasure-giving is not always running quite smoothly.

After the tea has been drunk—leaving but a few drops to carry the grounds—the enquirer must make a wish, repeating it in mind three times, after which the tea cup must be whirled around vigorously to throw the grounds as much as possible into the upper part of the cup. This must be done three times from left to right, when the top is turned over into the saucer to "settle the affairs of the future," given three turns again from left to right and then handed to the fortune-teller, without looking into the cup one's self, or else, so the oracle says, the spell will be broken.

The prophet or prophesies then picks up and begins reading from the bottom of the cup (the past) and then around spiral fashion until the top (present or near future) is reached; for three cups may be used—one for the past, one for the present, and the third for the future.

A man is indicated by a long, hard leaf, with something that suggests a woman by a light-colored leaf that spreads to indicate a gown, or with something atop that may be imagined to represent a woman's headgear.

A figure in kneeling posture denotes an offer of marriage, either made or received. Groups of dots absent the suit will be rejected. The figure alone, surrounded by a group of grounds, promise a lover or sweetheart.

A figure alone with no grounds near means by its position in the cup.

A heart promises a love affair and much pleasure.

Two hearts, a marriage.

Two figures near together, with no grounds very near, means an engagement.

Three figures together is a sign of a speedy marriage.

A love letter is indicated by four dots forming a square. If near the top, it will be received in a short time. An extra dot within the square or just outside, means good news.

Three dots in a group promises the granting of your wish, as does a triangle.

A number of tea leaves, short and tall, means a company of great and small. Crosses, adversity. A ring, a happy marriage.

Dots in the form of a parallelogram, sickness or bad news.

Five dots, reaching in a long line that begins like a ladder, means a journey. Many dots clustered about the end of the line means many new friends and pleasures.

An anchor, if at the bottom of the cup, means success; at the top, love; in the middle, constancy. If surrounded by "clouds" the course of true love will not run smooth. A star, if surrounded by clouds, means happiness; if circled by dots, long life.

Mountain, a favor of persons of high position, social success. If clouded on its summit, ill-success in society.

Serpent, an enemy. If near the top of the cup, you will be successful; and, finally, turn him or her into a friend. If near the bottom and clouded around, the enemy will cause you sorrow.

Fish, lucky news from over seas. If clouds are near, the reverse.

Seven dots in a row, great prosperity.

A straight line, if surrounded by many grounds, foretells an illness. Wavy lines, if circled by dots, money; if cloudy, reverse of fortune, either past or to come—according to their position in the cup, near the bottom or top.

Tears are indicated by drops at the bottom of the cup, or by thick dots there.

A succession of large dots in line foretells difficulties to be overcome. Many fine dots among them, un-friendliness will be superadded.

A leaf folded over the rim promises something unpleasant.

If the rim of the cup is clear a happy future is assured.

A GUARANTEED CURE FOR PILES

Itching, Blind, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAGO OINTMENT fails to cure in 6 to 14 days, 50c.

# A CHANGE IN BUSINESS

Important announcement to every person interested in WHEEL VEHICLES

Having leased my workshop I will not in future do any repairing, but will give my undivided attention to the production of the best and most up-to-date Buggies and Wheel Vehicles of every description.

In future I shall purchase all Carriage parts in the white, finished ready for the paint shop. By doing so I can see the material and workmanship in every rig.

My reasons for this change I will state as briefly as possible. There are in the United States and Canada, several large Companies with unlimited capital, with the most improved machinery, with buildings put up expressly for the purpose, properly heated and ventilated in which all cement and glass can be used to the best advantage.

These companies are in a position to employ first-class designers, send them to the Carriage centres of the continent and get the latest and most improved styles and place them within reach of the dealer at reasonable prices.

Another reason for the change is that it is almost impossible to keep a first-class body builder in a small shop. He cannot improve himself; he has no designer to teach him; conditions are unfavorable—shops are badly ventilated and heated; he is building a good Carriage to-day and a Lumber Wagon to-morrow. He knows that under those conditions it is impossible to do first class work, and he naturally goes to the first-class body shop.

These are the results of the changed conditions during the last few years, and they are facts that cannot be denied.

In future I shall take advantage of these changes, and will place within reach of the people of this country the best results of the best capital and experience of those large companies, and give you the nearest and best vehicles ever offered for sale here.

My show Roadster will be fitted up and goods ready for inspection ABOUT THE MIDDLE OF MARCH. Wait until then and see the latest and best rigs in Canada. I have 75 Buggies of my own make still on hand.

# R KYLIE - LINDSAY

THEY ARE WANTED FOR THEFT

KEEP YOUR EYE OPEN FOR FOLLOWING PARTIES.

Chief of Police, Neilson has received the following Descriptions of Parties Wanted at Ottawa for Theft.

Chief of Police Neilson has received the following descriptions of parties wanted for theft by the Chief of Police, at Ottawa. Citizens should keep a watch for same and report to Chief Neilson:

Arrest Sydney Smith, aged about 18 years, height 5 feet 9 inches, clean shaven, rather dark complexion, wears navy blue suit, big shabby black overcoat, charged with stealing \$41. (4 tens and a one), also \$8.50, a silver watch and chain of old country make, and a silver medal. He is an immigrant and probably gives a wrong name. There is an English accent in his talk, and he is supposed to have come here from Toronto two weeks ago.

A party giving the name of Osborne, who left Ottawa Junction for the east Saturday morning, March 11th. Description, 5 ft. 5 in. tall; weighs about 135, rather pale, wears dark hair parted in middle, dark eyes, clean shaven, about 22 years old. Dark tweed coat and vest, pants slightly lighter in color, light fawn rain coat and light fur lined gloves. Charged with stealing \$6, a gold-filled watch, a pearl-handled pen knife with four blades. Had a bad cold and cough to match. Had coin of George III dangling from chain.

Afflicted With Rheumatism.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of the Herald, Adirondack, Canadian Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the most to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by all druggists.

Willie's Catastrophe.

This is the latest in the "Nonvenc Anthology" of Miss Carolyn Wells; Little Willie, in the best of sashes, fell in the fire and burned to ashes. By and by the room grew chilly. But no one liked to poke up Willie.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell.

Plausible (Exchange).

"How I pity the poor on such a night as this!" said Blaine, as he sat in his comfortable apartment.

"Then why," said Blubb, "do you put on your coat and go out and see if you cannot render assistance to some of them?"

"Ah," replied Blaine, "when I should not be so comfortable as I am now, and I might forget the poor, and begin to pity myself. The world is selfish you know."

Provisions of Ministry's Bill Are of Sweeping Character.

Ottawa, March 13.—Mr. Fitzpatrick's bill respecting money lenders is an exact copy of that introduced into the Senate by the present speaker, Mr. Dandurand, in 1900. It fixes the limit of interest on negotiable instruments, the principal of which is under \$500, at 12 per cent. per annum, such interest to be reduced to 6 per cent. from the date of judgment in any suit for the recovery of more than 12 per cent. has been charged the court may re-open the transaction and relieve the person under obligation to pay from payment of anything in excess of 12 per cent., and may exempt the creditor to repay any such excess. With regard to existing contracts the rate of interest, if the bill becomes law, will automatically be reduced to 12 per cent., and no more than 10 per cent. may be recovered upon any judgment already outstanding. In the case of instruments and contracts which were matured prior to the date of the bill, the provisions of the bill will apply from the date of maturity and performance. Nothing in the new law can increase existing rates. The penalty for violating the law will be \$1,000. The bill will not apply to the Yukon territory.

W. J. ELLIOTT, Principal.  
Corner Yonge and Alexander-sts.

**FIRE INSURANCE**

The Insurance Company of North America, Founded 1792.

In over one hundred years of honorable business experience this Company has paid out in fire losses to its policy-holders over \$15,000,000.00.

W. R. WIDDESS, Agent, LINDSAY, Ont.

**A LAW TO KILL WILLY.**

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell.

**SHILOH**

This remedy should be in every household.
