Dress Goods, Women's Ready-to-wear Garments and New Spring Novelty Goods.

MILLINERY OPENING On Wednesday and Thursday, April 4th and 5th

After months of preparation and careful choosing we are ready for our display of new Spring Goods.

It will be a fashionable display but no less a practical one—utility linked with beauty, service with style, refinement with richness, the wearable with the novel, if inexpensive, nevertheless tasteful—all of which we have had in view for the dress ideals of Lindsay women.

You will not have to go the world's fashion centres for the new things. We've brought them here direct, the best ideas of leading minds in women's fashions.

New things—hundreds of them—patterns new—colors rich and sparkling—the store overflows with them. How the eyes delight in such color revelry.

But how can we tell about them?

There's a treat for those who come and see. The Ford store believes in shoppers—for how can we introduce the new things if we do not encourage people in examining "not a museum" of course not; our opening would be worth an admission fee to every woman who gives a thought to fashions, but it is free to all and everybody is cordially invited.

THE BUDGET DEBATE

New Agricultural Societies Bill Read a First Time.

PRO RATA GRANTS TO FAIRS In Proportion to Money Spent on Agriculture—Fines for Horse Racing—Liquor Must Be Prohibited on Penalty of Forfeiting Grant—Similar Penalties for Gambling and Indecent Shows—After Autoists.

Toronto, March 28.—The debate on the budget was resumed in the Legislature yesterday, continuing until after 10 o'clock at night, when Mr. Thompson of North Wentworth, who was speaking, moved the adjournment. He will continue his address on Thursday.

Messrs. McGarry, Duff and Lewis were the speakers for the Government side, and Messrs. Hishop, Preston (Brant) and Thompson for the Opposition.

Hon. Mr. Ross elicited from the Government side the information that the mining bill would be brought down this week, the education bill is in the hands of a printer, and the university bill awaits the report of the commissioner.

Premier Whitney, replying to other questions by Hon. Mr. Ross, said the Ministers were learning caution. They might promise to have certain measures ready at a fixed date, but if untoward events defeated their intention some might be inclined to blame them.

Hon. Mr. Ross thought that while the Government was taking lessons in caution it might also take a few lessons in promptitude, to which the Premier replied that the Government was in a receipt mood.

The Graduate Nurses' Association of Ontario bill was referred to a Select Committee as follows: Hon. Mr. Willoughby, Hon. Mr. Beck, Hon. Mr. Reame, Hon. Mr. Hanna, Hon. Mr. Cochrane, Hon. Mr. Pyle, Messrs. Crawford, Harcourt, Preston (Lanark), Joyce, May, Carswell (Hamilton), Nilson, Graham, Lennox, Gamsay, Lewis, Smellie, and Preston (Brant).

Agriculture and Arts. Hon. Nelson Montet's bill respecting agricultural societies was read a first time.

The old agriculture and arts act is divided into three acts, one respecting agricultural societies, one respecting horticultural societies, and a third respecting provincial societies. Heretofore agricultural societies were organized according to districts and townships. This system is done away with by the present act, which makes no distinction among societies. Each society will be known according to the place which is its headquarters and at which it holds its annual exhibition.

The new act will make it impossible to organize a new society within twenty miles of the headquarters of an old society, except if it is established in a different manner from the old society. Agricultural societies will be permitted to use their funds for combatting insects and weeds should they become a pest in the section.

The method of dividing the grant is changed. Heretofore district societies have drawn a grant of \$380 each, while the township societies in each district have divided among themselves the sum of \$420 in proportion to the number of paid-up members.

Grant Divided Pro Rata. It is now provided that the entire grant of \$70,000 be divided pro rata among all the agricultural societies in proportion to the amount expended in the previous year for agricultural purposes. This is specified in the act as being for the holding of spring stallion shows, prizes for agricultural products, money spent for agricultural and horticultural periodicals, for the importation of pure bred stock, for ploughing matches, for seed fairs, crop competitions and good farm competitions, for the destruction of noxious weeds and pernicious insects.

It will not include the running expenses of the society, officers' salaries, or any funds used in paying for special attractions. Information regarding this expenditure must be set forth by affidavit on or before the first day of March. This will enable grants to be distributed earlier than formerly, so that societies will secure the money long before the shows are held. No grant in New Ontario, where grants shall be on the basis of double those of the organized counties.

Trials of Speed Allowed. Horse racing, there is no change, except that a clause provides in case there is a conviction under the section the society shall be debarred from receiving a grant in the following year. This means that "trials of speed" under the regulation of the officers of the society are permitted, but horse racing is prohibited, and any person guilty of a violation of the law is liable to a heavy fine.

The act regarding gambling and games of chance is strengthened. The officers shall prevent all immoral or indecent shows, wheels of fortune, dice games, pools, coin tables, draw lotteries are debarred, and there is a provision against anyone introducing a gambling device upon the fair grounds.

The sale of liquor is strictly forbidden under the act. Special Grants. Another new feature is a provision dividing a sum not to exceed \$5,000 between the shows at Toronto, Ottawa and London, provided the financial returns are made to the Minister and the provisions relating to gambling, side shows, etc., are enforced. The act goes into force Feb. 1, 1907.

After the Autoists Again. Mr. Sutherland of South Oxford is after the autoists again. He introduced his pet piece of legislation yesterday, and, if it passes, county councils may by bylaw prohibit, restrict, or regulate the operation of motor vehicles on any highway or part of a highway. The bill provides that motorists take extra precautions on country roads, even to facilitating the passing of frightened horses. In case of accident the operator must give his name and address

British Policyholders Interests In House of Lords.

BRITISH MANAGER RESIGNS Mr. Haldeman's Resignation From the Mutual Life Insurance Co. of New York—N. Y. Assembly Legislators Mutual Directors Out of Office—Three Big Men to Be Arrested In City of New York.

London, March 28.—The Earl of Grand (Liberal), in behalf of the Board of Trade, replying in the House of Lords yesterday to the Earl of Onslow (Conservative), who on March 5, gave notice of his intention to ask the Government whether, in view of the disclosures made regarding certain American insurance companies, it intended to compel foreign companies doing business in Great Britain to keep in this country a sufficient proportion of their securities to cover the claims of British policyholders, said the Government would appoint a select committee to consider the question.

In introducing the subject, the Earl of Onslow spoke strongly of the alleged practice of the officers of insurance companies in advancing large sums to companies in which they were personally interested and of the control of the three large American companies doing business in Great Britain.

No Guarantee of Safety. He reviewed the evidence of the Armstrong committee from which he concluded that there was no guarantee that British policyholders might not awake some morning to find that the assets had disappeared.

In England, Lord Onslow added, a quarter of a million of people were interested in the affairs of the American insurance companies and the country could not allow that the slightest risk of loss should exist for those who had invested their small savings in insurance. He hoped the Government would introduce legislation such as had been adopted elsewhere compelling the companies to deposit approved assets to meet their liabilities.

Not Unreasonable. During the course of his reply the Earl of Grand said that the suggestion of a guarantee to policyholders on the part of foreign insurance companies was not unreasonable. The Government had carefully considered the matter and had concluded that the best way to meet the request was by the appointment of a select committee which he hoped would be able to move shortly.

British Manager Resigns. D. C. Haldeman, British manager of the Mutual Life Insurance Co. of New York, has resigned, owing to differences of opinion between himself and the New York officers over matters which he considers of vital importance to the British policyholders.

Legislating Mutual Life Directors Out. Albany, March 28.—The Assembly yesterday advanced to a third reading without debate the bill of the Armstrong committee legislating from office the present directors of the Mutual Life Insurance Companies in this State on Nov. 15th next, and providing for the election of their successors under the direction of the State Superintendent of Insurance.

To Arrest Big Men. New York, March 28.—District Attorney Jerome yesterday appeared before Magistrate Moss, in the Tombs Police Court and applied for warrants to be issued in testing the legality of the contribution of insurance companies' funds to political campaign committees. The names of no person or persons were mentioned at the time.

Mr. Jerome also suggested that if Ilyan if he would not sign as a magistrate, issue a warrant for the arrest of George W. Perkins, former vice-president of the New York Life Insurance Co., in order that a writ of habeas corpus might be obtained and the matter taken at once to the higher court.

Mr. Jerome also suggested that if contributing to campaign committees by officers of the insurance companies constituted larceny, the matter involved Chairman George B. Cortelyou and Treasurer Cornelius N. Bliss of the Republican national campaign committee in a matter of receiving stolen goods.

Magistrate Moss said concerning the matter: "I told Mr. Jerome very frankly that if a crime had been committed he would have to tell me about it. I told him that in my judgment that could be best done by deposition, and he agreed to submit them to me. The names of no person or persons were mentioned at that time."

Taken Ill on a Car. Detroit, March 28.—Taken from a Port Huron interurban car at noon, Duncan McPhail of Camarache, Ont., remained in an unconscious condition at the Emergency Hospital until 3:30 Monday night, when he died. McPhail became ill on a car and could not explain his illness. A stomach pump was used, but the man continued to sink. A post-mortem examination showed the cause to have been apoplexy.

Goos For Trial. Prince Albert, Sask., March 28.—James Sinclair, the D. R. O. in Prince Albert district, has been committed for trial for ballot-stuffing and conspiracy. The Provincial Righters are the accusers. Sinclair is out on \$2,000 bail. T. J. Agnew is the justice of the peace who is hearing the case.

Von Buelow to Resign. Vienna, March 28.—The newspapers yesterday morning published Berlin dispatches asserting that Chancellor Von Buelow is about to resign, and that he will be succeeded by Prince Hohenhausen-Langenberg.

Mother in the Toils. Toronto, March 28.—Yesterday Mrs. Ferguson was arrested for assisting her boy to escape from Mimico Industrial School. She didn't produce the boy, but was allowed out on bail.
