Manager

A Most Creditable Issue.
This week the enterprising proprietors of the Newmarket Era have launched a new illustrated edition of the Evening Life in Newmarket. The scope of the several business men of the town as a whole are catchy and interesting.

BREEZY LOCAL BREVITIES

GATHERED BY POST REPORTERS ON THEIR DAILY ROUNDS

What is Happening in Town and the Country About Us.

—Crosley and Hunter converted 70 souls in Meaford in one week.

—Peterboro Trades Council advocate the building of sewers by day labor.

—The people of Port Hope are making for power to establish a lighting plant of their own.

—The owners of some of our local sawmills are fighting on commencing work in about two weeks.

—One thing Peterboro has not given up during Lent is the hope of having the Trent Canal finished.

—The spring poets had a better not sing "Hall, Gentle Spring," lest the weather man might trot out a hail storm.

—The sum of \$6000 has been granted by the Ontario Government for the improvement of roads in Haliburton county.

—Northumberland always on the edge of a "Bogus" is a Haliburton county man who is selling "Bogus" suits. See them before purchasing—wif.

—Gould Bros. sold their fine "Atlantic" suit for \$100. The price was \$150.00.

—A student here in better than other schools but one of the students who followed directions.

—Your money will earn a 1-2 per cent. on deposit and a 3-4 per cent. on savings.

—Coughs, colds, hoarseness, and other throat ailments are quickly relieved by Creosote tablets, ten cents per box. All druggists.

—Messrs. J. H. Delamere, Thos. Rogers and Thos. Fowery, will compose Haliburton County Board of License Commissioners for the current year.

—Mr. Wm. Prust license inspector in Haliburton, for many years, has been dismissed. Mr. J. R. Erskine, of Haliburton, is the new appointee.

—Another win has taken place for the Local Optimists in Owen Sound. The protest case has been dismissed by Judge Hatton and each party pay their own costs.

—About fifty inmates are now comfortably housed in the Victoria County House of Refuge, some of whom are able to do light work and others are unable to do anything.

—Wm. Scott, of the east ward, was cured from a crippled condition in less than one week, by less than one bottle of Dr. Ross's Rheumatic Remedy. Ask him about it—wif.

—Mrs. F. Mullett, formerly of Dundas & Flavelles, Limited, now occupies the parlors over Boxall & Mathies for the purposes of dress making, fur remodeling and repairing.

—The Brockville Public School Board, by a unanimous vote, has decided upon introducing the teaching of domestic science on the re-opening of the schools after the next mid-summer holidays.

—Mr. James Roche, of Ops, has purchased the "Hutton Grove" farm which is said to be one of the best farms in the township. The price of it was \$6,500. Mr. Roche is now the owner of 500 acres.

—Mr. Robert Chambers has recently added to his marble cutting plant a pneumatic polishing machine, which is the only machine of its kind in Canada. Mr. Chambers believes in keeping his establishment in the front rank.

—Leigh R. Knight, barrister, William-st., has a very choice farm for sale just west of Omemeo, 110 acres, good soil, splendid buildings, close to station and public and high schools. Fresh water stream running near barns for stock—wif.

—Mr. Wm. Fife, aged 70 years, a son of the late John Fife, who immigrated to the new famous "Fife" into Canada, was found dead last Friday morning at his home in Keene. The family is one of the oldest in the County of Peterboro.

—It is a strange thing that some people, for the sake of a dollar, will cripple all day, suffer all night, and lose time with rheumatism. "One bottle cured me completely," is the usual report after taking Dr. Ross's Rheumatic Remedy—wif.

—On April 9th, Orillia takes a vote on two money-by-laws. One is to raise \$35,000 to pay overdraft in the bank for the work done at Ragged Rapids. The other is to provide \$45,000 for construction of a permanent concrete dam. This will curtail an annual expenditure for thirty years of \$2,762.62.

—During the last couple of weeks a Government detective or inspector has made his appearance in a number of the rural country grocery stores in quest of information. It is said that they are all alleged to sell carbolic acid but it has been done. One or two of the merchants have been caught in the act and have had to pay the fine, \$20.

—If you have a baby or know of one of which a mother would say "It is not doing well," write at once to the Allen & Hanbury Co. Ltd., 66 Gerrard-st., east, Toronto, for a copy of the pamphlet on "Infant Feeding and Management," which contains information everyone is interested in the care of infants should have, and is sent free of charge—wif.

—Mr. Charles A. Roche, "1856 Old Boy" of Silver Creek, N.Y., was a name and address of any Lindsay or Victoria County "Old Boys" now living in Buffalo or Western New York. His object is the formation of a delegation of Lindsay's old sons from across the border to cooperate with the Toronto Association in their annual outing to Lindsay this summer.

—Haliburton cor. to Minden Echo: A party of surveyors have been engaged during the past week in locating a line of the railway north from this prosperous village. Several prospective routes were tried and abandoned because of the steepness of grade, but we understand a very desirable route has been found west of Hilmans hill, with a view of going via Cranberry Lake in West Gullford and up the valley of the Gull Lake waters.

Devoted to the Interests of Those Whose Aim is the Raising and Production of First-class Poultry and Eggs.

(Correspondence Invited from County Poultry Fanciers and Farmers.)

BUYING AN INCUBATOR.

Read and Follow Directions.

When you receive your incubator as soon as you uncrate it and open the egg chamber, get out the directions for setting up and operating and read them carefully. Do this before you attempt to set up machine. Read the directions twice or oftener until you are sure you understand them in all details. This is important. The directions have been prepared with great care by the manufacturer, and while necessarily somewhat general in character they are prepared to meet your needs, to instruct you how to set up, place and operate the incubator, and have been written and printed by the manufacturer, men who know the machine thoroughly and who desire to help you to become a successful operator. Don't think you know all about it or that because you have seen or run other machines you do not need to read the printed instructions. The printed directions are your rules and regulations for the machine, the selling price of that will read you the best direct advice to be had of successful operators. It is in many cases a common error to buy an incubator without reading the directions and to try to operate it on their own theories. The operation of a modern incubator is a very simple matter; there is nothing complex or mysterious about it and any well-developed boy of twelve years old ought to be able to comprehend the rules for operating and run an incubator or brooder successfully.

Directions should be carefully followed—Never go by Your Neighbor's Advice.

What machine and what size to buy are two questions that are not quite so easily settled. In selecting the make of a machine the beginner must be guided by his best judgment. It is a good plan to study the manufacturers' advertising catalogues carefully, not who are using the machines, read the testimonials carefully and note what date they bear. Then call on the nearest successful poultryman in your locality, and observe for yourself what they are using, and learn the results obtained. Try to get a fair, unbiased opinion from reputable men who you know and whose advice you are willing to follow. If you do this you can't go wrong.

Buying an incubator does not buy a machine. First you will select the size you want in a 100 or 200 egg machine or a 50 or 100 egg machine. Then you will select the make of a machine. There is very little difference in the operating expenses, and if the machine is a modern standard make you can rely on getting equally good results in all places. As a general rule all the 100-egg capacity machines are sufficiently small for any town lot fancier, although the 50 and 80-egg incubators do excellent work and are found entirely satisfactory by many operators.

Millinery Opening, at Miss Mitchell's, Wednesday and Thursday, April 4th and 5th.

Two View Points.

"I'd stop the sale of cigarettes, said Ald. Joe Byres. The old folks think the scheme is great. The small boy hath no fears.

—We lead in Wedding Stationery and Visiting Cards. Newest designs.

THE MANUFACTURERS' LIFE.

Statement by Mr. J. F. Junkin in Reference to the Evidence Given at Ottawa.

Toronto News; Mr. J. F. Junkin, of the Manufacturers' Life Insurance Co. being interviewed last Wednesday morning, made the following statement:

The reference that appeared in some of the morning papers to-day commenting upon the evidence before the Royal Commission as to the affairs of the Manufacturers' Life Insurance Company is very misleading. At the proper time the company will appear before the Commission of Inquiry before the Commission, the details of each transaction. At present, however, I wish to offer a very brief statement with reference to the several items:

1. As to the Fallat loan, it was made to appear that the company paid an excessive amount for the C.P.R. stock in question. That is not so. The stock was obtained at market value and sold subsequently at a profit; and as to the other amount or amounts referred to the company is simply secured for every dollar by a registered mortgage and by other collateral held to cover the advance.
2. No sheet from any loose leaf ledger or other book was ever abstracted, no matter who states to the contrary.
3. The Manufacturers' Life never lost one dollar in call loans of any description at any time.
4. As regards the Prudential Securities Company, the Manufacturers' Life Insurance Company had invested in certain securities which the Inspector of Insurance would not pass and the directors agreed to take over such securities, paying to the company in actual cash their exact cost. There was no juggling, but the directors in question personally assumed full responsibility, paying their actual cash for the securities.

As to the King Edward building Co. being in need of more ample accommodation was agreed with some other financial institutions to jointly purchase eight feet on King-st., upon which to erect a building for the further accommodation of all. We concluded, however, that it would be more satisfactory to be the sole owners, and therefore purchased the interests of the others at actual original cost. For several reasons, one of which was the excessive cost of building at the present time, we came to the conclusion not to build, offered the property for sale, and have lately sold the same at a good profit.

A Budding Industry Squeaked.

The tent and awning business was announced as being one of Lindsay's new enterprises, has already been absorbed. On Monday Mr. J. J. Turner, of Turner & Sons, Peterboro, came to town and made such terms with Mr. Wesley that his business was closed up in town, and he will resume his position with the Peterboro firm, who value his services too much to lose him. There are enough Turners in the Peterboro concern to spare us one of the enterprising chips off the old block and so give Lindsay a prosperous tent and awning factory.

SUTCLIFFE'S SPRING Millinery Opening

Wednesday and Thursday, April 4th, 5th and Following Days.

On the above days we will hold our Spring Millinery Opening to which you are cordially invited. Our display this season will be far ahead of any former effort both in dainty creations and variety. Many of the most fetching ideas are copies of models shown in Paris, New York and other leading fashion centres, while other very pleasing and wearable styles are the production of our workrooms. Come and bring your friends with the object of acquiring the very latest and smartest ideas for your Easter and Spring Millinery.

EVENING DISPLAY
throughout the entire store Wednesday, from 7:30 p.m. to 10:00 p.m. Music.

Smart Costumes, Fashionable Jackets.

During the Opening Days we will show many advance spring styles in Ladies' Jackets and Costumes, pronounced by style authorities as among the most effectively charming models this season, as well as excellent values. These garments are all man tailored, exceptionally well finished and perfect fitting. There will be a big variety to choose from and every garment shows good taste in its make-up.

"Our prices—so temptingly attractive that every purchase will represent an exceptional saving."

J. SUTCLIFFE & SONS, CASH ONE PRICE LINDSAY. THREE STORES

SPRING - 1906 - STYLES

THE SLATER SHOE

Nearly every man in Canada has either worn or has heard of the Slater Shoe, so their is scarcely any need of our discussing the merits of this famous shoe.

Perhaps you have heard something of the Slater Shoe, but have never realized the satisfaction of wearing a pair. If so, we would be pleased to have you become a Slater customer—and therefore a satisfied one.

The new styles for Spring are adapted to all classes. Smart faddish shapes for young men, modest but very dressy styles for middle-aged men, comfort giving lasts for elderly men.

Prices, \$3.50, \$4.00, \$5.00.

R. NEILL, Sole Agent for the SLATER SHOE. 90 KENT-ST.
