Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes. No man ever thinks he will marry a widow—and he doesn't. She marries him. Just as the average man is about to get a strange hold on fame his pipe goes out. King Edward was pelted with cases at Lisbon. This is a distinct improvement over the fashion of throwing bombs. One conception of a robust memory is a woman's ability to come home from church and accurately describe the hats worn by at least 60 other women. Peterboro's rate has been fixed at 19 mills for freighting rats-payers and 20-10 for catholic rat-payers. This is the mill higher than last year. Capt. Joe Brown's yacht was the first to make the run to Sturgeon Point this season. He made the trip Saturday evening, and spent Sunday there. Railway shippers over this division say that it is impossible to secure men and teams to load forest produce, notwithstanding the offer of exceptionally high wages. A couple of south ward boys went in for their first swim Saturday. Both are now ill, but if they survive they will enjoy the proud distinction of having beaten the record for the season. The stock, machinery and plant of the Stanley Piano Co., Peterboro, has been purchased by a Toronto gentleman for \$6,000, and is likely the factory will be operated in Peterboro on a much larger scale. The Fader Sewless Door Knob Co., Orillia's new industry, has been incorporated with a capital of \$100,000. The promoters were in communication with Lindsay Council before deciding on Orillia as the point of location. Collingwood has laid no plank walks since 1894, and the town has about 15 miles of granite on which no money has been spent for repairs. The town paid two-thirds of the cost, and property-owners one-third. The Post Office Department issues a notice that the rate of postage on third class matter, except seeds, cuttings, bulbs, roots, bedding plants, scions and grafts will be one cent for each two ounces or fraction thereof and on fourth class matter one cent for each ounce or fraction thereof. Fenelon Falls Gazette: Mr. John Brooks, of Lindsay, foreman of Public Works, and five of his men, spent Tuesday night at the Falls, and left next morning for Resedale, where they will be busy until, probably, the end of next week, doing some necessary repairs to the slide and dam. Every town has plenty of examples showing how small dealers in all kinds of merchandise have made their business a success by wise and judicious advertising. Take what space you can afford, contract by the year, watch it, change the matter very frequently, and you will soon need more room for your store and more space in the papers. Messrs. Rod and A. W. McKenzie, sons of the president of the Toronto Street Railway, have set up a racing establishment, to be called the Kirkfield Stable, after the family's country residence in North Victoria. The young gentlemen have three promising horses in charge of a competent trainer, and hope to do something at the Jockey Club's May meeting. It is expected that the new stable will in time rival the institutions of Hendry and Sugran. The new buildings which the Canadian General Electric Co. are about to add to their works at Peterboro will include one 450 ft. by 80 ft. two stories high, with a large crane 25 ft. wide for shipping purposes, that work now done by each department being centralized in the new building; one, 285x80 ft., with a new 40-foot gallery and a 40-foot crane; and the manufacture of heavy machinery. Here, one, 140x40 feet, being an addition to the new building erected last fall, and possibly another 200x50 ft. The extensions will necessitate the employment of about twice as many hands as at present.

### A POPULAR SCIENCE MASTER

#### W. H. STEVENS, B. A. HONORED

Was Presented With an Address and Cheque by L. C. I. Students Thursday Afternoon.

Mr. W. H. Stevens, who has officiated as science master at the Collegiate Institute for the past fourteen years, and who has severed his connection with the staff on account of his appointment to the inspectorate of the Schools for West Victoria, to succeed the late Mr. Reazin, was presented on Thursday, Apr. 9, with a nicely worded address and cheque for \$35, as a slight token of the high esteem in which he is held by the pupils and staff. The pleasant function took place in the Assembly Hall at 3.30, those present being the students, Mr. T. Stewart, chairman of the Board of Education, Dr. White, Mr. I. E. Weldon and the members of the staff. Mr. Harstone occupied the chair and seated with him on the platform were Mr. Stewart and Mr. Stevens. The following address was read by Mr. Chas. Burns, who also presented the cheque:

Dear Mr. Stevens—On the occasion of your retirement from the staff of the Lindsay Collegiate Institute, after fourteen years' service, the student body and the ex-students, desire to convey to you the assurance of your high esteem and our regret at your departure.

It is fitting here to testify to your efficient work in your department of science, and to record our appreciation of your deep interest in the Literary Society, the Lecture Course and the Athletic Association. For years you have performed the duties of treasurer of our school organizations with great advantage to the School. Your personal interest in the students and general interest in educational affairs, we remember gratefully.

In leaving the School to assume the duties of your new office, you carry with you our best wishes for your highest success, and we trust that the years to come may be fruitful of progress and blessing.

Signed on behalf of:  
Staff,  
Alumni, L. C. I.  
Students, C. D. H. McALPINE,  
Lindsay, April 9th, 1903.

The address is to be illuminated, and was accompanied by a cheque for \$35 to buy an office desk and secretary.

Mr. Stewart, on behalf of the Board of Education, spoke briefly, saying that the Board regretted very much the loss of Mr. Stevens, but it was only human nature to make changes, and Mr. Stevens had made this one for reason better known to himself. Mr. Stewart then spoke of Mr. Stevens as an educationalist, saying that he was considered one of the best science masters in Ontario. (Applause.) Nowadays changes are made rapidly, and although Mr. Stevens should be congratulated on his appointment as inspector, still the Board and School were sorry to lose him. However, there is one consolation—the gentleman who succeeds Mr. Stevens will have his assistance, and the school will no doubt prosper as in the past. Mr. Stewart then pleased to see such a large number of pupils and ex-pupils present to do honor to a gentleman who had spent so many years in endeavoring to uplift education. He did not endorse presentations unless well deserved, but in this case Mr. Stevens was fully entitled to all the kind words said of him. In conclusion, Mr. Stewart wished Mr. Stevens every success in his new position, and hoped he would live long to enjoy it.

Dr. White, on behalf of the ex-students, congratulated Mr. Stevens on his appointment as inspector. He then spoke of Mr. Stevens as a teacher and as a man. He had attended the old high school under Mr. Stevens, and his knowledge obtained there was a foundation to work on. Mr. Stevens' training was always thorough that it came useful to students in later years. He was a born teacher and the gap left vacant might be hard to fill. Mr. Stevens has all the qualities of a many man. The County Council made no mistake when they appointed Mr. Stevens, as he is a thorough educationalist, and instead of hampering will uplift the educational affairs of this province. Mr. Weldon and Principal Harstone made a few remarks, expressing their regret at Mr. Stevens resigning his position. Mr. Stevens, in reply, returned

thanks for the honor and kind words said of him. He then dwelt on the work of the School, and spoke of the time when the high school was converted into the Collegiate, and the rejoicing of the students in getting into the new building. Mr. Stevens said that of his 24 years spent in teaching, 14 years had been spent in Lindsay. Before coming here he taught in Collingwood and other places. He then gave a short account of his earlier days when he had to learn, sent him to school in a difficult case in obtaining an education. He was laid off 17 years of age when he passed the entrance, because he was unable to attend school regularly. He had to work on the farm in summer and go to school in winter. However, he had liking for education and determined to get all the knowledge possible. He used to work at his lessons over 15 hours a day and finally his father, recognizing that he was anxious to learn, sent him to school. He had passed the entrance and a year later got his third class certificate and went teaching. He had, however, decided to advance higher, and studied till he secured his second and then entered the University. He then dwelt on educational matters, saying all people should get a thorough knowledge of the English language, as that counted for a good deal. If people have literature down pretty fine they may be considered to have a fair education. In conclusion Mr. Stevens said he could not express his feelings on leaving the School. It gave him a great deal of sorrow and regret. However, he would not forget the Collegiate, and would be glad to assist the students at any time.

The pleasant affair was brought to a close by the singing of the national anthem.

#### High Pressure Days.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the pressure is effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge we can recommend the Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

##### How to Ward Off an Attack of Rheumatism.

For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie McDonald, of Man. Logan County, West V. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house and when I feel any symptoms of a return I apply it away with one or two applications of this liniment, for sale by all druggists.

Does it not seem more effective to breathe in a remedy, to cure disease of the breathing organs, than to take the remedy into the stomach?

**Bracebridge's Good Example.**  
(Renewed Mercury.)  
Municipal ownership has been a success in Bracebridge. Why? Two or three reasons stand out prominently. First, continuity of management. There have been few changes in management. Second, the payment of salaries large enough to attract good men. Third, because the business men of the town are willing to spend some of their time in serving the public. Lastly, the practical disappearance of canvassing for office. The last two features go together. Business men, whose time is valuable, and who have brains enough to serve the people with advantage, do not care to demean themselves by begging their way in or their way out of office. They prefer to suffer the indignity of defeat by not so capable a man who will canvass from door to door. Neither do they particularly care, as a rule, to suffer the indignity of defeat by not so capable a man who will canvass from door to door. Bracebridge did run this gauntlet. They remained in nomination, refused to canvass, and yet were elected.

**THE MOST NUTRITIOUS.**  
**EPPS'S COCOA**  
An admirable food, with all its natural qualities intact, fitted to build up and maintain robust health, and to resist winter's extreme cold. Sold in 1 lb. tins, labelled JAMES EPPS & Co., Ltd., Homoeopathic Chemists, London, England.

**EPPS'S COCOA**  
GIVING STRENGTH & VIGOUR.  
As soon as this was evident; that the best men could be elected without canvassing, that is, that canvassing was not so profitable after all, then canvassing practically ceased. And from what we could see and learn, Bracebridge Councilors are among its best business men. The late Angus McLeod, did not think it beneath his dignity to occupy a seat in the Commons and in the Town Council as a councillor at the same time.
