B. J. GOUGH

THE WONDERFUL CHEAP MAN.

Where Iron Helps

When the system is disordered and vitality is lacking, the blood is found to be deficient in iron. Iron is essential to it and to get the ordinary forms of it injure the teeth and derange digestion. In our

Beef, Iron and Wine.

You get iron at its best. The form used is perfectly soluble and absolutely harmless. It is acceptable to the stomach and passes at once into the circulation.

PRICE 50 CENTS.

CORRESPONDENT'S LETTERS

WOODVILLE.
[From Our Own Correspondent.]
Business has been very dull this week on account of the almost impassable condition of the roads. Miss M. Kerr, of Boston, Mass., is visiting her friend, Mrs. E. Edwards, in Toronto. We are sorry to lose a good citizen like Mr. McKee. A jolly sleighload of young people journeyed to Hartley, to assist in a concert in that place Tuesday night. We have heard that they did not arrive in town until the wee small hours, on account, no doubt, of the bad condition of the roads. Mr. Ryan Switzer was in Sunderland on Friday. Mr. A. Ferguson went to Toronto on Thursday. Miss Lizzie Staples left on Thursday for Toronto to spend the Easter vacation. Mrs. W. Newnan has gone to visit her parents in Kingston. We regret very much to hear of the sudden removal from our village of Mr. Chas. Peard and family. We understand he has disposed of his business here, and is taking up another stock in Port Perry. Mr. Peard came to our village from Port Perry about three years ago, and during that time they have made many friends. We hear that they are to move next week. We sincerely wish Mr. Peard and family every success in their new residence. Mr. Russell McKay, who has spent the winter with his father, Dr. McKay, returned to the West last Wednesday. Mr. Peter DeGuere, who has been absent in the North-west for about three years, is visiting his father, Mr. W. DeGuere. Our skating rink has lasted well

this season. There has been skating all about, and the last skate is to be given us on Good Friday afternoon.

The "at home" given by the Old-fellows in the hall last Monday night, was a decided success. Games of different kinds were indulged in until a late hour, and after refreshments were served. All went home, having spent a very pleasant evening.

GOODERHAM.
[From Our Own Correspondent.]
It is with deep regret we chronicle the death of Mr. J. J. Hunter, which occurred on the evening of the 23rd. His illness, which lasted for six weeks, served to round out and perfect a character of rare beauty; his thought was always for others, and his quiet courage and constancy were a constant inspiration to those who were privileged to see him. In him the community have lost a worthy and integrity were universally acknowledged, and whose business ability and financial standing were always at the command of those in need. Truly, he was one who loved his fellow men. In him we mourn each a personal friend, and we extend to Mrs. Hunter and family our heartfelt sympathy. The funeral was conducted by the Samaritan Mission Lodge, and was very largely attended. A special train was run from Kilmont.

No Room For Doubt.
"This," said the fresh bartender, as he filled the customer's glass almost to the limit, "is a brand for your whiskers."
The old runder swallowed it slowly, and, setting the empty glass on the bar, replied: "I guess you're right, my boy; it does taste a little like hair tonic."

Domestic Mints
The proof of the pudding is the empty dish after dinner.
The war has raised the price of camphor to thrice its former price. Before laying a carpet rub the boards over with turpentine to safeguard it against moths.
In twelve marriages out of every hundred one of the parties has been married before.
The teeth should be cleaned all over. Cleansing the mouth should be practised after every meal with the same regularity with which the child gets a daily bath.
To cook eggs for an invalid the following way is the best. Put an egg pan on and boil the water. Then put it in to the side of the fire and put the egg in. Leave it in for ten minutes, but do not allow it to boil. When taken out it will be found to be most digestible, as the white of the egg will be so soft.
Athletic exercise, such as cycling, hockey golf and rowing, undoubtedly tend to enlarge the size of both hands and feet, but it scarcely seems credible that in recent years the average size of women's boots and shoes has gone up from three to five. Yet this is what a fashionable ladies' outfitter asserts to be the case, and whereas he never used to stock anything larger than fives, he now keeps sevens, and even eights.

PETERBORO'S HEALTH OFFICER

Makes Suggestions Which Lindsay Citizens Should Adopt.

In view of the fact that our Board of Health or Medical Health Officer have not yet been heard from this season, we publish the following warning issued by Dr. Bingham, M. H. O. Peterboro, for the guidance of citizens:

"On the opening of the spring season it is especially necessary to guard the dwelling house and premises against all insanitary conditions. As soon as the weather will permit, all windows and doors should be opened once a day and every room in the house filled with air and sunlight. All garbage should be burned before it has time to decompose. Each individual should guard closely the purity of his water supply. If from a well, he should see that no pollution reaches it from any source whatever. The well being a deep opening, all surrounding soil higher than the bottom of the well, tends to be drained towards it, and hence for a considerable area around a well no source of pollution should be allowed. Instead, a grass sod. These, with other precautions which will suggest themselves to intelligent housekeepers, will, if carefully observed, be highly conducive to the good health of the family."

A SONG OF SEED-TIME.
(Frank H. Sweet, in Lippincott's)
"Whoa! haw!" cheerily
Over the fields the cry,
Glad with the yielding of the soil
And brightness of the sky;
Farmer and horse and hired man,
Harrow and horse and plough,
"Whoa! haw!" hear the cry,
"Steady, I tell ye now!"
Over the field in a straggling line
Ever and on we go,
And watchful on his lofty pine
Sitteth the thoughtful crow.
"Whoa! haw!" merrily,
Downward the western sun,
And to and fro and back and forth,
Fill their work is done,
Farmer and horse and hired man,
Harrow and horse and plough,
Then through the bars to the barn-
yard.
To chores and waiting mow;
Into the barn in straggling line,
Feeding out stalks and hay,
And from his watch on the lofty pine
Flieeth the crow away.
A Porker's Long Fast.
On Dec. 18th, 1903, while threshing was being done near Oshawa, a pig was accidentally and unknowingly covered up with straw, and seen no more till March 1st, 1904, when she crawled out from underneath the straw stack. The long confinement of seventy-five days, without food or drink, had reduced her to a skeleton, but she had life enough to still walk. The cattle by continually rubbing the stack had made a hole into where she lay, and thus she survived. The animal is rapidly gaining strength, and will soon be as healthy as ever.

THE CHURCH SOCIABLE.

Haven't heard about the fright Deacon Thrasper gave us all At the sociable last night?
Just fell back against the wall, first grow white and then grow red, Dropped his spoon and oyster bowl With a smash to wake the dead. Couldn't speak to save his soul.

Well, it did look queer, you know, All at once to lose his wits Every tongue was on the go; Some thought cider, some thought lites, But the story soon got round— Didn't blame him when we knew That the Deacon just had found Two whole oysters in his stew.—Comfort.

His Bad Break.
"Be mine," he pleaded, "and I will be as true as the stars above."
"But the stars above," she protested, "lie in all directions."

As the Judge Understood it.
(Atlanta Constitution.)
A lawyer, addressing a jury in a Billville court, quoted, in defence of his client: "Honi soit qui maly pense," whereupon the Justice, striking the desk a thundering blow with his fist, shouted:
"You'll never do it, sir—not in this court!"
"Do what? your honor?" asked the surprised attorney.
"Hat 'em a swab an' pitch 'em over the fence, sir!" replied the Justice.

Railway Notes.
Messrs. B. Cohen, J. Holmes and S. Bain, of the G.T.R., Altondale, are in town trying the examination for engineers.
The James Bay Railway Company want an extension of time in which to begin and complete their lines, also for power to purchase or lease the Great Northern, the Chateauguay and Northern and the Ironstone, Bancroft & Ottawa lines.
There is a rumor in circulation that in the near future the G.T.R. will put on a fast train between Peterboro and Toronto which will make only two stops—at Lindsay and Blackwater. Even with the tedious stops at the many way stations out there, it is expressed that the diversion can be done in decent time owing to the curves and twists of the line. A fast train to Toronto via Whitby, which would take the place of one of the two trains now running to Whitby, would stand a better chance of capturing the passenger traffic when the L. B. & P. R'y is opened to the C.P.R. main line.

SALE REGISTER.
WEDNESDAY, APRIL 6—By Geo. McHugh, auctioneer, credit sale of Farm Stock and Implements, the property of Mr. John McArthur, east half lot 16, con. 6, Ops. Sale at one o'clock sharp.—W.L.
WEDNESDAY, APRIL 20th—By Archie Campbell, auctioneer, unreserved sale of Farm Stock and Implements, the property of Mr. Henry Folliott, lot 8, con. 2, Eldon. Sale at one o'clock p.m.—W.L.

Gordon Brown Sunk.
Port Stanley, March 30.—The tug Gordon Brown was released from the lake and brought into the harbor on Saturday last. It took twenty-five men to pull her against the current. She is more seriously damaged by the freshet than was at first supposed. Her rudder is gone, and the hull was injured, which caused her to leak so that four pumps would not keep her afloat. She now lies sunk in ten feet of water at the fish house. The snow has not been seen since it went out with the ice.

Bench Warrant for Lyon.
Montreal, Que., March 30.—The case of Blackley, charged with having libelled Lieut.-Col. J. Cooke, Crown Prosecutor, was again called yesterday, but Laurence Lyon, who delivered the letter to the Attorney-General of Quebec was still absent. Before leaving the bench Judge Wurtzell said: "I order that a bench warrant be issued for the detention of C. M. Lyon, Advocate, so that if he arrives in Montreal he may be brought before this court as a witness."

Murder at Owen Sound.
Owen Sound, March 30.—The inquest on the body of the unknown child found on Peel street on Friday was resumed last night before Associate Coroner Dow. After hearing the evidence the jury found that the child had come to its death by strangulation, caused by a party or parties unknown. The police are investigating the crime, but have absolutely no clue to work upon.

Killed by Gas.
Toronto, March 30.—James Blackhall engaged a room at the Commercial Hotel Monday night, and yesterday morning the smell of escaping gas came strongly from his room. The door was forced and Blackhall was found dead. Coroner Crawford has issued a warrant for an inquest at 3 p. m. to-day. The deceased's body has been claimed by a relative in the city.

Put Poison in Teapot.
Vancouver, B.C., March 30.—A young girl named Georgina Hewitson, who at the Assizes Monday pleaded guilty to placing carbolic acid in a teapot in order to poison her step-mother, was yesterday handed over to the care of the Children's Aid Society.

Beggar Murders Vice-Consul.
Buenos Ayres, Argentina, March 30.—Herr Dufoy, the German Vice-Consul at Salta, has been murdered in revenge by an Italian beggar, who was arrested.

Toronto Civic Enquiry.
Toronto, March 30.—The civic enquiry into the Assessment Department dragged along another weary session yesterday afternoon. James Hales, solicitor for Harry Page, consuming the entire time in his effort to support the evidence of his client.

Marconi Ill.
New York, March 30.—Marconi, the wireless telegraph expert, is seriously ill with fever at Milan.
