FAMOUS RESOLUTION KILLED.

NO: EXAMINATION FOR LIBRARIAN OF LINDSAY PUBLIC LIBRARY.

Motion to that Effect Was Passed at Thursday Night's Meeting of the

Library Board. A special meeting of the Public Library Board was held Thursday evening with the express object of reearly in March, asking for applications, for the cosition of Librarian and decreeing that all applicants would have to pass an examination in the rudiments of literature. The members present at the reconsideration meeting were the chairman, Judge Harding, Mayor Sootheran, and Messrs. Kylie,

Moore, Beall, and Secretary Hardy. Present Librarian Popular.

On motion, Secreatary Hardy commenced reading the signatures attashed to a voluminous petition, the prayer of which was that the present Librarian be continued in that capacity in the new Public Library building. At the ned of a quarter of an hour it was agreed that the balance of the petition be taken as read, the sheets containing between 200 and 300 names of citizens, encluding many of the leading ratepayers.

Judge Harding-"I was told by Miss Neelands that any number games could have been secured, but he collectors feared the petition night be too bulky."

Mr. Moore-"It is an important pe-

Judge Harding-"That is a possibility, but the people are in earnest on the subject of this petition-dozens of people have spoken to me bout it during the last few days." Mr. Moore-'I have given the matr some consideration since the last meeting, and while I then gave the resolution a qualified support, I now hink it should be rescinded."

Mayor Sootheran-"I was not present at the meeting in question, and would not have endorsed the resolution if here, because I consider the proposed step an unnecessary one. We all know that the ladies duties in cramped quarters and unand trying. Mayor Sootheran, speaking in support of his motion, expressed his conviction that the object of the resolution passed at 'ast meeting was to dismiss the librarians-if not, why was a special meeting called to reconsider the action taken?

Mr. Moore said that, while he had not supported the motion then adopted, he disagreed with the Mayor as to the object in view. It cortainly was not framed with the object of getting rid of the present librarian, but as a test of efficiency, but he had felt then, and was now even more strongly of the opinion that the librarian should not by expreted to perform the duties of school teacher. Personally he believed the present librarians were quite capable of passing an examsuch as the one spoken of, but in reality the duties pertaining to the position were mainly mechanical, and for that reason he was opposed to the idea of an examination in littion and deserves 'our serious con- erature.
