

SEED SAVING.

In buying seeds in bulk of us you save about 50 per cent. in comparison with the cost of package seeds. You are apt to make another saving because you will get fresh seeds—this we guarantee.

We have everything you will want. Drop in and see the line.

A. HIGINBOTHAM
DRUGGIST
N. by opp. Post Office, Lindsay.

CORRESPONDENT'S LETTERS

FRANKLIN.
(From Our Own Correspondent.)
Our school is progressing favorably under the management of Mr. M. P. Barr, our former teacher. Mr. Selby, having removed to Pelee Island.

Mr. J. S. Suter, of Toronto, and Mrs. F. A. S. Suter, of Michigan, are guests at the home of Mr. J. W. M. King.

Mr. C. Lytle, of Toronto, spent a few days of last week with friends in this vicinity.

Mr. S. Felix is renovating his dwelling house, which will greatly improve its appearance.

URSA.
(From Our Own Correspondent.)
The snowfall this winter from the 18th of Nov. to the end of March at this place totals up to 144 inches. Twelve feet of snowfall for one winter exceeds any thing here in the last 20 years. Although measured in places where it has neither drifted nor been blown away it has only measured four and a half feet. Added to this there has been rain each month of the six, totalling 6.40 inches. It has been a continuous cold weather throughout, the rains producing very little thaw. On the 27th Dec. the thermometer was 21 degrees below zero, Jan. 3rd, 27 degrees, and next morning 35 degrees below. From the 8th to the 29th Feb. it was below zero every day, and on March 4th, the coldest day here, 37 degrees below.

There being a very light hay crop in this vicinity, many cattle have died.

Many more persons, too, have succumbed this winter. One, a promising young man of 25, died on the 15th, John Main, of the boundary. The loss of our Reeve causes the nomination of a second time, which takes place on Tuesday.

GLANDINE.
(From Our Own Correspondent.)
A surprise party was given at Mr. Wilson Graham's on the 13th, when about thirty of their neighbors and friends gathered together to spend a pleasant evening with them before they left for their new home in Lindsay. The evening was most enjoyable, and the games and dances of different kinds but the most interesting part was an address and presentation of two fancy chairs, to which Mr. Graham made a neat reply in a very feeling manner. Mr. and Mrs. Graham will be very much missed here.

The farmers in this vicinity have commenced ploughing.

Mr. Robert Pogue has let the contract of repairing his house and out-buildings to Mr. Wm. Workman, of Oakwood.

Thanks to our worthy postmaster, who has been so diligent in performing his duties during the past winter. While Mr. John Woolcock was out trapping last week at Henlock Point a large rat ran under the boat and caused it to upset. As the water was very deep at that point John had a very escape from drowning and Mr. Wm. was taken from Monday on business.

Mr. I. B. Davidson took home a load of new furniture last Friday. That's right, Lorenzo, first the cage, then the bird.

BOBOYGEON.
(From Our Own Correspondent.)
On half-past-two on last Tuesday morning, the 12th inst., our villagers were awakened from their peaceful slumbers by the ringing of the fire bell and it was soon discovered that the sheds and stables of "Rockland" were on fire. Mrs. Broad, who lives just south of the hotel, was awakened by the fire, and on looking out saw the blaze. Mr. Broad rang the bell and the firemen were on the ground in a few minutes. The fire was started in the engine, but it was soon discovered that the flames were melting, as the water had been let off from the boiler. This puzzled the firemen for a short time, but Mr. Kennedy thought of putting the hose on the power belonging to Dr. Bonnell. By this time the main building was in a blaze and beyond control, however, the firemen worked heroically and saved all the buildings south of the hotel. The Rockland and most of its contents were totally destroyed, and the loss to Mr. Thompson, the proprietor, will be heavy. There is an insurance of \$6,000 on the building but nothing on the contents, which were valued at \$2,200. The burning of the Rockland is a serious loss to the village at this season of the year, as the accommodation for tourists will be very limited without it. The fire was the work of an incendiary whose truck was seen leaving the fire hall, where he had been emptying the boiler of the fire engine having forced open the back door of the fire hall. It is hoped that some clue may be traced to the author of such a disastrous act, so that he may spend the remainder of his days in safe keeping. Mr. Broad and Mrs. McDermott had cash about \$300 worth of stock destroyed, but the loss of both is covered by insurance.

The hens are all being fitted up for their work as soon as navigation opens, but it is thought they will

not run much before the first of May, as the ice is going out of the lakes very slowly.

Several in this vicinity are making maple syrup, and the season is said to be a good one for the business. Owing to the lateness of the spring, many of the farmers in this locality, are running short of fodder, but they are hoping the nice spring weather will soon come.

MANILLA.
(From Our Own Correspondent.)
Mr. H. Glendenning spent Friday last in Lindsay.

Mrs. (Dr.) McPhail was in Oakville Sunday, attending the funeral of the late Mrs. James King.

Mr. D. B. MacQueen, of Port Perry, is visiting her mother, Mrs. John Coons, for a month.

Mr. James McKay and Mr. Percy King went to Toronto on Monday with the intention of remaining for the summer. They both had prospects of good positions.

Master Leon King left for Oakwood lately, where he is engaged for the summer with Mr. W. P. King.

Judge McIntyre, of Whitby, is visiting his two sisters, Mrs. McCallum and Miss McIntyre, who are both confined to their rooms with illness.

Mr. Joseph Edwards has been confined to his room for a few days.

Mrs. (R. V.) Geo. Robinson has also been confined to her room for a few days.

WOODVILLE.
(From Our Own Correspondent.)
Try W. H. Campbell's new brand of bread. "Our Own Brand" is an unusual number of travellers and visitors to Woodville are over-taxed lately. Our hotels are over-taxed and everything indicates that we are still to enjoy the growing time of Campbell's bread and his sea-see spring stock of the town.

Mr. Gordon, our livery man, in speaking of the past winter, says he cannot but add his testimony to the fact that many others, that from the liveryman's standpoint it was the most trying winter ever experienced, most trying to a financial point of view as well as to the hardships endured by the horses. However, spring the fact since the opening of the season, trade in his line has been exceptionally good, and he is looking forward to a busy summer.

A striking illustration of what pluck and energy can accomplish is to be seen in the success attending our fellow townsman, Mr. W. A. Campbell, who embarked in business but a short time ago, and whose progress has been nothing short of phenomenal. His latest venture is a bakery, added to his existing grocery business. A first-class baker who comes with the highest credentials, and the public will be supplied with an article of food that cannot be surpassed by anything in that line turned out in the city.

COBOCONK.
(From Our Own Correspondent.)
Mr. Albert V. Phillips, a very highly respected member of this community, and one who enjoyed the esteem of all his acquaintances, died on Sunday, 10th inst. He has been in poor health for most of the winter and was confined to his bed during the last three weeks. He was one of the cleverest mechanics in the country and this, together with his many estimable virtues, made him a highly valued member of society. He was a reformer in politics and a consistent Christian gentleman, a member and official of the Methodist church. He was the eldest in the family and his father, Mr. J. R. Phillips, whose extensive wooding business he most ably managed for the last six years. His death at the comparatively early age of forty years is greatly deplored. His funeral on Wednesday was attended by a large number of his acquaintances and relatives. Among those from a distance were Mr. J. Morgan, Lincoln; Mr. W. H. Pogue, Little Britain; Mr. B. Wright, Mrs. Wright, Mr. S. Wright and H. Graham, Linden Valley; Mrs. H. McLaughlin, York Haven, Penn. His bereaved widow and other relatives have the sincere sympathy of the community in this terrible loss. On the coffin was a beautiful pillow of flowers sent by Mr. S. G. Parkin, Lindsay, also a beautiful wreath from the Epworth League, and several others given by friends in the village.

The following is the standing of the pupils in the senior division of the village school for March. Names arranged in order of merit: Sr. Fifth—S. Harvey, P. V. Birchard, E. Foster, Jr. Fifth—E. Suggitt, A. Dayman, J. Boynton, E. Thompson, Sr. Fourth—G. Hall, G. Watson, W. L. Kinross, R. Waffle, M. Clifton, Jr. Fourth—E. Lewis, M. Gilligan, L. Thompson, W. Cullon, G. Dayman, P. Waffle, G. Wakelin, E. Sheldon, E. Lake, G. Holland, Sr. Third—R. Shields, G. Logie, A. Watson, E. Reid, R. Thompson, R. Holland, N. Holland, Jr. Third—S. White, N. Jackson, C. Cullon, C. Harvey, I. Angiers, P. Simpson.

ONEMEE.
The weather is considered to be as cold as the people want it.

There was a very nice and pretty wedding on Wednesday, 20th inst., when Miss Ethel Henderson, eldest daughter of Thos. Henderson was united in marriage. The ceremony was performed at the home of the bride's parents, in the presence of a few of the intimate friends. The groom was a namesake of the bride, and resides in Onemee.

The selection of a fit and proper site for our new school house is causing considerable discussion between the members of the school board living outside and those living in the village. The school board want a site of about 100,000 sq. ft. which can be very well constructed to comply with the needs.

There was a very large shipment made from here on Tuesday of all kinds of stock, bought by Mr. Moore, Richardson, and others. The prices paid were not so high as formerly, but farmers are satisfied if not getting a higher profit than any other class of business men.

Real estate is changing hands rapidly and at present scarcely a vacant house is to be seen.

Shingles are being turned out in large quantities at Kennedy's mill. The custom sawing is about all completed.

T. A. Moperson, our enterprising merchant and baker, has introduced the first electric power and light in the village. The electric power is causing a good deal of attention. The Presbyterian church is considered quite large enough to accommodate the others.

The surplice choir in the Anglican church is attracting large crowds, to hear their singing.

The Salvation Army continues about a half-dozen strong and never fails to line up.

No. 4 Co. 40th Battalion held an "At Home" lately under the patronage of officers and ex-officers.

Division court sittings are announced for Friday, May 14th.

Major Evans is making extensive and better improvements on the Onemee tannery engines and boilers.

The cellar of a number of residents have been flooded by the clogging of sewers and drains, but are thawed out and the passages again clear.

Our hotels are making extensive spring improvements, notwithstanding the local opinion, and will equal in answer for temperance hours.

Our village hotels and streets are unusually quiet and orderly.

NESTLETON.
(From Our Own Correspondent.)
Mr. John Williams is going to erect a large barn, most of the material being now on the ground. The basement will be specially fitted for stock feeding, as Mr. W. intends going into mixed farming quite extensively.

Mr. J. J. Sloan, who has been among the farmers during the winter securing acreage for peas for the firm of Hogg & Lytle, of Oakwood, reports the demand for the fancy varieties as being brisk and he could have filled many more orders but the supply ran short.

Mr. Channon's shingle mill is now running full blast, and custom work is being attended to with neatness and dispatch. It is a great convenience to the farmers of the surrounding country, who contemplate building.

Mr. M. Chapman has the material on the ground and will erect the coming summer one of the most modern barns to be found in Eastern Ontario. Its dimensions will be 110x46 ft. and will be a credit to the township. Mr. John Gordon is the contractor.

Capt. Ball has been busy the past few weeks examining his extension dam, which lies between Lindsay and Ball's landing. It is a great convenience to the people of the north end of Cartwright, many of whom take advantage of the cheap trips to do their marketing in Lindsay.

Mr. Jas. Malcolm purchased a high grade team of horses from Mr. Thos. Johnston, of Janesville. We understand the price realized was a good one.

Blasphemy are the dead who die in the Lord. "Time rolls its ceaseless course" and once again death, the stern destroyer, has laid his cold hand on the brow of an old and respected resident of Cartwright, in the person of Mr. Thos. Williamson, who breathed his last on Wednesday, the 6th day of March, after a short illness. He was born in Scotland, eighty-seven years ago and came to this country when but a boy. After settling on the farm, which he occupied until his death, he married a Cartwright young lady, who predeceased him some few years. By her he had a family of five sons and four daughters, all of whom are alive excepting one daughter, who died in Dakota on the 7th inst., just a day after her father's death. In the late Mr. Williamson was to be found a man possessing a genial, warm-hearted spirit, always looking on the sunny side of life, and his many traits of character both of heart and hand were as a household word in the neighborhood. In religion he was a Presbyterian, in politics a reformer of the old school, but liberal and consistent in his views towards all. His two sons, William and James, and daughter, Miss Emily, are left at his old home to mourn the loss of a kind and loving father.

NOT OF LARGE VIEW
Premier Pays His Respects to Leader of the Opposition.
PRESIDENT OF UNIVERSITY
Interesting Discussion on Bill to Define His Powers—No Liquor Legislation—Government's Intentions As to Railway Taxation—Continuation of the Debate on the "Soo" Industries Aid Bill.

Toronto, April 20.—It was thought yesterday that a division might be reached in the Legislature on the bill to aid the Algoma Central Railway and the "Soo" industries, but an unexpected discussion on university matters delayed the start of the debate, and the great fire downtown prevented the finish. It will be resumed today.

No Temperance Legislation.
Mr. Whitney, when the orders of the day were called, asked if it was the intention of the Government to bring in this session legislation of any kind regarding the liquor traffic.

The Premier replied that it was needless to say at this stage of the session that there would be any legislation that there would be any legislation.

Mr. Whitney asked whether the report of the committee on Mr. Pettipiece's railway taxation bill, which was adopted by the House, would be incorporated in the Government's railway taxation bill.

The Premier replied that there would not be any amendment with regard to the taxing of the cars of car-loading companies.

Mr. Whitney said what he wanted to know was as to the correctness of a morning report that the Government would take authority to appoint Mr. Pettipiece to the commission.

The Premier said that they had not been able to frame legislation to incorporate the substance of the report on Mr. Pettipiece's bill. A commission would be appointed to gather information as to the legislation in the States on the subject. He had been looking into the legislation of Michigan and Indiana, and the more it was studied the wider the question appeared. The Government had not discussed the appointment of a commission, but as far as he knew there would be no legislation to permit the appointment of Mr. Pettipiece or any other member of the House. The Government's supplementary revenue bill exhausted the legislation on the subject this session.

THE UNIVERSITY'S FRIENDS.
Mr. Whitney, on the third reading of the bill to amend the university act, quoted figures to show the great value of higher education in the State of New York and the large sums spent on it. If Ontario did not spend more, it would soon fall so far behind that it could never recover, and the Provincial University would be of no value. The Premier, in reply to a question asking for a phrase to describe the Government's sympathy, but asked would the House provide it just now. Mr. Whitney suggested to try the House.

BACKED UP WRONG TREE.
Mr. Whitney said that The Globe had attacked Mr. Landon as President. He agreed with The Globe that there were "deadwood" and "misfits" there, but the point was that the President had no power to remove them. The Globe's arraignment of the President, therefore, was unfair and based on an untrue statement. He declared that this attack was inspired.

The Premier—Inspired by whom?
Mr. Whitney—By some Government official.

The Premier—Not by a Cabinet Minister.

Mr. Whitney said he desired no party advantage, and that the Opposition would help in doing what ought to be done for the university.

THE TRAIL OF PARTY.
The Minister of Education replied. There were those, he said, who could be bold or profane enough to doubt the leader of the Opposition's statement, that he did not desire any party advantage in this matter. The Government fully appreciated its solemn duty in everything pertaining to educational affairs. Mentally incapable.

The Premier also replied, declaring that the speech of the leader of the Opposition was that of a partisan, and he had presented one view of the question only. The Premier could see no other motive than the desire to make party capital.

"He is mentally and constitutionally unable to take a large view of the situation, and I don't think it is unkind of me to say that."

Continuing Mr. Ross said the public schools cost the Province 50 cents a head of the attendance, as compared with \$200 a head for the students in arts. It could not be shown that the Government had dealt niggardly with the time the Sandfield Macdonald's time the amount voted for educational purposes was \$350,000; now it is over a million dollars. The Government did not regret the aid given to the University.

IT WAS A LOVE AFFAIR.
Montreal, April 19.—"After receiving your letter of March 25, I have nothing more to live for." The above contained in a letter addressed to Miss Haldy, a teacher in the Westmount Academy, by Rev. Colin Duffin, the ill-fated Presbyterian pastor of Maisonneuve, tells the sad tale. The lady had rejected the reverend gentleman's offer of marriage and he committed suicide. He has been in poor health for some time past.

FOUR YEARS WITHOUT A STRIKE.
Des Moines, Iowa, April 19.—The coal operators and miners signed an agreement yesterday under the terms of which Iowa mines will be operated for two years dating from April 1st.

MARKET REPORTS.
Liverpool Wheat Unchanged, But Chicago Is Lower—Live Stock Markets—The Latest Quotations.

Liverpool wheat futures closed today unchanged from yesterday and corn futures 1/4d higher.

Say "Good-bye" to Winter

Take Gough's Invitation and COME IN AND LOOK

Look in our windows. Come in and examine our stock and by your verdict we gain your trade. Our new Spring Clothing and Furnishings merit your highest praise, while our prices remain within easy reach. If you have money to spend for a new Spring and Summer Outfit we make a stiff bid to get it. If you can be influenced by wide selections, good style and workmanship, we are ready for your personal investigation.

Our invitation is "Come and Look" when you want a new Suit, Light Overcoat, Pair of Trousers, a Hat, a Shirt, or any other article of furnishings and want the latest thing out at the closest prices. Don't fail to remember Gough, the Big Lindsay Clothier. This is a direct appeal.

Look at the Prices, Come to the Store and see the Goods.

You'll be surprised, not merely that Ready-to-Don Clothing is made so good, but so inexpensive.

Men's Business Suits, \$3.00, 3.50
Top Coats and Raincoats, \$5.00, 6.50
\$8.00, 9.50
\$10.00, 12.00

Unsurpassed for every occasion no limit to quality, but limit to price.

Boys' Blouse Suits, Russian Suits, Sailor Suits, Norfolk Suits and Wash Suits, \$4.00, 4.50, \$3.00, 3.50, \$2.00, 2.50, \$1.00, 1.50.

This is by far the most satisfactory store in town for high-class boys' clothing, but look at the prices.

WE ARE SHOWING A GREAT LINE OF HATS

We are men's milliners and are holding a Grand Spring Opening of Men's Headwear on view in our hat department. We have a much larger stock of soft and stiff hats this season than ever before. A vast variety of shapes and all dimensions in black and the season's popular shades. "Not a back number" in our entire stock. We are Leaders in men's headwear, hats and caps. The hats we sell at \$1.50, \$1.75 and \$2.00 wear well, keep their shape and color. We want you to see our admirable display this spring of the best of the new styles.

NEW HABERDASHERY.

The latest new comers in neckwear, and negligee shirts, in gloves and hosiery, are worth your early inspection.

B. J. GOUGH,

The Big Lindsay Clothier.

Winnipeg, April 20.—Monday. Johnny Fraser, aged 18, was killed while repairing a switch on the Alexander's Cow in a lane with while running in a lane with railroaders, covering an artery on left leg and dying in less than an hour.

OTTAWA MAN KILLED.
