CANADIAN GRANITE FOR ALL.

Mr. S. J. Ritchie Talks of Valuable Deposits in Banoroff District.

Around the village of Banoroff, on the Central Ontario Railway, Mr. S. J. Ritchie, of Akron, O., declares that a remarkable deposit of red, grey and blue granite has been discovered. In addition to these valuable building materials, extensive quantities of white marble, sodalite and other colored stones of economic value exist.

Mr. Ritchie came across one vein of marble 1,200 feet by 400 feet. At present these valuable deposits are lying undeveloped on farm lands.

Already, however, Thomas Morrison, an Aberdeen man, has commenced working on a sodalite mine near Banoroff, shipping his output entirely to England.

In discussing the value of the Banoroff granite, Mr. Morrison states that they vary in color and texture, and are equal to some of the best Aberdeen red and gray granites, which are imported in the shape of monuments to Canada and the United States. "If two polished samples of the red granite," he continued, "were placed alongside the two Scotch granites, namely, Carrara and Hill of Fare, any practical man would have to admit that for polish and color the granites from Banoroff were equal to these Scotch granites."

This Banoroff granite as he delivered to Toronto in a rough block, in 1894, at \$1.25 per cubic foot, and

WEEKLY POST LETTER BOX

LOAN FOR THE TOWN PARK.

(To the Editor of The Post.)

Sir,—I notice that the Board of Trade have shown a desire to advise that the town park be at once finished; this is a step in the right direction and a deputation have been named to wait on the G.T.R. authorities to obtain rates for several train loads of loam.

Likely the gentlemen comprising the deputation are open to receive suggestions—here is one; I advise the taking off of all loam that can be found on the top of town gravel pit, thus killing two birds with one stone. The loam is exactly what is needed for the park, and what is certainly not wanted for our streets. I fancy this will secure for some a proposition for the committee to look into.—Yours, etc., W.M. WALTERS, Lindsay, April 6th, 1906.

STRATFORD STAYS WITH FREE MEAT.

(To the Editor of The Post.)

Sir,—Herewith I send you a letter from the City Clerk of Stratford city, where they have had twenty-five years' experience of a free meat market, and don't want any change made in it.

Like our town, Stratford city is in a fine agricultural section of country, and has a great many railway men living in it.—Yours truly, O. BIGELOW.

O. Bigelow, esq., Lindsay, Ont.; Dear Sir,—Your favor of yesterday to hand, Stratford has no by-law regulating or restricting sale of butchers meat. I do not think any meat is offered for sale on any street, but it is sold openly on the market without restraint or restriction other than it must be of good, healthy character that is not liable to be pronounced by our Health Inspector as unfit for use. I may say that very few such cases have come to my knowledge during the past twenty years.

Our market was made free in 1881 previous to that butchers were obliged to rent stalls in market and no outsider could sell less than by the quarter, but after above date butchers were allowed to open shops wherever they pleased without any license or fee of any kind. Last fall the city butchers endeavored to get the Council to pass a by-law licensing butchers at \$25 per annum, and prohibiting them from selling more than by the quarter, but the public took the matter up and fairly delugged the Council with petitions against the proposed by-law. The matter was abandoned and the free sale of meat continues—indeed, it is surprising the extent it has assumed. On some Saturdays there have been over twenty waggoners on the market from which meat is set up and sold as required, and lots of other waggoners selling by the quarter, and still our regular butchers do a large trade and prices are high, roast beef running from 10c. to 12c. per lb., according to quality, boiling beef 7c. to 10c., lamb 10c. to 20c., veal 10c. to 15c.

Trusting this information will be satisfactory.—Yours truly, R. E. LANG, City Clerk, Stratford, March 31, 1906.

LINDSAY'S CHEAP ELECTRICAL POWER.

(To the Editor of The Post.)

Dear Sir,—At a meeting of the Board of Trade the other evening it was suggested by a member, and approved by the Board, that a deputation be sent to Toronto to join a deputation from Western Ontario, in urging upon the Legislature the advisability of developing municipal electric energy at Niagara Falls to be distributed throughout the different municipalities at cost. This, in my opinion, is quite the proper thing to do. With cheap power this town would have a tremendous handicap over other towns less fortunately situated, and this deputation shows that our business men are shrewd and fully alive to our needs. No doubt the members have read the report of the Ontario Power Commission, but for the information of those who have not read it I will give a few interesting figures, and incidentally advertise the Light, Heat & Power Co. of Lindsay. The report of the commission deals with three propositions, one of 30,000 horse power, another of 60,000 horse power and another of 100,000. I don't think the people of this vicinity need expect more than 30,000 h.p., therefore I will deal with this proposition. A plant of this size will deliver power in London, which is 25 miles nearer Niagara Falls than Lindsay is at \$53.07 per horse power per annum, and will light the streets of that city for \$54.38 per light per annum. They are enabled to do this so cheaply, for various reasons. One is that they can borrow money at a very low rate of interest; another is that they will pay no tax on electricity, and a few others. These priorities favorably with steam produced power dealt with in the same report. 100 h.p. steam for only 10 hours a day costs \$48 per h.p. per annum; for 24 hours it would cost at least double that amount, or \$96, a saving in favor of municipal electric power of almost 50 per cent. If this deputation can save this amount for the manufacturers now in the town or any others that they can persuade to locate here, they will get a tremendous credit service, and themselves have already done something. At this moment there is an electric power company doing business in Lindsay prepared to deliver electric power right now and in quantities sufficiently large for the present needs of the town, with plenty of power ready for development, as fast as new industries can be persuaded to locate

A GUARANTEED CURE FOR PILES.

Hitching, Bluing, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAGO OINTMENT fails to cure in 8 to 14 days, 60c.

here, not at \$53.07 per h.p., but at least 40 per cent. cheaper, and the town will not be called upon to spend fifty or a hundred thousand dollars in bringing in other power. We will do more, we will pay taxes to every municipality through which our transmission lines pass, as we always have done.

The people of this town should be loyal to the town, instead of shouting about high taxes and impossible butcher bills, they should once in a while mention cheap power and light.—Yours truly, WALTER E. REESOR, Manager Light, Heat & Power Co. Lindsay, April 6th, 1906.

OBITUARY.

John Bryane, Centenarian, Passes to His Reward.

Last week death removed from our midst one of the oldest residents in the person of the late Mr. John Bryane, who had attained the remarkable age of 102 years.

Mr. Bryane was a native of the north part of Ireland, and landed in Canada in 1874, settling first near Reaboro, where he farmed for many years and became a resident of Lindsay some 35 years ago. His death removes a citizen well liked by those with whom he came in contact. He leaves two sons and one daughter to mourn his loss. They are James, who for the past 25 years has been a resident or Morden, in the southern part of Manitoba; his youngest son, on the homestead; and Mrs. Jas. McGabey, of Emily.

The funeral of the deceased will take place to-morrow at 2 p.m., from his residence, Colborne-st., and proceed to St. Paul's church for service.

ENSNARING VICTIMS.

Steps Should be Taken at Once to Prevent Further Trouble.

Here in Lindsay, as in other cities and towns, dyspepsia or stomach troubles are ensnaring victims in a most insidious way.

Nearly every mother's son of us and daughter, too, expects the stomach to accustom itself to all manner of ill-treatment, but the time comes when we cannot abuse it with impunity. How much better it would be to take steps at once to strengthen the stomach and prevent further trouble.

Use Mi-o-na now and soothe the irritated walls of the stomach and strengthen the gastric follicles so that they will pour out their daily supply of digestive materials with regularity. The stomach has no special diet, but the public took the matter up and fairly delugged the Council with petitions against the proposed by-law. The matter was abandoned and the free sale of meat continues—indeed, it is surprising the extent it has assumed. On some Saturdays there have been over twenty waggoners on the market from which meat is set up and sold as required, and lots of other waggoners selling by the quarter, and still our regular butchers do a large trade and prices are high, roast beef running from 10c. to 12c. per lb., according to quality, boiling beef 7c. to 10c., lamb 10c. to 20c., veal 10c. to 15c.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, postpaid on receipt of price. Write us for advice on your case from a leading stomach specialist will be sent free. The R. T. Booth Company, Kthpa, N. Y. 3-0-6

May Lose Chemical Co.

Fenelon Falls Star: In conversation on Tuesday, with Mr. J. Shane, local manager of the Standard Chemical Co. we were given to understand that it is the company's intention to leave Fenelon Falls on the expiration of their present agreement with the town, which occurs about six months hence. Mr. Shane claims that the village has not treated the Chemical Company fairly in the matter of taxes, etc. The company are now employing 24 hands, all of them married men, with an average payroll of \$1,200 a month. Besides this the company buy all their supplies, both for their works here and for their camps in the north. From what we were informed by one merchant that the Chemical Company's account with him averaged \$60 a month. Mr. Shane gave it as his opinion that they might be induced to remain in Fenelon Falls if the Council would come to some satisfactory arrangement with the company in the matter of taxes, etc.

Rod and Gun for April.

The April number of "Rod and Gun in Canada," published by W. J. Taylor, at Woodstock, Ont., opens very appropriately with an exploration paper. Mr. James Dickson, of Fenelon Falls, tells of a four months' trip to Abitibi Lake and River, and beyond taken at the instance of the Ontario Government, and his story of the wealth to be found in forest and agricultural land right over the Height of Land, and on the water shed of the Hudson Bay, is full of deep interest to all concerned in Canada's future. A fascinating and beautifully illustrated story is that dealing with the Wild Rice Harvest of the Mississippi, a peculiarity of Rice Lake, which every one interested in outdoor life would read. No sportsman should miss "The Best Old Dog in the Land" told in touching verse by the Rev. F. Yates, and finely illustrated. Right across the continent to British Columbia the reader is taken and told of a tar-bush shooting excursion which must make every sportsman wish he were able to duplicate that experience in his own person. The Automobile and Boating Departments are strengthened and many interesting particulars are found in both, while the reader is found in every way shooting in Canada for the previous month. Wide and comprehensive as is the programme set before themselves by the conductors of this magazine this brief review will show how well they are succeeding in their aim, and how successful they are in maintaining the position of "Rod and Gun in Canada" as the leader in its special field.

Ponder This

Spring is here; if you want a stylish outfit, don't fail to see our double-breasted, long roll, Black Cheviot Suits at \$15.00.

A handsome jet black, sateen lined Suit, is hand tailored, with all the swaggerness that characterizes our high grade Clothing.

WATER COMMISSIONERS MET.

WILL ASSIST BOARD OF TRADE IN PLANS FOR CIVIC IMPROVEMENT.

Winner of First Prize for Neat Lawn will Get Free Water.

At 4.30 yesterday afternoon the Board of Water Commissioners met and conducted business till 6 o'clock.

After the reading of the minutes, which were confirmed, a deputation from the Board of Trade waited on the Commissioners and presented the following letter:

Messrs. Board of Water Commissioners, Lindsay, Ont.:

Dear Sirs,—We, the Committee, appointed by the Board of Trade, to look up ways and means of beautifying the streets of the town and among other suggestions suggested that you should be approached about the price of water supplied for use of lawns.

We understand that a good many lawn users have dropped taking the water for this purpose. We consider it is to the interest of the town to have lawns kept tidy and green and would respectfully request that you would make your charges for lawn purposes as low as you possibly can.

The Board of Trade also decided to give prizes to the best kept premises, to include the lawns and buildings, etc. We would like very much if we could report to the Board of Trade that you would, in addition to the prize given by the Board of Trade, give the winners the use of the water for a year used on the lawn free.

We are going to appear before the Town Council and secure their assistance as far as possible in getting the streets boulevarded, and when this was done the town water should be used to keep the grass green and nice.

Of course, we feel that you require to carefully consider the matter and perhaps you could arrange so that pipes could be run over ground to supply water for lawns at very little expense to the town, excepting say for the interest on the pipes. Men belonging to your system could put these pipes down at extra times with very little loss of time to the town.

Any assistance given by the Water Commissioners in this matter will encourage the Board of Trade, the Town Council and the citizens—Thanking you, etc., W. FLAVELLE, Chairman Committee, H. J. LITTLE, G. H. M. BAKER, W. M. ROSSON.

Secretary Ray presented a list of over 70 users who had cut off their lawn service, principally small users. The very wet weather last year was put forward as a plausible cause for their so doing.

The following accounts were then confirmed:

F. Hutton.....\$ 25
Geo. McGabey..... 50
Canadian Express Co..... 55
W. Lowndsworth..... 29.63
Dominion Bank..... 19.25
Dean Star Pump Co..... 3.96
The Garlick Packing Co..... 1.46
Boxall & Mattheis..... 11.50
Jos. Mauser & Sons..... 49.93
McLennan & Co..... 6.35
Light, Heat & Power Co..... 1.17
Mr. Calvert was heard re an exceptional case. The Commissioners have dealt with lots of cases where water users were defrauding intentionally or unintentionally, the Waterworks in using water and not paying full for it, but here was a paying user where a user was paying \$2 a year more than he should be paying and the Board took him in unknowingly. The matter was rectified.

Mr. W. A. Jewell was heard in regard to an old account for livery but the matter was left over till next meeting.

Mr. C. Jones will be bonded for a sufficient guarantee for the extension of the water mains on Kent-st. west.

A communication was filed from the Bakery Meter Co. re the orders received by the company.

The time for opening the coal tenders was extended for a month.

AUCTION SALE.

The Subscriber is again prepared to conduct Auction Sales of all kinds that he may be favored with. CHARGES MODERATE

ELIAS BOWES, Auctioneer.

Wood's Phospholine.

The Great English Remedy. Tones and invigorates the whole nervous system, makes new blood in old veins. Cures Nervous Debility, Mental and Physical Weakness, General Weakness, Emotions, Spasmodics, and Effects of Abuse, Excesses, and all the ailments of the system. It will please, etc. will cure. Sold by all druggists or mailed in plain packages on receipt of price. New pamphlet mailed free. The Wood Medicines Co. Toronto, Ont.

The Board then discussed the proposition of the Board of Trade committee and were unanimous in the feeling that the lawn service should be given free to the prize winner for one year and agreed that lawn rate be reduced to \$2 for 500 feet; \$3 for 500 to 1,000 feet and \$4 for 1,000 to 2,000 feet.

Rheumatic Pains Relieved.

The quick relief from rheumatic pains, afforded by Chamberlain's Pain Balm has surprised and delighted thousands of sufferers. It makes rest and sleep possible. A great many have been permanently cured of rheumatism by the use of this liniment. For sale by all druggists.

Attractions at Fall Fair.

The Act respecting Agricultural Societies, sponsored by Nelson Month, seems to show no respect for them, whatever, remarks the Gallery Clock in The Toronto Star.

This bill mainly proposes that the county fair shall part with all its characteristic gaiety for an average grant of \$300 a year. The wheel of fortune may not ply its picturesque trade within three hundred yards of the grounds. The man with the cake of soap and the dollar bill is forbidden the place. The gentleman with three shells and a pea finds his occupation gone. Lotteries and dice game are not allowed to spread their gentle fever of hope and fear. Side shows will have to pass a committee of Sunday school superintendents, and the barber will be run out of his line of talk if not approved by members of the Epworth League. Horse-racing is to be cut out. Instead there will be competitive trials of speed—Premier Whitney all but winked when he said it. Oh, no! The horse will not race—not on your life. There will simply be a contest or two, to see which horse can come under the wire first. Instead of prizes there will be rewards. Having in mind the vast difference between horse-races and competitive trials of speed, people will naturally refuse to bet real money, making all their wagers in conversation jargon. If the provisions of the Act are not carried out the grant will be forfeited.
