The Y.M.C.A. as has been stat ed before, have during the last month been carrying on a red-letter campaign for new members and as a fitting closing to their hage success in the contest, the banquet was served last night and as the Y. M. C. A. motto is "Spirit, Mind and Body," the social side was amply brought to light. Two long tables, heavily laden and daintly arranged with tempting viands, the art of the ladies, spread in the gypasium, which was prettily decorated for the occasion with bunting and flags, the Old Gold and Green contest flags being annurled, one at each end of the Fgym," presented a scene on which the eye loved to scan. The ladies, indeed, deserve much credit for the repast, which was of the real genuine kind.

What might we not accomplish with our 180,000 sq. miles, or eight States as big as Maine? We have here something unique-the most extraordinary waterway in the world-the Trent Canal, which is destined to become great carrier of sport-loving people. Pointing out the course of the watterway on the map, Mr. Evans said it was really about 350 miles in length, taking in the inside channel of Georgian Bay, with its 30,000 islands, and the Rideau lakes made the total 500 miles. Every foot of the waterway was fitted by nature to be the breeding ground of game fish -the bait to make this the pleasure ground of the American continent,
