DISCUSSED IN THE COMMONS.

Hon. Sydney Fisher Explains the Quarantine System in Vogue to Prevent Spread of Smalipox from Winnipeg -The Grant of \$100,000 to Ottawa and Hull Passed the

House. Ottawa, May 3 .- The case of the Canadian soldier who was punished for stealing a chicken while on service in the Transvaal was discussed in the House yesterday. The outbreak of smallpox in Winnipeg also formed a topic of discussion, Mr. Fisher stating that the Government had taken all possible precautions rescued from annihilation. against the importation of the disease. The bill granting aid to the fire sufferers was put through its stages. The budget debate was

continued. Onestions and Answers. Mr. Oliver was told that 455 horses were bought west of Lake Superior for the second contingent, at an average price of \$93, that 1,206 went to South Africa, 63 dying on

the way out. Mr. Clarke asked a series of questions regarding the printing of reports. Ministers replied and said the delay occurred in the Printing Bur-

A Severe Penulty. Col. McLennan presented a petition from his constituents, asking the Government to inquire into the alleged court-martial of Pte. Bennett in South Africa for having looted "a hen," as the petition ran. The punishment Bennett had received the colonel considered very severe and hoped the report was not true. "Why," he said, "the men were marching in the hot African sun; hungry and tired and this private did only what any one in this honorable house would do under similar circumstances." Dr. Borden said it was a question of discipline and that the Govern-

ment could not interfere. Mr. Wallace considered the punishment of 56 days was an extraordinary one for such a trivial offence. He could see no crime in it, and thought it was strange that Colonel Otter's report Tuesday in the possession of the Minister relating to this topic had not been presented to the House. After Sir Adolphe Caron, Mr. Davin

Mr. Fisher said that smallpox in a mild form was very prevalent in the United States and had been discovered in Republic Camp. The case at Winnipeg had come from Victoria. B. After five years, interest should be paid at 4 per cent., and both principal and interest paid off in ten years in ten equal installments, the trust in the meantime securing its own by holding a
