

TAKE IT HOME WITH YOU

When you come to see what kind of Suits they are that we are selling at \$5.00, \$7.50 and \$10.00, and run across one that strikes your fancy particularly hard—as you are pretty sure to do—take it home and look it over at your leisure. If you conclude you'd rather have your money after all bring it back.

Not that we believe you'll come to any such conclusion—the value will be too apparent—the money-saving inducement too strong. There isn't a suit in the entire lot but is strictly up-to-date in every detail that goes to make a stylish garment.

And remember also that O'LOUGHLIN & McINTYRE'S guarantee of quality is iron-clad and applies to these special suits as well as to everything else in the store.

The Relief of Mafeking!

Although the announcement of the relief of Mafeking was made in last night's issue of The Evening Post at 5 o'clock, many citizens felt inclined to doubt it because no mention was made of it in the Toronto evening papers, forgetful of the fact that we apparently have news ahead of 2 p.m. However, this morning the news was generally credited and soon the town was gay with flags, banners and bunting. Sgt. Major Martin celebrated the news last evening by hoisting four flags and firing three salutes from his cannon, the concussion of which rattled the rear windows of his dwelling. Little he cared, however.

A Good Investment

Sixty typewriting machines of the newest and best models represent a small little sum of money. The investment of the required amount has been made by Mr. W. H. Shaw, principal of the Central Business College, Toronto, in behalf of the young people who attend his school, by purchasing 50 new typewriter machines and 50 copies of other standard kinds. The Central College is the first Canadian school to adopt the Touch typewriter, which requires a scientific fingering of the keyboard and the use of all fingers of each hand. Under the direction of a special teacher the students in this school can scarcely fail to become expert typewriters, and we are not surprised to learn that the graduates of the shorthand department of this college are always successful in filling the best situations going.
