The lecture was instructive for those who did not understand very much about the mechanism of the ships, or about the havy in general. The speaker ended by raying, "We may thank the British ficet for the freedom of to-day, and depend on it

County Constable Takes 14 Birds and Names of Participants. Hamilton, May 25 .- County Constable Nichol yesterday morning "got wise" to the fact that a cocking main was in progress in Barton township, on the mountain, and his blood boiled at this daring outrage of law and decency. Without waiting for a body-guard he set out for the scene of the bird conflict, which was on Gerrard's farm, and he made a very good haul. He discovered about custody fourteen birds, two pairs of spurs and one pair of scales. It is understood that prosecutions will follow, as Constable Nichol has the names of a number of the men pre-
