**THE DOLE DRUG CO., WINNIPEG, Man.**

Four money back of Gin Pills do not cure.

## PLAGUE HELPS JAPS

### Russians Contract "Green" Sickness and Die Rapidly.

### JAPS ARE SAID TO BE IMMUNE

London Telegraph's Correspondent With Headquarters Declares No Change in Situation Has Taken Place For Ten Days—Location of Jap Army Kept Secret—Reported Sortie From Port Arthur Unlikely.

Tokio, May 23.—It is stated on good authority that the Japanese have captured Kaiping, and are driving the Russians back in the direction of Yinhow. Kaiping is on the railroad about fifty miles south of Newchwang.

### PLAGUE KILLING RUSSIANS.

### Russian Soldiers Take Disease to Which Japs Are Immune.

Paris, May 23.—A despatch from Moscow to The Matin says that one of the first horrors resulting from the war in the Orient is a new disease, known as the "green plague," which is spreading among Russian soldiers who are quartered in Chinese houses. Undoubtedly the bacteria of this disease are always present in these houses, but the yellow race is immune to them, while Caucasians are easy victims. The first symptom of the plague is an affection of the eyes. Then the sufferer has frightful sweats and his body becomes covered with green spots. The army surgeons are totally at sea concerning this new disease and the soldiers are dying like flies.

That the Japanese do not boast in face of their successes is winning the praise of the French press. The newspapers would scarcely believe that the Japanese were capable of such restraint and self-effacement.

The newspapers, too, point out that neither combatant is operating on home territory, and that the attitude of the Koreans and Manchurians toward the belligerents is bound to have much to do with the result of the struggle. Everything indicates to-day that Japan is the favorite both in Corea and Manchuria, and it must be remembered, the Manchus are the most self-reliant of all the Chinese family.

### Russia's Financial Standing.

The continental newspapers are paving the way toward a new Russian loan by publishing pictures of the czar's treasure vaults bursting with gold. Financiers, knowing that the Russian gold reserve must, by law, equal in value half the issue of currency—which is 600,000,000 rubles—and that, above this amount, the gold reserve must equal the currency, dollar for dollar, estimate that Russia has enough cash to last six months. And this, calculating the expenses of the war at 400,000,000 rubles monthly.

### Japs Are Great Sple.

Tomsk, Siberia, May 23.—The melting of the ice on the Siberian rivers has yielded yet further evidence as to the completeness of the preparations made by the Japanese for damaging Russia's line of communications.

A boatman at Omsk, noticing something protruding from an ice floe, summoned his companions and towed the floe ashore. A huddled human form was then dimly perceived through its glassy covering.

When the ice was hacked away there was discovered a little yellow-faced man, with an agonized expression in his protruding eyes. Although dressed in Russian clothing, the boatman suspected that he was a Japanese, and carted the body to the police office.

A search showed that the dead man was a Japanese secret agent. Under his shirt were found a number of Japanese documents, and a letter from his wife in Kyoto addressed to Moscow.

ski, counselling him to be cautious in the perilous enterprise he was undertaking.

It is assumed that the spy, while attempting to blow up the railway bridge, fell into a hole in the ice and was drowned.

### Boogay's Fate Uncertain.

St. Petersburg, May 23.—Private advices from Vladivostok confirm the report that the cruiser Bogoyavl ran on the rocks. Officials claim that they have no intimation regarding the incident, and it is not known whether or not the ship has yet been hauled off.

### Shell Killed 23 Japs.

Tokio, May 23.—During the reconnaissance of Port Arthur, made by Admiral Togo on Friday of last week, a shell hit the torpedo boat destroyer Akatsuki, killing one officer and 24 men.

### Russian Soldiers Loyal.

St. Petersburg, May 23.—Gen. Kuropatkin on Saturday sent the following telegram to Emperor Nicholas:

"To-day, in the presence of all the troops here, forming the chief force of one of our divisions, a thanksgiving service in honor of St. Nicholas, the miracle-worker, was celebrated.

"After a te deum, I thanked the troops in behalf of Your Majesty for their valiant, self-denying services, and personally communicated to them the tenor of Your Majesty's despatch of May 20. The troops replied with a hearty cheer to the wishes I expressed for Your Majesty's health and long life.

"The newly-created knights of the military orders and all of the wounded officers and men of the regiments present were then called out, and the troops, headed by myself, marched past these brave men."

### Russians Probably Stay in Port.

London, May 22.—A despatch from St. Petersburg to Reuters' Telegram Co. says that the report of a sortie by the Port Arthur garrison has not been confirmed. It appears, says the despatch, to have originated in the receipt of Lieut.-Gen. Stoessel's report of the fight at Kinchau. This, together with the fact that Gen. Stoessel commands at Port Arthur, gives rise to the rumor that the garrison had made a sortie.

### Skyrdloff Arrives.

Vladivostok, May 23.—Vice-admiral Skyrdloff arrived here at 4.30 o'clock yesterday afternoon.

### Positively No Change in Situation.

London, May 23.—The Daily Telegraph this morning prints the following despatch, dated May 19, from its correspondent at the Japanese headquarters, which the despatch does not locate. There has been no change in the position here for the past ten days. Our advanced division is in touch with the enemy near Maotien Pass, where the Liovang road traverses the defile. The Russian line extends from Haicheng to the west of Maotien Pass.

### Russians Fought With Vigor.

Tokio, May 23.—(5 p.m.)—A supplemental report was received here yesterday, covering the opposition encountered by the Japanese force, which landed at Takushan on May 20. The Russians consisted of a squadron of the independent Transbaikian Cossacks. They vigorously resisted the Japanese advance and only retreated after one officer and nine men were killed and a number of men wounded. One Russian officer and four men were captured. The Japanese lost one man killed. The Russians retired in the direction of Hsiuven and Shalichal.

### Asks For Clemency.

Paris, May 23.—Emile D'Aurignac, Mme. Humbert's brother, has petitioned the Minister of the Interior for a remission of a quarter of his term of imprisonment. The petition, however, was refused. He will be released on the expiration of his sentence, in December.

## IS SHORT OF WOMEN

### Brant Sero Declares That Canada Needs 100,000 More.

### IRISH ADOPT BLAKE'S PLANS

Boers Talk of Sending Team to Blisley and Believe They Can Beat All Comers—Canada's Plan of Advertising in Britain Recommended to Australia to Follow—Empire League Honors the Maple Leaf.

London, May 23.—(C.A.P.)—Brant Sero, lecturing at the Cosmopolitan Club on "Should Women Emigrate," said that women were badly needed in Canada, which was 100,000 short.

London, May 23.—(C.A.P.)—The Privy Council appeal from the judgment of the Supreme Court of the Newfoundland in the case of the Glenwood Lumber Co. v. Bishop has been advised. The appeal is dismissed, the appellants paying costs.

London, May 23.—(C.A.P.)—The League of Empire is sending out Empire Day programs containing the words of "The Maple Leaf Forever" as well as "The Recessional."

London, May 23.—(C.A.P.)—The annual convention of the United Irish League in Great Britain on the proposal of Hon. Edward Blake, M. P., abolished local home rule in the affairs of the League. The proposition was vigorously opposed, but was carried by a small majority on the second vote. T. P. O'Connor, the president, declared that the League by its action in the Gateshead bye-election saved England from Chamberlainism.

Lindsay, May 23.—(C.A.P.)—A public subscription is being raised in the Transvaal to send a team of Boer shots to Blisley. The team is sanguine that it will capture the King's prize.

London, May 23.—(C.A.P.)—The Graphic, referring to the Australian Premier's advice regarding the appointment of a Commonwealth Commissioner in London to advertise the colony, after the manner of Canada, says that reliance on a cricket team is not an exhaustive form of advertisement. The Canadian Government bestowed and received benefit from the triumphal arch it built and the maps and information circulated, and it would be well if the other colonies followed her example.

### TOLD IN A FEW LINES.

Hamilton will have a new drill hall costing \$150,000. Plans are being prepared for it.

The brickmakers of Toronto have gone on strike for recognition of their union and higher wages.

The Ontario Department of Fisheries will re-stock the lakes with black bass as fast as possible, and a first shipment of 400 parent bass has just been taken to Lake Erie.

### TRIES TO WRECK CZAR'S TRAIN.

St. Petersburg, May 23.—The rails were displaced on the railway just outside the town of Kremenzburg when the Emperor was about to leave it Saturday in the course of his southern trip. The danger was discovered before the Imperial train started. Another train was upset. The official account says that four persons were injured in the accident.

St. Petersburg, May 23.—A rising of peasants, headed by Socialists, has taken place in the district of Gori, Government of the Caucasus. The Governor ordered the troops to fire a volley, and several casualties resulted.

### BRITISH IN TIGHT PLACE.

London, May 23.—The Tibetan affair offers fresh illustration of the feebleness of the Chinese Government and the inconvenience and risks to which England is exposed. The British expedition is surrounded with a superior mobile force, and is compelled to remain defensive until it can be strongly reinforced. Chinese influence is paralyzed, and apparently the British must choose between a hazardous advance to Lhasa and an ignominious retreat to the Indian frontier. The moral effect of a retreat is naturally dreaded in these days of Oriental revival, when the imagination of Asiatics is inflamed by victories over western civilization. Lord Curzon, luckily, is at hand, to give the British Government advice on this most difficult question.

### A Modern Crusade.

London, May 23.—The land of Cocas has not revealed any hidden treasure to the explorers who set out in full hope on the steam yacht Santa Maria last November. The latest of these explorers, who have just returned on the royal mail steamer La Plata, said they discovered the island, some 800 miles southeast of Costa Rica, near the Galapagos group.

Search revealed none of the treasure, which is said to have been buried in the days of Drake, and to be worth nearly \$6,500,000. But the expedition performed one good act. It found on the island a solitary inhabitant, an aged German trader, who had spent a dreary existence. He was taken on board and landed at Panama.

### Killed Playing Polo.

New York, May 23.—Harry D. Babcock, Jr., a member of the freshman class at Yale, and a player on the Yale polo team, died at his home here Sunday from the effects of an accidental blow on the head from a polo mallet in the hands of W. C. Devereaux, a Princeton player. The accident happened late Saturday afternoon in Van Cortlandt Park, during the last half of the first intercollegiate polo game ever played in this country.

## FATAL SUNDAY WORK

### Fireworks Factory Blown Up and Many Killed.

### SEVEN KNOWN TO BE DEAD

The Factory Blown to Atoms and Houses in City Wrecked by Shock—Only Thirty Were at Work Out of a Staff of 200 or Fatalities Would Have Been Much Greater.

Findlay, Ohio, May 23.—As a result of an explosion in the two drying-rooms of the Lake Shore Novelty Co.'s plant here Saturday, seven persons are known to be dead, five are so seriously hurt that recovery is probably impossible, and twelve or fifteen are injured badly.

From reports of the physicians, ten of the less seriously injured may die as a result of blood poisoning from the potash that was driven into their bodies.

Two employes are missing and are supposed to have been blown to atoms.

The Lake Shore Novelty Works' plant covered nearly ten acres in the southwest part of the city and employed about 200 men, women and children. Railroad torpedoes and Fourth of July explosives were manufactured. Owing to a rush of orders, the officials of the plant requested the employes to report for duty Sunday. About 30 complied.

Yesterday morning two magazines in separate rooms at the Novelty Works let go simultaneously with terrible reports. The exact cause of the explosion is not definitely known. It is surmised that one of the Sherwood brothers, who were the only persons in the drying room, dropped a large box of torpedoes, but this story cannot be confirmed.

The explosion occurred shortly before the employes assembled for duty. Human forms were strewn considerable distances apart from the factory site. The remains of the Sherwood brothers were found in drying room No. 1, mangled and almost unrecognizable. Their clothing was blown from their bodies, save a stocking on the right foot of Jay Sherwood.
