EDITORIAL NOTES.

These are the growing times. The Whitney Government's expenditure in 1905 was \$5,396,016; the estimates for 1906 total \$6,288,393.40. The "boys" are being cared for now.

Whitney's promise to give no more subsidies to railways has a good many other broken pledges. Already \$340,000 has been voted to two new lines in which eminent party workers are interested.

That C. P. R. train hold-up has a genuine western flavor. It reads like the tale of Deadwood Dick's escapes. But it will not do to encourage such work. Somebody will, we hope, earn that "dead of alive" reward!

Brimford's Chief of Police has issued an order to the hotelkeepers there that they must not harbor lechers. He thinks that if these men are kept out of the bar-rooms they can be more easily driven out of the city.

Hamilton Times: There is a project that the boosting of the price of drinks is not going to work out as the saloon men expected. Where it has been tried the trade falls off. The patrons regard it as a big hold-up.

One man says a boozery doing a bar business of \$50 a day, or about \$15,000 a year, sells about 300,000 drinks a year and easily makes a profit of \$3,000. He thinks that no double prices, as is proposed in some quarters for the cutting down the size of the glass practically effects that is equal to a tax on drinkers of probably \$5,000 to \$8,000 more, which all profit save the insignificant sum taken in extra license fee and what the machine man may blackmail the hotel men out of. He threatens to give up irrigation.

A number of Indians and white men are dead in Saskatchewan, with all the symptoms of wood-alcohol poisoning, from drinking Florida water, which is said to have an enormous sale in those regions. We should presume that these results would put an end to this murderous traffic. A two-ounce bottle of Eau de Cologne will last a frontier delf for a year. It is obvious, therefore that those who sold the poison to Saskatchewan dealers did so in full knowledge that they were dealing death out to human beings for the profit that there was in it, and that the local dealers either possessing that knowledge, or in culpable ignorance of it, sold this poison with the plain intent of evading the liquor laws. Both acts contain the elements of murder, and the local authorities will be culpable if they do not follow up and completely expose this poison traffic, and bring those who have broken the laws to punishment in proportion to the proved seriousness of their offence.

DUMP GARBAGE ON STREETS LETTER FROM NORTHWEST

HOW SOME PEOPLE ARE TRYING TO BEAUTIFY OUR TOWN. Matters of interest brought to light at the Police Court.

At the Police Court last Tuesday Chief Neilson had summoned Mr. John Meahan, carter, who was charged with unlawfully dumping ashes and refuse on the corner of Colborne and Caroline-sts., east ward. The case was adjourned until Friday next.

For the benefit of our readers and the by-law we publish clause (1) of By-law 1047, which deals with the above. "No person or persons shall throw any dirt, filth, glass, hand bills, paper, ashes, brush, sawdust, or other rubbish, or the carcase of any animal upon any street, lane or highway in the Town of Lindsay." The above by-law has not been very strictly observed by our citizens and carters, and all kinds of garbage has been dumped on the streets. During the past week or two the chief of police has been calling upon offenders, but it would appear that "the only way to reach a man's heart is through his pocket," and that the best stimulant in warning others is to fine somebody, and the Chief is out on the war path against all persons who make use of the streets as a dumping ground.

A first offence case was disposed of by P. M. Jackson, the charge being drunk and disorderly. The Chief has received following notices of an escape of two boys on April 28th from Industrial School, Mimico, and information will be glad to receive. The description of 14 boys is as follows: Wm. Reeff, 14 years, small boy for his age; has years, small boy for his age; has small freckled features, dark complexion, blue eyes and dark brown hair. He came from Walter's Falls, near Owen Sound. Percy Dyson, aged 13 years, has light hair, fair complexion and blue eyes. He came from Guilford but his father resided in Winnipeg. When they left the school they had little or no clothing with them, having escaped from the dormitories in their nightshirts. A reward of \$10 will be given for their capture. T. C. Ferrier, Supt.

OBITUARY.

Popular Young Lindsay Citizen Passed Away Monday.

From Evening Post of May 15. Just a week ago yesterday Mr. Jack Bradshaw, monoline operator in the Watchman-Warder office, entered Ross Memorial Hospital to undergo a serious operation. He was performed successfully, but unexpected complications set in, and it soon became known about town that the patient was engaged in an heroic battle for life with the chances sorely against him, although his medical attendants and the staff of the hospital were giving him their devoted attention. Dr. Bruce, a Toronto specialist, was summoned, but could only confirm and approve the treatment.

THE CURSE OF SHIFTLESSNESS.

Every Community Can Furnish a Few Samples, Lindsay Included.

A shiftless man or a shiftless woman is a helpless sort of a person, generally depending upon someone else to help them out of a hole. A shiftless woman will pin a rent in her dress instead of taking a needle and mending the hole decently. She will borrow a cupful of sugar from a neighbor when she might just as easily have got it at a copper grocery, and she will waste more than she eats just because she has a shiftless way of doing things. Her house always has that happy-go-lucky, catch-as-catch-can look about it; the advertisements as her as a woman who has little tact or style about her. The shiftless man is not any better. He is often out of work and almost always hard up. In fact, he is rather lazy, although he does not like you to think so. He is generally a great talker, and wastes several hours a day filling in and refilling and lighting his pipe.

Delicate Babies.

Every delicate baby starts life with a serious handicap. Even a trivial illness is apt to end fatally, and the mother is kept in a state of constant dread. Baby's Own Tablets have done more than any other medicine to make weak sickly children well and strong. They give the mother a feeling of security, as through their use she sees her delicate child developing healthily. Mrs. S. M. LeBlanc, Eastern Harbor, N. S., says: "Up to the age of fifteen months my baby was weak and wretched, and at that age could not walk, and when I began using Baby's Own Tablets, and the change they wrought in her condition was surprising. She began to get strong at once, and has ever since been a perfectly healthy child." Every mother who values the health of her little one should keep a box of Baby's Own Tablets in the house. Sold by all medicine dealers or by mail at 25 cents per box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Counter Demonstration.

Alexandria, Egypt, May 15.—The British garrison of Alexandria, consisting of infantry and artillery, with bands playing and colors flying, marched through the main streets of the town yesterday and paraded on the big square. The object of this military demonstration, was to re-assure and impress the natives who had been somewhat disturbed by the recent Pan-Islamic campaign launched by the supporters of the Turkish action on the Sinai peninsula.

Daring Robbery in Winnipeg.

Winnipeg, May 15.—A daring robbery was perpetrated on Main street yesterday afternoon when a man taking advantage of a lull in street traffic, consequent upon a downpour of rain, smashed the window in Henry Birks & Sons' jewelry store and snatched a tray of diamond rings valued at \$7,000. Birks, in his flight and stumbled, falling fifteen of the eighteen rings which the trap contained. These were recovered, but the booty he retained was valued at about \$1,200.

Those following the plan outlined by the "protection committee," headed by R. C. Haldeman, the former London manager of the Mutual, yesterday flocked to the offices of the North British & Mercantile Insurance Co., where they filled out papers transferring their policies to the British concern.

Desert Lumber Woods.

Sault Ste. Marie, Ont., May 15.—Because of the heavy demand for labor in the Canadian Northwest, the lumbermen of the upper peninsula of Michigan, will find it difficult to secure woodmen during the next few months, as men are leaving for Canada by the hundreds. It is estimated that already 5,000 men have gone to Fort William to work on the Grand Trunk Pacific.

Falls From Load of Ties.

Winnipeg, May 15.—Miss Mabel Robertson, aged 30, stenographer, of this city, met an untimely death Saturday afternoon. She went out to headlight a vice in the results. If shiftless people would just sit down and think a while they would soon see that he did not pay. That they lost the respect of their neighbors, and that the best policy for them would be to get a hustle on a tight on.

TRANSPORTATION.

Mrs. J. T. Schell Opposes the Georgian Bay Scheme.

Ottawa, May 15.—The great question of transportation occupied the attention of the House again yesterday. The importance and value of the Trent Valley and Georgian Bay Canals as links in the system of transportation were impressed upon the House by various speakers.

Mr. Jacob T. Schell furnished a discordant note in his protest against the suggestion that the country should embark upon the construction of the Georgian Bay Canal, which he estimated would cost \$125,000,000.

Other speakers were Mr. R. R. Hall, Col. Sam Hughes, Mr. Watson and Mr. Devlin.

On a motion for a return in connection with the Peterborough lift lock and Trent Valley Canal Col. Hughes charged that Messrs. Rogers and Spence of the engineering staff were not responsible for the defective work, and that behind the inquiry which resulted in their dismissal were political motives. He also charged that Mr. Bethune, inspector on the work, who was really responsible, had been negligent and intoxicated. Mr. Emmerson assured Col. Hughes that when the papers were brought down they would tell an altogether different story.

Mr. Oliver obtained first reading for a bill authorizing the exchange of certain school lands for other Dominion lands.

Another bill introduced by Mr. Oliver authorized the sale as town lots of the portion of an Indian reservation now within the boundaries of Canmore. The sale of building lots in Banff is authorized.

In reply to a question by Mr. Worthington (Sherbrooke), Sir Frederick Borden stated that the rifles furnished by the Ross Rifle Co. cost the country \$2,000,000; 16,500 were manufactured in 1904-5, and 4,000 were in store. No rifles were accepted that were not up to standard, and they were subjected to severe tests.

Ottawa, May 14.—A large distillery plant was seized on Friday afternoon near North Wakefield, Que., by Toronto Inspector Flood of the Inland Revenue Department, assisted by Dr. Freeland and Officer Slatery of the local staff.

The plant was operated by Joseph Brosard, and it was stated at Hull Saturday that it was the most complete and scientific outfit ever captured in Canada.

In the distillery were found two barrels of whiskey, eight large hogheads of fermented mash, a large quantity of corn, potatoes, yeast and other articles. The distiller used a gasolene stove for boiling, the same being fed by naphtha from two large reservoirs. The force pumps were used for cooling purposes.

'QUAKE ARRIVES IN BRITAIN.

Many Disturbances Reported, But Little Damage Done.

London, May 14.—At the time of the San Francisco disaster certain seismographs expressed the opinion that the earthquake would, in due course, make its appearance on this side, and that Edinburgh, which stands in the danger zone, practically being built upon extinct volcanoes, would be visited.

The earthquake has been here. From Devon, Cornwall, from the Channel Islands, and from some parts of Scotland, but not from Edinburgh, have come reports of how the earth had been quaking on different days last week, but the earthquake has dealt quite with this country, and beyond a slight rattling of crockery and glassware, and, as it is reported, the displacing of some ballast on the putting green of the golf courses, the earthquake passed off, leaving Great Britain as it was and where it was.

Sydney, N. S. W., May 14.—During a voyage of the steamer Faulk, from India to the Fiji Islands, 124 coolies were taken sick with cholera and sixty-one died.
