In his last letter our esteemed con-Tributor had something to say about school matters, of which the following paragraph formed a part:

'The other evening we happened into a bunch of paters-familias talking school. Some of the things said were not very complimentary to some of the teachegrs, and the question was asked several times during the confab. "Why does the School Board permit these things "-more especially the Chairman of the Board. .. and the Chairman of the Man-, agement Committee, to both of whose attention the matters in question have been brought sev-- eral times."

Apparently, the above rather commonplace bit of gosaip has thrown our school board, if not our teach ers, into a fermert because it prowoked a letter-published in these columns Saturday - in which Thos. in much of the same fashion - the Stewart, chairman of the Board, and W.
